### President Gives Watch to Captain Aspinall

New York, Aug. 24.—In recognition of his services in rescuing five sailors of the wrecked steamship Oklahoma from a year ago, Captain William F. Aspinall of the steamship Gregory, received to-day a gold watch and compass as the gifts of President Wilson. The gifts were sent to England and thence to the British consul in New York, who presented them to Captain Aspinall. The Oklahoma was wrecked at sea not far from New York, January 4, 1914. Two of the officers of the steamer Gregory, who jumped into the sea and rescued some of the Oklahoma's sailors received binoculars from the President. These men have since been killed in the war.

### "Giants" Eat Iron to Get Strength to Win

Physicians say efficiency of baseball team is astonishingly increased by organic iron.

It also quickly builds up pale, nervous rundown people and gives the system greatly increased power to transform food into living matter—blood, brown and nerve force.

Did you ever put wood or coal into a stove or grate, start the fire and then shut off the air (draught) and see it smolder then finally go out? Fuel cannot burn unless oxygen is present. Neither can your body transform food into living matter—blood, brown and nerve force—without oxygen in your blood and your blood cannot carry oxygen without iron. Hence iron is very basis of great strength and power. There should be one part of iron to every 230 of red corpuscles.

It has been estimated that over seventy per cent. of our women and half our men are more or less anemic—lack of iron in the blood.

This is such a vital matter because life and death hinge on it. It has fixed a dozen alarm bells and gongs to go off and warn you of your impending danger when the iron runs too low in your blood. The most nervous, irritable that causes you to "fly all to pieces" on the slightest provocation; those restless nights; pains across the back; frequent headaches; that profuse perspiration inside your hands; that nervous constipation or indigestion accompanied by pale, anemic symptoms are nothing in the world but your starving blood crying out for iron, iron, more iron.

German physicians have long recognized the great value of iron in creating strength, power and endurance and the sturdy Teuton soldiers are to-day fed on a diet as rich as famous in iron. The "Giants" and famous athletic teams where great strength and endurance are required have been put on a diet rich in iron. Nature has tried to supply the demand for iron by putting it into a great variety of food, still there are thousands of people who do not get enough or at least are unable to assimilate it in sufficient quantities, and they therefore quickly become nervous and run-down. This is especially true of women owing to the great strain nature has placed upon them at certain periods. In such cases additional iron must be supplied. This is best accomplished by eating (or taking) two five grain tablets of Nuxated Iron three times a day with or immediately after your meals. It quickly gives most surprising physical and mental power. One who has never tried it can hardly realize what great strength and endurance can be obtained by this simple treatment. Be sure to get Nuxated Iron as the older forms of iron often upset the stomach and are not assimilated by the blood and therefore they sometimes do more harm than good. But with the newer iron preparations all this has been overcome. Nuxated Iron for example is not only readily assimilated and quickly makes plenty of rich, pure blood, but it is within itself a valuable stomach remedy, giving greatly increased power to digest food by its wonderfully revitalizing action on the pneumogastric or great stomach nerve.—E. Sauer, M. D.

NOTE: The publication of the above was authorized by the Public Health Laboratories. It is desired to instruct weak, nervous people how to regain renewed health and vigor without the use of stimulant, narcotic, drugs or liquor. The Nuxated Iron referred to by Dr. Sauer can be obtained from C. K. Keller and other leading druggists in our city. Adv.

### NEWS OF THE RAILROADS

#### BANQUET CLOSING FEATURE OF REUNION

Will Be Held in Chestnut Street Auditorium; Predict Record Attendance

Acceptances to the banquet of the Philadelphia Division Veteran Employees of the Pennsylvania Railroad, are coming with a rush. The banquet will be the closing feature on Saturday of the annual reunion. The banquet will be held at 6 o'clock in the Chestnut street auditorium. Covers will be placed for 400. The toastmaster will be Superintendent William E. McCaleb of the Philadelphia Division. There will be three speakers. It is probable that General Manager S. C. Long and General Superintendent George W. Creighton will be two of the speakers. An added feature will be a series of vaudeville acts by local and outside artists.

### Road Tests Electric Storage Battery Cars

Baltimore, Md., Aug. 24.—The Maryland and Pennsylvania Railroad, which runs from Baltimore to York, Pa., will shortly install two storage battery electric cars for operation over the road. A difficulty to be met by the officials of the road before the electric cars can be put in operation is the means for the recharging of the cars before the return trip to Baltimore is made.

### Panama Canal Traffic Brings Lower Rates

Washington, D. C., Aug. 24.—Because of competition on traffic between the Pacific and the Atlantic coasts through the Panama Canal, the Interstate Commerce Commission to-day authorized the Santa Fe Railroad and the Mallory Steamship Company to make rates between California points and the Atlantic coast lower than those charged for intermediate points. The order authorizes a rate of 40 cents per 100 pounds on carloads of asphaltum, beans, lentils, peas, canned goods and barley; 60 cents per 100 pounds on dried fruit in boxes and 60 cents in sacks, to Boston, Philadelphia, Baltimore and Charleston.

### Children Have Almost Given Up Hope of Ever Seeing Their Father

DAVID H. YOCUM

Have YOU seen David H. Yocum? He's about 39 years old, 5 feet 5 inches tall, weighs about 150 pounds, is of dark complexion, with brown eyes and black curling hair; on his body are two scars, one across the forehead near the part of his hair, the other below the right knee. If you've seen David Yocum, or if you've heard of him, will you get in touch in some way with his wife, Mrs. Mary Yocum? For nearly a year she has been searching for her missing husband, and her two small daughters, Margaret, 8, and Mary, 6, have almost given up hope of ever seeing their papa again. The story of the departure of Yocum dates back almost a year. On August 27, 1914, Yocum, a ward of the State at the Pennsylvania insane hospital, suddenly disappeared from that institution and he had not been heard of until a few weeks ago, when he was seen in the vicinity of Millersville. That he's still somewhere in the world, Mrs. Yocum believes, and she hasn't given up hope that she may obtain some trace of him. That is why she is asking the Telegraph to publish his picture and to tell her story.

