

HOW WOMEN AVOID OPERATIONS

By Taking Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio—"My left side pained me so for several years that I expected to have to undergo an operation, but the first bottle I took of Lydia E. Pinkham's Vegetable Compound relieved me of the pains in my side and I continued its use until I became regular and free from pains. I had asked several doctors if there was anything I could take to help me and they said there was nothing that they knew of. I am thankful for such a good medicine and will always give it the highest praise."

Hanover, Pa.—"I suffered from female trouble and the pains were so bad at times that I could not sit down. The doctor advised a severe operation but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it. What joy and happiness it is to be well once more. I am always ready and willing to speak a good word for the Compound."

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Road Supervisor Blown to Pieces by Dynamite Explosion

York, Pa., Aug. 18.—Alawese Gruber, 75 years old, an ex-county commissioner, and a Democratic candidate for director of the poor at the coming primary election, was blown to pieces by dynamite a short distance south of his home, near Dardisburg, this county. Gruber was road supervisor of the Dover township district. He was working with a force of men repairing the Dardisburg road, which had been badly washed by the recent storms.

Dynamite was being used to shatter some rocks. A charge was placed and failed to explode. Gruber approached and looked into the hole to see what was the matter when the blast went off. He was thrown ten feet and his head and hands were blown to pieces.

A Logical and Sure Dyspepsia Treatment

During the past two or three years reports have frequently appeared in the Press concerning the remarkable value of bisulphate of magnesia as an anti-acid; and its ability to promote normal, healthy digestion by preventing food fermentation and neutralizing dangerous stomach acid has often been demonstrated. Until recently druggists could supply bisulphate of magnesia in powder form only, from one or two teaspoonfuls of which, taken in a little water after meals, almost instantly stops all fermentation and neutralizes acid, but sufferers from stomach trouble can now obtain a 5 grain tablet which combines all the valuable antacid properties of the ordinary bisulphate in a very convenient form. This new tablet of bisulphate of magnesia can now be had of druggists everywhere and many physicians are already prescribing them instead of the powder form.
