The "Know How" of Cookery

is the result of long experience and study. For years, expert cooks have been converting the inner meats of choice Indian Corn into delicious, golden-brown crisps—Post Toasties.

A constant endeavor to make Toasties better has produced the

NEW Post Toasties

which have a new flavour and form—a true corn flavour and tender crispness unknown to "corn flakes" of the past.

The new process raises tiny pearl-like "puffs" on each flake—a distinguishing feature; also imparts substantial form—the new Toasties don't mush down when cream or milk is added.

They come factory-fresh in wax-sealed packages—as crisp and appetizing as when they leave the ovens—and that's mighty good!

New Post Toasties

Your grocer has them now.
