Well Known Musicians Will Be Heard at Majestic

Harrisburg's music lovers will be well catered to in the Majestic's new bill that is booked to appear during the last half of the week. A treat in harmony, both vocal and instrumental, is promised in the attraction that is to be presented by the Wharry, Lewis Four.

This quartet of refined musicians and singers, comprises three charming young women and a young man, and their efforts on various string instruments is said to be superb. Vocal interpolations are scattered throughout the act.

In order to have the new bill come up to the opening show of the week, in the way of laughing quality, the management engaged Cantor and Lee, the artists of musical comedy fame, who won great favor with Orpheum audiences on several different occasions. The new offering will be well balanced and contain a number of big Keith names, the management says.—Advertisement.

City Redeems \$91,000 Worth of Bonds of 1910 Public Improvement Loan

Harrisburg's bonded indebtedness was reduced \$91,000 worth to-day by the redemption of that much of the third public improvement loan. The third loan floated by vote of the people in 1910 was for \$641,000 and the series of bonds that were redeemable to-day represent the first lot due at the end of the first five years. This leaves \$550,000 of the third loan yet to be redeemed. In addition to redeeming \$91,000 to-day the city also paid out about \$20,000 for interest coupons on other loans that fell due to-day.

With the last nomination petitions in late yesterday afternoon, Steelton probationers to-day began the active canvass to determine who shall stand as the candidates for borough officers at the November election.

The big flood of petitions presages one of the sharpest contests for nominations that the borough has ever seen. For nearly every office there are more than enough candidates to fill the tickets.

No One Wants to Be First Ward Councilman?

Is the job of being a Steelton councilman from the First ward such a thankless task that no one wants it? This is a question that is puzzling men interested in the steel borough's affairs.

Evidently it is. Anyway, no one seems to want the seat now held by M. F. Harlan, appointed to succeed Frank Steer, resigned. At least, no one has filed a petition for the place on the primary ballot. When the last petitions were filed last evening there was none for this office, although all the other councilmanic seats were desired by several candidates, according to the petitions that were in.

HELD ON CHARGES OF SEDUCING WOMEN

Charged with pandering, Helen Vass, alias "Helen Fletcher," alias "Helen Wilson," was arrested by Detective I. N. Durnbaugh last evening at the home of Mrs. Mrs. Alsberry, in Adams street. The charge against Mrs. Vass was preferred by "Bud" Johnson, a local plumber, who alleges that the vagabond woman has induced Steelton women to leave their husbands to become inmates of a den of vice maintained by her in Homestead. She furnished \$1,000 ball for her appearance before Squire Gardner for a preliminary hearing to-morrow evening.

GIVE FAREWELL SOCIAL

Members of the Intermediate Christian Endeavor society of St. John's Lutheran Church last evening gave a farewell social at the home of M. R. Alteman, North Front street, in honor of Miss Rupp. In a few weeks Miss Rupp will leave for Monrovia, Liberia, where she will become a missionary. Miss Rupp has been superintendent of the missionary society for some time and as a token of the esteem in which she is held by the members was presented with a handsome traveling bag.

Lime Combats Tuberculosis

"It is difficult to escape the conviction that lime arsenical and lime stimulation are the real causes behind the masks of vulnerability and resistance in tuberculosis," writes the late Ira Van Gleason, M. D., in the N. Y. Medical Record, May 11, 1912. Ordinarily lime is not easily assimilated, but Eckman's Alternative contains it in such form and combination as to stimulate the body by the average person. This explains its success in many cases of tuberculosis which apparently have yielded.

Containing no opiates, narcotics or habit forming drugs, it is safe to try. Ask your druggist or order direct. Eckman's Laboratory, Philadelphia, Advertisement.

Best Treatment For Catarrh S. S. S. Removes the Cause

Specialists in Catarrh troubles have agreed that it is an infection of the blood. The laboratories of the S. S. S. Co., at Atlanta, have proven it. Once you get your blood free from impurities—cleansed of the Catarrhical poisons, which it is now a prey to because of its unhealthy state—then you will be relieved of Catarrh—the dripping in the throat, hawking and spitting, raw sores in the nostrils, and the disagreeable bad breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with someone who had a cold. But the point is—don't suffer with Catarrh—it is not necessary. The remedy S. S. S., discovered over fifty years ago, tested, true and tried, is always obtainable at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If yours is a long standing case, be sure to write the S. S. S. Co., Atlanta, Ga., for free expert medical advice. They will tell you how this purely vegetable blood tonic cleanses the impurities from the blood by literally washing it clean. They will prove to you that thousands of sufferers from Catarrh, after consistent treatment with S. S. S., have been freed from the trouble and all its disagreeable features and restored to perfect health and vigor. Don't delay the treatment. Take S. S. S. at once.

Graduate College, New York. Dr. Dalley will specialize on the eye, ear, nose and throat.

Make Survey.—Engineers of the Pennsylvania Steel Company yesterday took the elevation of a number of properties in Front street, between Locust and Swatara streets, on the canal side.

Main Burst.—A water main in Front street, near Mohr, broke yesterday, sending a spray of water high into the air. It was repaired before much damage was done.
