CREW OF SUBMARINE WHICH SUNK ARABIC IS HELD IN ENGLAND

Undersea Boat Not Destroyed, but Caught in Steel Net, Says White Star Officer

CRAFT WAS OF LATEST TYPE

Place of Capture Not Made Public by Man Who Claims to Know Vessel's Fate

New York, Sept. 2.—An officer of the White Star liner Adriatic, which arrived from Liverpool to-day declared that the German submarine which sank the Arabic had been caught in a steel net and the U-boat's double crew were now prisoners in England. He added that within the past sixty days the British have captured no less than fifty German submarines.

Sir Herbert, president of the Royal Bank of Canada, a passenger, said the members of the British Financial Commission who are coming to New York to effect a readjustment of the foreign exchange situation, were to have sailed on the Adriatic, but changed their plans at the last minute.

No Occasion For Alarm

From another source it was learned that the commission, after cancelling their passage on the Adriatic planned to sail for New York by way of Canada. "I see no occasion for alarm in the United States over the sudden drop in foreign exchange, and especially the English pound sterling," said Sir Herbert. "I might say that regarding how low the exchange falls, Great Britain must have the munitions of war she is securing in this country. Also, I feel confident that the exchange matter will soon be adjusted."

After stating positively that the submarine which torpedoed the Arabic had been captured, the officer said he could not, for obvious reasons, disclose the place of capture, nor detail the circumstances. He said, however, that the U-boat was of the latest and largest type in the German navy, and that the craft carried a full crew. He understood the Germans now manning all of the large submarines with an auxiliary crew for training purposes.

Reason to Be Proud

Major General Sir Samuel Hughes, Canadian Minister of Militia and Defense, and recently knighted by King George, was another passenger. He has been visiting the battle front in France and Flanders and training camps in England.

"We have every reason to be proud of the Canadians and the Yankees who are fighting with them in the trenches," he said. "I would not attempt to predict when the war will be over, but I can say that from our standpoint everything is now very satisfactory."

Six Survivors of the Arabic Arrived on the Adriatic

None of the passengers saw the torpedo which sank the Arabic. John Doherty said he was in his stateroom when he heard a shout and started for the deck. Before he had gone far he said he was shot many feet into the air and landed in the water.

RUSS MEETING WITH SUCCESS IN GALICIA

7,000 Prisoners Taken, According to Official Bulletin Given Out in Petrograd

BRITISH ARE MAKING GAINS

English Steamer of 1,180 Tons Sunk in Zone of Submarine Operations

British submarines have torpedoed four Turkish transports. Word of this feat of British undersea craft came through Paris to-day.

The British steamer Savona, of 1,180 tons, has been sunk in the zone of German submarine operations and three members of her crew are missing. Latest official reports from Petrograd dwell on the Russian success in Galicia and record the capture of more than 7,000 prisoners. German reports have indicated that the Teutonic advance has been resumed in this region after a temporary check.

Recent claims by the Turkish war office of victories over the Dardanelles expeditionary forces with heavy losses to the latter have been followed by a British official statement reporting the capture of an important tactical point in the Anafarta region and gains along the front occupied by the Australians.

Pigeons Used as Means of Communication; Eight Men Get Long Sentences

Bari, Italy, Sept. 2.—via Paris, Noon.—Eight Albanians were sentenced to long terms in prison to-day for having communicated with Austria by carrier pigeons. The men involved are Captain Shab, commander-in-chief of the Albanian bark Bella Scutarina, who was sentenced to twenty years, and seven members of his crew, condemned to seven years each. When the vessel was searched by the Italian authorities there was found a large number of empty petroleum cans and a considerable sum of gold. A naval court-martial and it was alleged that the money had been received from Austria in payment for contraband and for intelligence forwarded by carrier pigeons.

British Public Cheered by Reports of Success

London, Sept. 2, 11:50 P. M.—The British public has been greatly cheered by the version of the recent heavy fighting at the Dardanelles contained in the official report received to-night from General Sir Ian Hamilton, the British commander-in-chief. This report has been awaited eagerly in view of the assertions of Constantinople that the allies had been repulsed with heavy losses. Sir Ian claims that his forces operating on the northern section of the line captured an important tactical point commanding the Buvuk Anafarta valley, to the east and north, as well as making an appreciable gain along the Australasian front.

