Railroad Fend Ends in Deal With Wabash

The following statement has been issued by the reorganization committee of the Wabash-Pittsburgh Railroad Company: "On August 24 the court at Pittsburgh made an order authorizing H. F. Baker, the receiver of the Wabash-Pittsburgh Railroad Terminal Company, to enter into a contract with the Pennsylvania road for the construction of the so-called Bridgeville connection."

"This marks a long step forward in the rehabilitation of the terminal properties. The importance of the Bridgeville connection lies in the fact that it gives to the Terminal company a direct outlet over the lines of the Pennsylvania and permits a direct interchange of traffic with that company. The Terminal company is thus enabled to reach a territory extending from the Atlantic seaboard to the middle West over the lines of the Pennsylvania that have for a number of years been closed to it."

It is also stated that first aid should not be allowed to get the idea that they are giving medical first aid. The cause that comes in the follow-up work. However, it is stated that the number of cases treated show a degree of efficiency that would astonish and gratify the average man.

"The percentage of absences was only 9 per cent. for the whole Guard of over 11,500 men, the smallest known, and a considerable improvement over other States, and even of organizations of the regular army. The record has attracted national attention. It is believed that but for one or two instances which prevented men from attending infantry encampments the record would have been lower than ordinarily allowed for sickness among militia-men or regulars.

Tribute to A. R. Houck.—The current bulletin of the Department of Labor and Industry contains a tribute by Commissioner Jackson to the late A. R. Houck, chief of the bureau of statistics, who died during the legislative session. Mr. Houck's ability and energy are given high praise.

PREACHER HATES WAR; HE'S READY TO FIGHT

Dr. Halsey, at Fifth Avenue Church, New York, Speaks For Defense

New York, Aug. 31.—The Rev. Dr. A. W. Halsey of the Presbyterian Board of Foreign Missions, preaching in the Fifth Avenue Presbyterian Church said he had reports from mission fields not in the European war zone showing that horror almost beyond conception was the lot of many people who had committed no wrong. He declared that the atrocities of Gen. Khan and Tamerlane were being surpassed. He approved the stand of many other Christian ministers of this country who have denounced a policy of peace at any price, and said that he was ready to do anything from fighting to helping others to fight against this nation. He closed those who encourage young men not to enlist in defense of the land as enemies of both country and religion and said he did not believe in a "nabby pambly religion."

"Reports coming to our board from Turkey Syria and Persia show the people to be suffering as people have suffered in no war since the world began," said Dr. Halsey. "These people are not in the war zone. Yet they are suffering things that are worse than death. They have committed no wrong. We here in our comfort, cannot realize their terrible straits. There are things worse than war. I am not at all sure that America does not herself stand in need of some great sacrifice, some sacrificial cleansing."

FARMERS! GIVE YOUR WHEAT FIELDS WHAT THEY NEED TO MAKE THE WHEAT GROW. WHAT IS IT? WIZARD BRAND PULVERIZED SHEEP MANURE

The Food That Fattens The Wheat Heads Wizard Brand is 100 per cent. pure Sheep Manure, no filler, nothing but the pure manure. It is the greatest fertilizer for all crops. Nature's own way, it feeds the crop with just exactly what it needs, and builds up the soil for the next crop. No matter what kind of soil you have or what its condition, the Sheep Manure will enrich it. This is not so with artificial or manufactured fertilizer. You must first analyze your soil chemically, and then apply the mixture needed, guessing won't do. But Wizard Brand Sheep Manure is Nature's way. Use it for your wheat this Fall and have a better and bigger crop.

Drill or broadcast from 200 to 500 pounds to the acre—1,000 pounds won't hurt; on bag is equal to a wagon load of barnyard manure. Wizard Brand has no weed seeds—it is put through a heating and drying process of 3,000 degrees, which would destroy all possibility of any seed germinating, if it was in it. Use it for all crops. It is cheaper and better than commercial fertilizer. Order it now, do not wait until ready for it. Prices, 1 to 10 tons, \$25 per ton; half ton, \$14; 500 lbs., \$5; 200 lbs., \$4; 100 lbs., \$2.
