DILLSBURG TERMINAL FOR TRACKLESS CARS

Company Is Being Promoted to Establish and Operate New System

WILL OPEN WAY TO YORK

Rail Route to County Seat, Now Fifty-Two Miles, Would Be Cut Thirty-Two Miles

Special to The Telegraph

Dillsburg, Pa., Aug. 30.—A company is being promoted here to establish and operate a trackless trolley system between Dillsburg and Dover by way of Wellsville and Rossville. A representative of the promoters appeared before the Dillsburg borough council on Friday night, asking a franchise to operate in the streets of the borough, which is to be the terminal. This is a new method of transportation in this part of the country, the new system having cars built on the lines of a regular motor car operated on tracks, but equipped with heavy rubber-tired wheels and run over an ordinary wagon road. The motive power will be electricity, supplied by overhead wires as in the regular trolley system. The system is claimed by the promoters to cost less than one-fourth that of the regular trolley system.

A special meeting of the borough council has been called for Monday night, September 6, when definite action will be taken. This line when in operation will prove a great convenience to the residents of the upper end of York county, as this will give a direct route to York, the county seat, twenty miles away. At present to go to York by rail travelers must go by way of Harrisburg, a distance of 52 miles.

Garrison Will Not Talk on Roosevelt's Statement

Special to The Telegraph
Washington, Aug. 30.—The Roosevelt-Garrison controversy, growing out of Colonel Roosevelt's attack on the Wilson Administration at Plattsburg, has ended as far as Secretary Garrison is concerned. Mr. Garrison said so today, after he was asked to comment on Colonel Roosevelt's statement. The Secretary of War declined to have anything more to say on the subject.

"Not today or any other day," he said. "That case was closed day before yesterday." Opinion here among men who are well acquainted with Colonel Roosevelt is that he will not stop his criticism of President Wilson, Secretary Garrison and Secretary Daniels. The criticisms of the Colonel have not been directed specifically against Secretary Garrison, on the ground that he has not made preparations for national defense, but because he is a member of an Administration which the Colonel charges with negligence in that direction. His quarrel with Secretary Garrison was based on the public reprimand delivered by Mr. Garrison as Secretary of War to Major General Leitch, conditions for permitting Colonel Roosevelt to make a political speech at a camp conducted under the authority of the War Department.

Warden Tells Newport Society About Sing Sing

Newport, R. I., Aug. 30.—Nearly 400 members of the summer colony, clergymen, the jailer of the county jail, newspaper editors and others packed the ballroom of Mrs. John Drexel's home yesterday afternoon to hear Warden Thomas Mott Osborne, of Sing Sing Prison, speak under the auspices of the National Commission on Prisons and Prisoners. Labor He asked the assistance of the assembly for the protection of society in general from the criminal and for the work which has been done for reform in Sing Sing and Auburn.

Governor R. Livingston Beekman, of Rhode Island, introduced Warden Osborne, who spoke for 80 minutes on the life of Sing Sing, conditions, reforms and what had been accomplished. Warden Osborne swayed his audience by accounts of conditions at Sing Sing and the after life of the criminal. He asked assistance in the work of prison reform against the efforts of the politicians.

Ford Gives His Clerks Chance Following Plot

Detroit, Mich., Aug. 30.—In order that they may not have a "black mark" on their lives through their plot to steal hundreds of profit-sharing checks, three young clerks in the accounting department of the Ford Motor Company will be given another chance by Henry Ford. The youths—Frederick Clark, 22 years old, formerly of Milton, Pa.; Edward Harper, an office boy, 17 years old, and Henry Aubrey, 26 years old—still were in the Highland Park police station today and ignorant for the plans their employer had worked out for their salvation.

The price the youths must pay for escaping prosecution is work—hard work and plenty of it—in the Ford machine shops. This is a part of the reformatory policy of Mr. Ford. It is significant, too, that when they start in their reformation they will be rubbing elbows with laborers who are being paid \$5 a day, which is more than they were receiving in the Ford offices.

Tobacco Crop Will Not Come Up to Standard

Special to The Telegraph
Lancaster, Pa., Aug. 30.—Lancaster county's tobacco growers have more trouble on their hands now in the shape of musty plants, due to the excessive hot weather. The growers admit the bulk of the crop will be much below what it promised only a few weeks ago.

Continued warm weather, especially at night, would help the plants, but not sufficiently to bring the crop up to the standard. Along the Susquehanna River belt, where the soil is sandy, rapidly absorbing the rain, conditions are not so bad, and that is the locality where the most Havana seed is raised. The cigar industry in this county continues to improve, the orders for goods coming largely from the West, and as the cigar business becomes better the local leaf trade improves.