35 SURVIVORS REACH NEW YORK

New York, Sept. 2.—Thirty-five survivors of the liner Arabic arrived here to-day on the American liner St. Paul from Liverpool. Dr. Aubrey Gaultier, who was cabin mate of Dr. Edmund F. Woods, of Janesville, Wis., one of the Americans lost, was among the arrivals. He was met at the pier by Dr. Wood's wife, who sought a firsthand story of her husband's last hour. All of the survivors repeated statements they made after being rescued.

Brownsville, Tex., Sept. 2.—United States troops to-day were trailing a band of Mexican raiders who set fire to and partly burned a railroad trestle fourteen miles north of Brownsville shortly after midnight. Several troop trains from Brownsville, Harlingen and San Benito were hurried to the scene about 2 o'clock this morning. Reports at 10 o'clock said the Mexicans had not been overtaken.

GOVERNOR BRUMBAUGH AND PARTY BATHING IN SALT LAKE, UTAH

That Governor Brumbaugh and the party of Pennsylvanians who are representing this State at the Pan-American Exposition in San Francisco did not confine their pleasures to formal receptions on the way out is shown by the accompanying etching made from a photograph received to-day by State Highway Commissioner Robert J. Lipp, two special officers for the Pennsylvania Steel Company. The picture was made while the Governor and members of his party were bathing in Great Salt Lake, Salt Lake City, Utah. The letters on the Governor's breast indicate that he is sufficiently democratic to indulge in the bathing suit of the common people.

DEMOCRATS ARE NOT SINCERE IN CLAIMS

Their Leaders Sought at Least Two of Republican Candidates They Now Criticise

Republicans generally throughout the city are shaking hands with themselves over the unconscious humor of the Democratic situation respecting the selection of school directors. It appears that at least two of the Republican candidates were in the minds of the Democratic bosses as nonpartisan selections. In fact, when the Telegraph stated the other day that one of the Republican candidates had been approached by the chairman of the Democratic city committee with a view to placing his name on a nonpartisan school board ticket this paper was not aware of the fact that another of the Republican candidates, who has since been nominated by all the parties, had also been approached by the Democratic machine representatives.

These facts are illuminating and demonstrate the admirable selections of the Republican party in the present campaign. It is also an assurance that the people are likely to be well served in the school board as a result of the present situation. Manifestly

TO PLAN FINANCING OF BIG CELEBRATION

General "Round-Up" of Committees at Session Tonight in Orpheum Theater

PLANS WELL UNDER WAY

All Chairmen Will Report Progress of Their Respective Activities. Plans for financing the municipal improvement celebration will be one of the many important questions to be discussed at to-night's meeting of the Orpheum theater. Until all committees report plans, the general committee it is said, is unable to estimate the probable cost of the celebration.

The meeting to-night is to be a general round-up session. All subcommittees will meet with the members of the general committee. President Henderson Gilbert of the Harrisburg Chamber of Commerce will preside. General Manager C. Floyd Hopkins will make his report on the program up to date. Then will follow a report from each chairman.

It is necessary that every committee be present to-night, according to a statement made by President Gilbert to-day. He added: "From information given me, the plans are in good shape. Some of the details have not been made public because the committee is not certain they will be a part of the big program. Some new things will be told to-night and after the meeting it will mean one continuous hustle."

"The matter of finance will come up to-night. We have a fund that was turned over to the Harrisburg Chamber of Commerce by the old Harrisburg Board of Trade. How much we will need, and where the cash will come from in one of the questions that will be settled."

Brown Will Halt Persecution of Alien Possessors of Dogs

The attorney general's department to-day notified the State Game Commission that it would support the commission in an endeavor to prevent enforcement of the aliens' dog law from being used for oppression of foreigners. The commission decided recently to enforce the law gradually, bringing a few suits and hoping to impress others by force of example. Word has been received here of wholesale arrests in western counties.

In a letter to Secretary Kalbfus to-day Deputy Attorney General Davis says: "The attorney general of this State will support you by every means in his power in the proper enforcement of this act and to prevent its being made a vehicle of oppression." The secretary is advised to have an investigation made and to suggest withdrawal of all but a few suits. If this is refused the attorney general is to be notified.

