Food for the Business **Trenches**

It takes the highest type of nerve and endurance to stand the strain at the battle front of modern business.

Many fail. And often the cause is primarily a physical one-improper food-malnutrition. It is a fact that much of the ordinary food is lacking in certain elements—the mineral salts which are essential to right building of muscle, brain and nerve tissue.

Grape-Nuts

made of whole wheat and barley, contains these priceless nerve- and brain-building elements in highest degree.

Grape-Nuts food is easy to digest-nourishing-economical-delicious, and as a part of the menu of modern business men and women helps wonderfully in building up the system for strenuous demands-and keeping it there.
