Keep Your Share of THE FORD \$17,000,000 Earning More Money

Diamonds are constantly increasing in value. For the last decade the increase has been at the rate of 17 per cent. a year for fine quality and 11 per cent. a year for good, but owing to the war the increase this year has been much greater.

Your "Fifty" will earn more money in this way, and still you'll have the pleasure of wearing the diamond.

The place at which you buy is a very important consideration, as in brilliants alone there are seven to ten colors possible. Seventeen years of study in the grading of diamonds by Mr. Diener is ample assurance that you are getting expert service.
