

EFFECTIVE ORDER POLICEMEN INSTRUCTED TO SEE THAT AUTOS ARE PROPERLY PARKED IN SQUARE

The new traffic order governing the running and parking of cars in Market Square went into effect today. Colonel Joseph B. Hutchinson will distribute copies of the ordinance throughout the city. Each patrolman was given several hundred copies of the new law. At roll call this evening the night men will receive a copy of the distribution. Colonel Hutchinson said today: "Some dealers objected to this measure because they claimed it would interfere with the unloading of freight in front of their business places. These objections can be overcome by placing a sign along the curb which might read 'Do Not Park Cars Here' or 'Keep This Space Open for Freight'. These signs can be placed on movable stands and used when necessary."

LEOPOLD'S FORCES MAKE STEADY GAINS

[Continued from First Page.] ranks further north, when invading forces several days ago were along the Dvina, the historic dividing line leading to the province of Pskov which lies on the road to Petrograd. For the moment, however, the intensity of the fighting is giving way to a scramble of the retreating forces to avoid the enveloping net and the rapid advance of the Germans to gather the full fruits of the fall of Warsaw. The outcome of these movements probably will be indicated within a few days—whether Grand Duke Nicholas will be able to resume the offensive along the new front or will concentrate his energies in rear guard fighting during a slow retreat.

German columns accompanying the invading armies as they advance are following the tactics of the Napoleonic campaign laying waste the country which they abandoned so that the advancing Germans would find the smoking ruins of towns and villages the same lack of shelter as when Napoleon marched to Moscow.

Operations in the western field have virtually been halted, except for occasional local trench skirmishes. War clouds continue to gather over the Balkans. A Central News dispatch from Amsterdam reports that Germany is preparing to evacuate by transporting 40,000 troops from Warsaw to the Serbian frontier.

Plans For Attack on Suez Canal Have Failed

Paris, Aug. 14, 11:25 a. m.—A plan for an attack on the Suez Canal is said by the Ministry of Marine to-day to have been detected and thwarted. Announcement was made in the following statement: "On August 12 after warning had been given to the Governor of Jaffa and time given for the evacuation of the vicinity, a French cruiser bombarded and destroyed the principal building of the shops of the German Warner, which were making arms and munitions and constructing bombs directed against an attack on Suez Canal. The houses in the vicinity were not damaged."

Wine Buyers Will Have to Pay Higher Prices

Washington, D. C., Aug. 14.—American wine buyers probably will have to pay higher prices for the French product this year. The wine yield in Southern France—the most important wine growing section in that country—probably will not exceed more than half of the average production, which is 550,425,000 gallons, the American consular agent at Marseilles reports to the Department of Commerce. The vineyards have suffered heavily owing to abnormal heavy rains and the action of the grape locust, the nature of the cultivation due to scarcity of labor. Consequently, wine prices have more than doubled during June.

Food Supply Is Being Considered by Cabinet

London, Aug. 14, 10:47 A. M.—The cabinet is considering important recommendations concerning the supply of food, particularly wheat, made by the commission appointed in June by the Earl of Selborne, president of the Board of Agriculture, with Lord Milner as chairman. The nature of the report is guarded closely, but it is intimated the recommendations include plans to increase the home-grown supply of wheat by guaranteeing to producers a minimum price for their product.

AMERICAN BARK STILL HELD

Bremen, Aug. 14, via London, 1:45 p. m.—The German authorities have not yet released the American bark East of Balmaha, which was brought into port a fortnight ago, having on board 5,000 bales of cotton from New York for Archangel. The situation is complicated by circumstances which may lead to the release of the bark of Balmaha a good prize, although her cargo of cotton is not contraband.

WILL PUBLISH APPEAL TOMORROW

Washington, D. C., Aug. 14.—The Pan-American appeal to all Mexican leaders and nations to restore peace will be published in the United States to-morrow morning's papers. It will be given out to-night by the State Department.

NEWS OF THE RAILROADS

TO ERECT STRUCTURES AT PROSPECT AND EAST HARRISBURG GROUNDS

The Prospect Hill Cemetery Company has contracted to sell to the Central Mausoleum Company a site in the cemetery on which the company will erect a mausoleum for community purposes.

The structure to be erected will be of North Carolina granite. It will be designed for a burial place for approximately 500 bodies. The building will be 150 feet long, 50 feet deep and 30 feet high. Huge blocks of bright gray granite will constitute the outer walls. The interior will be finished with white Vermont marble. The entrance doors will be of bronze and the cathedral windows will be set in bronze frames. The entire building space has been provided for a chapel with a recess and marble altar for the services.

Molasses Stops Fast Lackawanna Train

Scranton, Aug. 14.—When a Lackawanna passenger train stalled and became a derelict in a sea of molasses on top of the Pocono Mountains early yesterday morning the operator, in charge of the wireless line in the local station of the railroad got the shock of his life. It was about 5:30 o'clock when he first got the S. S. signals, and with visions of shipwreck in mind hurriedly tuned his instruments to catch the details of the disaster.

Investigation led to the discovery that a freight train carrying molasses had passed over the spot earlier in the morning and some of the casks had sprung a leak, allowing the fluid to leak down on the tracks.
