STEELTON MIDDLETOWN HIGHSPIRE ROYALTON OBERLIN ENHAUTS ELECTRICAL ENGINE WILL MOVE MATERIAL IDEAL "HATCHET FLEND" BY SNEAKERS

New Transportation System to Be Installed With Motor Capable of Pulling 1,000 Tons Part of the new mills of the Pennsylvania Steel Company will be equipped by the Simplex Surface Contact Company of Harrisburg, with hundreds of feet of electrical track and a locomotive capable of moving 1000 tons. The new system is claimed to be one of the safest ever devised. While the locomotive is operated by electricity there is no third rail or overhead exposed wires. The contacts are made by blocks which automatically become dead after they touch the locomotive. Directors of the Simplex Company held a meeting at Harrisburg to-day and discussed methods of establishing more facilities for handling the different materials. The principal office of the company is there and its offices branch out to Harrisburg, the most prominent businessmen of D. L. Diehl, is president of the company and he secured the order from the Steel plant. This makes the fourth large steel plant in the State to have the system installed.

STEELTON POLICE NOW CONFIDENT They Have Man Who Attacked Seven Women A web of circumstantial evidence woven around E. N. Haines by the Steelton police to-day leaves little doubt, the authorities declare, that Haines is the mysterious "hatchet fiend" who brutally assaulted seven Steelton women with an axe and terrorized the whole borough for months. Haines is now in the Harrisburg Hospital, straightjacketed and under strict surveillance. He was arrested last Friday by Patrolman Booser, of the Philadelphia and Reading police, who was compelled to shoot the negro in the right leg to prevent his escape. Late yesterday afternoon Chief of Police H. P. Longaker and Constable John Gibb, in company with Kozjan, the 12-year-old daughter of Mrs. Barbara Kozjan, of 13 Cumber's Row, to the hospital. She immediately identified Haines as the negro whom she had seen spring from her bedroom window the night of July 9 after robbing the house.

On this same night the homes of Marko Kozjan, 800 South Second street, and Mathias Staranin, 74 South Second street, were robbed. A short time after Haines was seen by Patrolman James Pearson, a colored officer, who reported the strange presence of Chief of Police Longaker. This negro's description tallies with the description of Haines.

The "Sneaker" Tracks The chain of evidence against Haines is strengthened by the fact that each of the places where women were assaulted by the "hatchet fiend" prints of a peculiarly marked rubber-soled shoe, or "sneaker," were found. Haines, according to the Kozjan girl, wore such shoes. When Chief of Police Longaker visited Haines at the hospital yesterday the negro admitted that he had frequently been in Steelton. He declared, however, that his home is in Harrisburg. His name is not listed in any directory. The Steelton police did not make any effort to question Haines further on account of his mental condition. It is necessary to keep him straitjacketed all the time and it is probable that he will later be committed to an asylum.

DETECTIVE ON TRAIL OF CANDIDATE FOR CONSTABLE Detective I. N. Durnbaugh, armed with a warrant to-dun in seeking Augustus Donatale, Augustus, by the way, is conducting a whirlwind campaign for the nomination for the high constable. The warrant against Donatale was sworn out before Squire Dickinson last evening by Mike Jukola, 943 South Second street, who asserts that the candidate slugged him. Mike says Donatale hit him after he had attempted to take Nikola Jankovic, a voter, away from Donatale. Until late to-day the candidate had not been served upon the candidate.

STEELTON SNAPSHOTS Hold Special Session. — A special meeting of the West Side Hose Company will be held this evening at 7:30 o'clock to elect a number of important officers. Enlarge Church. — Work on enlarging the First Presbyterian Church, Second and Walnut streets, to provide space for a new pipe organ, was started yesterday by Contractor H. C. Wright. HOTEL MAN WANTS OFFICE The fight for council in the Fifth ward has a new twist today when H. A. Obercash, proprietor of the Bessemer House, a Democrat, announced that he is a candidate for both the democratic and Republican nominations. He will have strong opposition in Joseph Leidig, Myers street, and M. W. Hoeker, Main street.

Miss Lorna Valentine Nash of New York city is visiting her cousin, Miss Caroline Dely Moffitt, of North Front street. Mr. and Mrs. Adolph Russ and son, Francis Russ, of 2449 North street are home from Niagara Falls, Albany, New York city and Toronto. Mr. and Mrs. J. Arthur Underwood, of the Delmar apartments, have returned after a week's stay in Asbury Park. Mrs. C. W. Shelley, of 1921 Green street, has returned after a five weeks' visit with her daughter, Mrs. Ralph W. Eby, at Paradise. HELD ON DEFRAUDER'S CHARGE Charged with conspiracy to defraud, Joseph and Charles Chiara, motorcycle dealers of North Sixth street, were each held under \$150 bail for a hearing before Alderman Caveny last night. The charges were preferred by B. C. Taylor, of Enola, who asserts that the two men sold him a 1910 model motorcycle and claimed that it was a 1915 model.

CHEMICAL INDUSTRY TO BE INVESTIGATED Every Phase of Present Situation Will Be Taken Up by Commerce Department New York, Aug. 31.—Not only the dustuff situation but every phase of the chemical industry will be taken up by the agents of the Department of Commerce sent here by Secretary Redfield to investigate conditions in those trades caused by the war. Dr. Thomas H. Norton, the chief investigator who began work here to-day, said: "We are anxious to see how we can utilize the coal industry, in which we are now wasting products worth \$100,000,000. Germany utilizes every ounce of coal by-products but only 15 per cent. of our coke furnaces are equipped for reclaiming coal tar products. Only a few are actually recovering benzol, naphtha-cine and carbolic acid, which are the bases of most of the coal tar products. Unfortunately benzol and carbolic acid are used largely in explosives, with the result that these products are mostly taken up by the ammunition factories. "The potash problem is large. We import annually from Germany \$15,000,000 worth of potash, while our coal seam there are supplies of kelp which are believed to have a value of \$150,000,000 now going to waste. We have at our door enough potash to meet the demands of the world and to supply the needs of our crops, tobacco, grain and other produce, in the way of fertilizer. We have always been dependent on Germany for potash. "Photographic chemicals are now vanishing. "We don't want to get caught in such a plight again and the Department of Commerce wants to stimulate American development so we can supply our own demands and then branch out into the world's trade in chemicals. "After this investigation is concluded," said Dr. Norton, "we will be in a position to determine what can be done to relieve immediate necessities, although I am firmly of the belief that a strong domestic dyestuff industry can be built up eventually."

Asking Clemency in Last Hanging Sentence Application has been made to the State Board of Pardons for commutation of the death sentence of James Reilly, Philadelphia, sentenced to be hanged for the murder of his wife in 1912. The crime was committed prior to the election act being passed and a sentence of death by hanging had to be passed. Reilly became a fugitive after the murder but returned and surrendered, being convicted. He has a family of small boys and for their sake and because he says he was drunk when he shot he asks commutation.

A Real Flesh Builder For Thin People WHO WOULD INCREASE WEIGHT Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay-there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tab. with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and tape measure will tell their own story. Many people, having followed these simple directions, report weight increases of from five to eight pounds with continued gains under further treatment. Sargol does not of itself make fat but mixing with your food its purpose is to help the digestive organs turn the fats, sugars and starches of what you have eaten, into rich, ripe, fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form which the blood can readily accept. A great deal of this nourishment now passes from thin people's bodies as waste. Sargol is designed to stop the waste and make the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is noninjurious, pleasant, efficient and inexpensive. George A. Gorges and other leading druggists are authorized to sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back as found in every package.—Advertisement.
