S. S. S. Greatest Blood Remedy Gives Results When Others Fail

Nature's Remedy For Blood Troubles.
The purifying and curative properties of Nature's great remedy have made "S. S. S. for the Blood" a household name. Thousands to-day enjoying perfect health owe their recovery from blood or skin diseases to this universally used blood purifier. S. S. S. is made entirely from roots, herbs and barks, which possess cleansing and healing ingredients. You cannot be well when your blood is impure; you lack strength and energy natural with health; your complexion becomes pale and sallow; your vitality is weakened. When

waste or refuse matter, which Nature intends shall be thrown off, is left in the system, it is absorbed into the blood and boils, pimples, rashes, blotches and other eruptions of the skin appear.
S. S. S. goes into the circulation and removes every particle of blood taint or poison of every character. All skin diseases and eruptions pass away, and the smooth clear skin, glowing with health, shows that the body is being nourished by rich, pure blood. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, all are deep-seated blood disorders, and for their treatment nothing equals S. S. S. Get S. S. S. at any drug store. If yours is a peculiar case write S. S. S. Co., Atlanta, Ga.

MARRIAGE LICENSE CLERK HAS TO OPEN UP SHOP FOR HARRISBURGER

Groom-to-Be Interrupts Cupid's Aid While His Teeth Are in a "Ham-and"; Honeymoon at Atlantic City

MRS. J. MILES NEIDIG

The marriage license clerk at Elkton, Md., the Gretta Green of Maryland, was interrupted right in the middle of a ham sandwich one evening last week.
"Are you the marriage license clerk?" gasped a sweating but happy looking young man who raced into the restaurant where Cupid's aid was getting away with a bit of supper, "his wife being on a much-needed vacation," according to the Elkton papers. "Uh-huh," grunted the clerk with difficulty swallowing the big bite he had in his mouth.
"Well, I've been lookin' for you for an hour. I want to get a marriage license, and I want it so I can get married to-night, see?"
The clerk evidently "saw" for he washed the rest of the "ham and" down with a glass of water and went with the groom-to-be to the marriage license bureau.
The names on the license were: J. Miles Neidig, West Fairview, Anna B. Heagy, 1833 Derry street, Harrisburg.
Mr. and Mrs. Neidig are spending their honeymoon at Atlantic City.

Troops Closing In
Advances recorded in the German Official statement to-day represent a further closing in by Teutonic troops on the fortress of Brest-Litovsk, the stronghold of the new Russian line of defense.

Prince Leopold of Bavaria, who yesterday reported a defeat of the Russians near Losyce, 19 miles east of Siedlce which the Germans took late last week, to-day occupied Losyce and Miedzycze, the latter place about 25 miles in a southwesterly direction from Siedlce. Afterward the Russians were beaten in a stand east of Losyce and were pursued, the Berlin statement says. These operations were within forty miles of Brest-Litovsk.
Still closer to the fortress are the armies of Field Marshal Von Maskensson, which on Saturday were reported within forty miles of the stronghold. Since then they have advanced northward in pursuit of the Russians marching toward Brest-Litovsk along both sides of the Bug.
Other successes are reported for the Germans between the Narew and the Bug, together with the capture of an advanced position at the fortress of Kovno and the Ta.

GERMANS ATTEMPT TO DISRUPT NATION

Evidence Shows Kaiser's Representatives Have Promoted Strikes in Munitions' Plants

Washington, D. C., Aug. 16.—The Department of Justice, it was learned to-day from an authoritative source, is in possession of evidence regarding the activities of agents of the German government within the United States in the direction of promoting strikes to disrupt the munition traffic, controlling press comment and influencing American opinion regarding the domestic policies of the Wilson administration, fomenting revolutionary disturbances in Mexico and in otherwise seeking improperly to shape developments in the history of the United States to the advantage of Germany and to the disadvantage of Germany's enemies in the present war.
For the past four months, or since the discovery of the passport forgery in New York, the Departments of Justice and Secret Service had been at work on the trail of the German agents, but the bulk of the evidence has really been obtained through five sources, and this evidence has been placed in the hands of the United States government officials.
Obviously, for reasons of policy, the administration has thus far declined to press action in this matter. There is not a shadow of a doubt, it is said here by persons familiar with the facts, but that the government has ample information to warrant the recall of certain attaches of the German embassy.
However, such action would undoubtedly cause additional friction in the already critical relationship between the United States and Germany, and President Wilson has desired to place the burden for any break or the rupture of relations so clearly upon Germany that he has chosen even to suffer wrongs against which he might have taken action.

Coal Prices Will Advance

On September 1st the regular winter rates for coal will be put in effect.
Better have your bins filled at once. In a few more weeks you will be burning coal and will need it.
And this fact is important—you are enabled to get much better quality of coal now than later when the mine operators are rushed with orders.
This Fall and Winter rush means coal of poorer preparation because of the necessary haste in mining, the hiring of inexperienced help, etc., etc.
For high grade quality, coal low in impurities and ash, clean, etc., etc., we advise you to purchase now.