### Conductors to Try to Change Motormen's Mind About Their Ball Playing

If you get on a trolley car to-morrow and the conductor doesn't reach for your fare, don't be astonished; the company hasn't ceased to charge—the conductor's arm will just be sore. For you see this afternoon the conductors, or rather nine of them, played a game of baseball with the motormen. The contest was staged at Paxtang Park at 5:15 this afternoon, and was arranged by Lee Jacobs, manager of the conductors, and Grand-paw, otherwise William Fry, manager of the motormen. Captain "Skinny" Roth led the nickle-ninetyers. He also played third base. "Jo" Pollock, who entertains passengers on the Steeple line, kept things noisy at second. Lem Davis, chief dispatcher, acted as umpire. His was the hardest job. The corrected score will not be computed before next week.

### GERMANY EXPRESSES REGRET

By Associated Press  
London, Aug. 24.—The Danish legation at Berlin, according to a Reuter dispatch from Copenhagen has received from the German secretary of State, a note containing an apology and expressions of sincere regret for the violation of neutrality involved in an attack upon a British submarine within the territorial waters of Denmark.

### MISS ORRIS WEDS REV. U. A. RICHIE

Ceremony Performed in Centenary U. B. Church; to Live at Dayton, Ohio

MRS. J. A. RITCHIE  
A romance having its inception at Lebanon Valley College was culminated to-day when Miss M. Belle Orris, the popular niece of J. M. Heagy, a former State representative, was married to the Rev. U. A. Ritchie, of Shamokin, pastor of the United Brethren Church at Fairfield, Ohio, and a student at Bonebrake Theological Seminary, of Dayton.

The ceremony was performed in Centenary United Brethren Church at noon, by the Rev. A. K. Wier. Only the immediate relatives were present. The bride wore a charming gown of imported lace and a hat to harmonize. She carried a bouquet of white bridal roses and was unattended. After a wedding breakfast to about thirty guests the Rev. and Mrs. Ritchie will leave for a honeymoon trip to Niagara Falls, the Great Lakes and the central west. After September 1 they will be "at home" at 1813 West Second street, Dayton, Ohio.

### Narrow Cellar Window Proves Snare to Man Wanted For Stabbing

As he attempted to escape by squeezing through a narrow cellar window at his home in Iron alley, last night, "Sandy" Brown, colored, was nabbed by Constable A. P. Bomgardner and Joseph Gore, a special officer. Brown was wanted for stabbing Norman Pynes in a brawl in the alley earlier in the evening. He had successfully eluded the police for hours. The Rev. Mr. Ritchie is now taking a course at Bonebrake Theological Seminary, Dayton. He is the son of Mr. and Mrs. Simon Ritchie, of Shamokin.

### To Deposit \$30,000,000 to Help Finance Cotton

Washington, D. C., Aug. 24.—Secretary McAdoo, of the Treasury, today announced through the Treasury Department from his summer home at North Haven, Conn., that he will support the British Order in Council declaring cotton absolute contraband by depositing \$30,000,000 in a special reserve fund at Richmond, Atlanta and Dallas, to enable them to assist in financing the cotton crop. Mr. McAdoo is convinced that there is no cause for alarm, and that local institutions are prepared to do their utmost to prevent a disastrous dumping of cotton on a falling market. He is prepared, he said, to deposit this cotton money without interest, and he believes it could be loaned to farmers at not more than 5 per cent. on cotton warehouse certificates. "Such action," said the Department's statement on the subject, referring to Mr. McAdoo's plan to charge no interest on the Government deposits, "is justified by the unusual situation respecting cotton caused by the European war. He considers it his duty to help the cotton producer of the South, as it is a matter of economic importance to the entire Nation that the harvest which has produced the cotton crop shall have a fair opportunity to dispose of it in an orderly market and not be forced, through inability to market their cotton gradually, to sell it at sacrifice prices."

### German Press Refrains From Making Comments

Berlin, Aug. 24, via London, 11 A. M.—No further details concerning the sinking of the Arabic have been published here and the Berlin press refrains from comment upon the situation resulting from that event. The newspapers publish what reports to be a brief dispatch to the London Telegraph quoting Joseph P. Tumulty, President Wilson's secretary, as saying that Americans are unduly with the President and will, if necessary, offer their lives to maintain the inalienable rights of Americans on land and sea.

### DIG CROWDS ATTEND MIDDLETOWN FAIR

Sixteenth Annual Exhibition Opens Today With Larger and Finer Exhibits Than Ever

Thousands of people thronged the spacious grounds of the Middletown Fair Association when the sixteenth annual exhibition opened to-day. An enlarged exhibit of farm machinery; an agricultural display; cattle, sheep and swine exhibits; a larger midway with a big carnival, shows and free attractions; fireworks displays and many other features will make this one of the best exhibits in the history of the association.

One of the feature exhibits is the showing of farm machinery and other products from the Hershey Store Company, Hershey, Pa. Another that is attracting big crowds is the exhibit of State College. Prof. J. L. C. Tomkins, of the agriculture department, is in charge. Soil treatment, spraying, charge of dairies and other branches of scientific farming are thoroughly explained to anyone interested. Along the midway the Liberty shows occupy the largest space. This big carnival came to Middletown in twelve special cars. It includes eight separate shows, a ferris wheel, merry-go-round and innumerable small stands and games. Purses aggregating several thousand dollars have been offered and some fast events are scheduled.
