MORE EXPERIMENTS ON ELECTRIC BRANCH

Substitute Steel Rods; Smoke Weakens Copper Attachments

Pennsylvania Railroad officials are still experimenting on overhead rods for their new electrical branch. To date they have encountered numerous obstacles in the way of weak binders and light wires. Electricians are now replacing the overhead wires with heavier copper and steel material.

In the construction of the electrified branch between Paoli and Philadelphia on the Philadelphia division of the Pennsylvania Railroad is doing something never before tried by any railroad company. They are building a line with overhead wires, and over tracks on the Philadelphia division the Pennsylvania Railroad is doing something never before tried by any railroad company.

Sulphur Weakens Wires Sometimes ago the new line was announced as complete and ready for service. Test runs were run. Then came the discovery of weak wires and other attachments. An investigation showed that the overhead construction had been weakened by the sulphur from the smoke and heat of the locomotives. Engines are obliged to stop frequently beneath the wires of the electrical branch.

In addition to heavy copper wires, rods of steel are being used. It is said the sulphur will not affect the steel. The work on this new branch has been in progress for more than a year and is attracting the attention of electrical engineers all over the United States. It is the belief that another

HEALTH OF WOMEN WRECKED BY IGNORANCE A Prominent Pennsylvania Woman's Advice.

Franklin, Pa. — "When passing through the symptoms which come to women of 45, I used Dr. Pierce's Favorite Prescription. It is just right for that period of life, and I do not hesitate to recommend it." — Mrs. MARY E. LEACH, No. 1103 Otter St., Franklin, Pa.

For every disease or ailment of a womanly character, no matter how recent or long standing, the one sure, reliable remedy of proved merit is Dr. Pierce's Favorite Prescription.

Women should never experiment with unknown preparations; the risk is too great. Dr. Pierce's Favorite Prescription is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic.

Women are earnestly advised to take it for irregular or painful periods, backache, headache, displacement, catarrhal condition, hot flashes, salivary complexion and nervousness.

For girls about to enter womanhood, women about to become mothers and for the changing days of middle age Dr. Pierce's Favorite Prescription should always be on hand.

Any medicine dealer can supply it in either liquid or tablet form. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for free, confidential medical advice, or free book on Diseases of Women.

Dr. Pierce's Pleasant Pellets are the original little Liver Pills. These tiny, sugar-coated, anti-bilious granules—the smallest and the easiest to take. One little "Pellet" for a laxative—three for a cathartic.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRHAL DEAFNESS AND HEAD NOISES

If you know someone who is troubled with catarrhal deafness or head noises, cut out this formula and hand it to them and you will have been the means of curing some poor sufferer perhaps from total deafness. Experiments conducted in England some time ago seem to prove conclusively that catarrhal deafness, head noises, etc., were directed by constitutional trouble. It was further brought out that salivary sprays, inhalers, etc., merely temporize with the complaint, and seldom, if ever, effect a permanent cure. This being so, much time and money were spent in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The prescription which was eventually formulated and which has aroused the belief that catarrhal deafness and head noises will soon be extinct is given below in understandable form so that anyone can treat themselves in their own home at little expense.

Secure from your druggist 1 oz. Parmentin (Dandelion Strength) about 75c worth. Take this home and add to it 1 pint of hot water and 4 oz. of granulated sugar. Boil the mixture for one tablespoonful four times a day.

Parmentin is used in this way not only to reduce by tonic action, the inflammation and swelling in the Eustachian tubes, and thus to equalize the air pressure on the eardrums, but also to neutralize any excess of secretions in the middle ear.

Every person who has catarrh in any form should give this recipe a trial and free themselves from this destructive disease.—Advertisement.

ANTICIPATE HOW REPORTS ARE DUE

Much Interest Shown at the Capitol in the Way the Matter Will Work Out

OBJECTIONS ARE RAISED

News of the Day Found About the Departments of Pennsylvania's Government

Considerable interest is being shown at the State Capitol in the filing of the reports of anthracite coal production under the new act. Tomorrow is the day set for the filing of reports of the July output and a number of the largest producers have not filed. Some general will be given by the auditor general's department on the filing.

Some objections are understood to have been voiced to the filing by the twelfth because of the contention that the prices are not known much before that time. The contention has also been advanced that dredging is not washing coal and that coal dredged is not washed, but the State officials take the other view.

It is probable that some stipulations regarding the coal tax assessment will be filed before many weeks.

Will start Tuesday. — The State's official train for the San Francisco exhibition will take the Governor and the members of the State Commission to the exposition and the guests will start next Tuesday. Most of the members of the Governor's staff and State officials will take the train at Philadelphia, although several will come to Harrisburg.

Receipts Run High. — The receipts from automobile and other motor vehicle licenses at the State Highway Department have been running along so well that it is believed that by September 1 the revenue from that source will be close to a million dollars more than it was on the same day last year. It now amounts to almost \$1,600,000.

The pay rolls for the second brigade organization for their service at the Indiana encampment, were made out yesterday by Adjutant General Stewart. The total cost was \$48,677.59. Brigade headquarters received \$320.58; signal corps company, \$34.09; Tenth infantry, \$13,725.71; Fourteenth, \$9,936.20; Sixteenth, \$11,824.39; Eighteenth, \$11,585.54.

Smith Goes Home. — Thomas B. Smith, the new Public Service Commissioner, returned to his home in Philadelphia last evening. The new commissioner is expected to return before the end of the week.

To Address Meeting. — Highway Commissioner Cunningham will address a meeting of the Pennsylvania Highway Department in the interest of the campaign for freeing toll roads. Frank B. Bosch, president of the Motor Club of Harrisburg, will also speak.

Clearing Up Cases. — Commissioner Brecht was in the city yesterday clearing the last of the testimony in the Montrose water case. This clears up the hearings for the present.

Got Results. — The Public Service Commission to-day received a letter from William H. Jones, of Harrisburg, that the Chester County Gas Company had agreed to lay mains as asked in a petition made. The case has been closed.

How Island Coal Dock Impressed Two Visitors

Recently two representatives of Baltimore came to Harrisburg to inspect the island filter plant and, observing the coal dock, asked what the structure was.

When told that it was a coal wharf they expressed much surprise and after inspecting the dock they exclaimed "A coal dock? Why, we thought it was a bandstand or an amusement building. Down our way they don't paint and otherwise improve coal docks in such a way."
