WILL TAKE INDIANS AWAY IF BAUTING OF UMPIRES CONTINUE

"Rowdism Must Cease," Declares Barrow if City Wants International Club

ARRESTS WILL BE MADE

Throwing of Pop Bottles Will Not Be Tolerated Says League President

President Edward G. Barrow, of the International League, has issued a strong edict against umpire baiting and rowdism. In a statement to-day he says, "such things are a thing of the past in the International League, such actions must be stopped in Harrisburg if the fans expect to retain a club next season."

Every effort to prevent further demonstrations against umpires who officiate in International League games on the island will be made by President Thomas A. Fogerty, of the Harrisburg club. Part of the enjoyment of a ball game is vested in the good natured roasting that the fans can give an umpire, but when it goes to such a limit as throwing pop bottles and other missiles, it will not be tolerated on the field, says Barrow.

President Fogerty who is doing everything to boost Harrisburg for a place in the International League, this season, asks the fans to appreciate the work that an umpire must do and to forgive mistakes without rowdism and baiting. Arrests will follow all future actions.

There are between 250 and 300 decisions to be made by the umpires in every game and an occasional mistake is bound to be made on the close plays. Connie Mack claims the decisions for himself and a club about even themselves during a season.
