

RAIN THREATENS THORPE DAY CELEBRATION---NEW RECORDS AT CLEVELAND

EVERS GOES TO TROY; MAY QUIT BASEBALL

If Boston Manager Does Not Turn Up Tomorrow He Is Out For Good

JOHNNY EVERS

May Not Report to Braves at Boston Tomorrow

Boston, Mass., Aug. 17.—Johnny Evers' grievances are not settled by any means. There is a strong possibility that Evers will quit baseball.

Before leaving for his home in Troy, N. Y., Johnny told officials and clubmates of the Boston Braves that if he did not show up at Braves' Field in Boston, for the opening of the mammoth new park to-morrow, when the world's championship emblem will be raised, they would know he was through with the game for all time.

While the Braves were out West Evers declared he meant to quit baseball because of his health. He retracted this statement in a measure later, when he modified it by stating that he would make no final decision until he had seen and conferred with President Gaffney.

Before going he told Stallings that he did not know whether he would continue playing ball or not.

"If I decide that my health will allow me to play, I will be at Braves' Field on Wednesday. If I am not there you will know I am through," Johnny said.

If Evers quite now, the last slim chance of the Braves to repeat this year is shattered. While not a particularly mechanical player, Evers' brain and his magnetism and power to get the best efforts out of every player make him invaluable.

RAIN MAY CRIMP THORPE DAY PLANS

Weather Man Predicts Showers All Day; May Go Over Until Tomorrow

Rain drops threatened to put a crimp in Thorpe Day plans at Island Park this afternoon. The program called for two games with Providence, and side featuring by a big crowd of rooters from the Carlisle Indian school.

Big preparations have been made at Carlisle for this event and the Indian girls and boys expected to reach this city at noon. President Thomas Fogarty of the Harrisburg Club thought the plans would be carried out. He was unable to say what would happen in case of a postponement.

McGraw Lands the Indian Thorpe's jump into baseball came through "Muggsy" McGraw who thought he saw a corner and a big advertising feature. He took Thorpe with him on a trip around the world, and later turned him over to Jersey City. Thorpe likes Harrisburg and is expected to come here when Calahan was injured. He is popular with the fans, a great stickler and a fast man on bases.

The Providence Grays were hungry yesterday and ate up the Indians, winning by a score of 11 to 0. It was a hard luck team Harrisburg presented, the sick and injured being unable to offer any strong opposition.

Thorpe who was Miss Margaret Iva Miller before marriage, is a Cherokee Indian girl and a former resident at Carlisle, where she attended the school and met her husband. She is now in New York City.

AMUSEMENTS

PAXTANG PARK

When Manager Davis picked the five acts that are appearing at the Paxtang Park Theater this week, he certainly proved his ability as a judge of vaudeville acts. There is not an act on the bill from the skating act that opens the show to the musical comedy that closes the bill that isn't in the headline class.

The Kralies present a classical musical act that is one of the best refined musical offerings that ever appeared at the park. They play selections on the piano, cello and violin in a masterly manner, while the lady in the act has a wonderful singing voice. The act is beautifully staged with blue plastic lighting and every property detail worked out to harmonize with the surroundings.

Maes Dale was the big comedy surprise of the evening. Miss Dale makes no pretense at personal charms, but she keeps everybody laughing that is within sound of her voice. Her monologue is one of the best we have heard in a long while.

The Duo consists of two men in the world make-up of the typical stage tramp, who appear in a stage setting that faithfully represents a box car on a railway track.

Where they play to-morrow: Providence at Harrisburg (two games); Jersey City at Richmond (two games); Montreal at Buffalo.

TWO WORLD'S MARKS ON GRAND CIRCUIT

Lee Axworthy Wins Championship; Pulls Down Rich Stakes; Fast Pacing Time

Cleveland, Ohio, Aug. 17.—Lee Axworthy and William were crowned, respectively, trotting and pacing kings to-day, following two of the most sensational match races seen by the horse world in years to-day at the North Randall track.

Lee Axworthy battled three heats before defeating Peter Volo, while William won his race with Directum I in his first heat. World records took the count as a result of the afternoon's exhibition. Both matches were for purses of \$5,000.

In the first heat of the Axworthy-Volo contest the latter trotted the mile in 2:02, tying the world's stallion mark held by The Harvester and recreating a new record for a 4-year-old stallion. In the next two heats Axworthy won in 2:03 3/4 and 2:04 1/4, making an average time for a three-heat race 2:03 1/4, a new world's record.

William, in the first heat of the pace, went around in 1:58 1/4, a new world's record for a 5-year-old pacing stallion. His second heat, in 2:00, was another world's stallion record, and his combined average time of 1:59 1/4 is a world's mark for a 5-year-old pacer. William also smashed the local track record of 2:01 1/4 and paced the fastest heat of 1915.

Harrisburg Water Laboratories Company Organized in City

The announcement of the organization of the Harrisburg Water Laboratories, a company formed to test and analyze water, sewerage, milk and trades wastes, is made by Lesley McCreath, Dr. George R. Moffitt and Farley Gannett, all of Harrisburg, Pa. The laboratory of the company is in Harrisburg, and chemical and bacteriological work will be done.

The increasing necessity for keeping drinking water at a high standard of purity and the increasing appreciation of the effect of impure water upon the health and death rates has prompted the formation of this laboratory.

Mr. McCreath is the junior member of the widely-known firm of consulting chemists, A. S. McCreath & Son. Dr. Moffitt is city bacteriologist of Harrisburg and has a large private laboratory, and Mr. Gannett is a consulting engineer, late engineer of the Water Supply Commission of Pennsylvania.

The laboratories are in Pine street, Harrisburg, and the office of the secretary is at 121 Market street.