Full Crew Law to Be Subject of Charges Before Commission

Members of the legislative committee of the Brotherhood of Railroad Trainmen to-day discussed with Chairman Atney, of the Public Service Commission, procedure to bring before the commission allegations of violation of the full crew law. The committee has raised a number of questions which will be covered by specific complaints which will be filed by the Trainmen and heard this Fall. The committee is advised to have an investigation made and to suggest withdrawal of all but a few suits. If this is refused the attorney general is to be notified.

FINISH PAVING BY FALL

Work to Be Started Immediately by Bellevue Streets Central Construction Co. in Bellevue Streets. Paving of the several sections of streets in Bellevue Park will likely be started by the Central Construction and Supply company early next week as it is desired to have these highways finished before Fall. The material will be the new bituminous concrete intended for light and pleasure vehicular traffic rather than the heavy work. No curbs will be necessary as the streets will be sloped at the sides in such a way as to provide ample means of drainage. The Central Construction Company got the contract for just two cents per yard less than the Alderman Charles F. Walter, the next lowest bidder. The Central bid \$13.7 per yard. Contracts for the paving of half a dozen or more sections of streets in the city with asphalt will likely be awarded at next Tuesday's session of council. This work, however, will not be started until next year.

CLINTON JONES NOW SEEKS VINDICATION

Files Suit; Goodness No! Action Has Nothing to Do With Political Situation

CONSULTS SQUIRE GARDNER

Officer Who Was Dropped From Force Says He Was "Persecuted"

Clinton Jones, recently discharged from Steelton's police force, seeks vindication. As he declared at one of his numerous appearances before the police committee to defend himself against various charges of misconduct, he has been "wronged" or, as his adroit legal adviser puts it, he feels that he has been "persecuted."

So, therefore, and likewise, for that reason, Mr. Jones seeks to be vindicated. He has gone to law about it. Late yesterday afternoon, through his attorney, Oscar G. Wickersham, Mr. Jones filed action in trespass against Steve Pop and Benjamin F. Lipp, two special officers for the Pennsylvania Steel Company.

Mr. Jones, however, did not state just how much "vindication," or, more properly, "damages," he desires. When his attorney was asked the amount of damages his client desired he admitted he didn't know.

What's the Answer?

His attorney, however, did shed a glimmer of light upon the question as to why the suit was started. It was because of certain affidavits Messrs. Pop and Lipp made, he declared. These affidavits, it will be recalled, played a prominent part in one of the Steelton council's stormiest sessions recently. It was at this session that several of the councilmen declared Jones must leave the force. And a few days later, at a special session, he did. The former officer, now a candidate for constable from the Third ward when seen at the office of Squire T. V. Gardner this morning, was rather reluctant to talk about his suit.

Asked why he had fled the suit, Jones replied, evasively: "Well, it's about time, don't you think?" Then he hustled into Squire Gardner's private office, pulled shut the door and remained closeted a long time with the squire.

The case does not have anything to do with the political situation now existing in Steelton, friends of both Jones and Squire Gardner declared this morning.

3 NEGROES AND WIFE OF DEAD MAN HELD FOR DOCTOR'S DEATH

Men Say Mrs. Mohr Hired Them to Put Husband Out of Way

\$2,000 WAS PRICE OFFERED

Woman Declared to Have Been Jealous and Was Afraid of Losing Estate

Providence, R. I., Sept. 2.—Mrs. Elizabeth F. Mohr, wife of the physician who was fatally shot while on an automobile trip from this city to Newport on Tuesday night, was arrested to-day after three negroes had signed a written confession saying that Mrs. Mohr had hired them to kill the doctor. The negroes are charged with the murder. They are George W. Heals, the chauffeur, who was driving Dr. Mohr's car at the time of the shooting; Cecil V. Brown, formerly employed as a hostler by Dr. Mohr, and Henry Spellman, half brother of Brown. No specific charges were brought against Mrs. Mohr, who vehemently denied the accusations, which she characterized as absurd.

Heals had been detained by the police since the shooting as his account of the affair conflicted with that given by Miss Emily G. Burger, the doctor's assistant, who was in the automobile and was also wounded.

Brown was taken into custody last night after Heals had told the police that he and the hostler had plotted to rob Dr. Mohr on the night of the shooting. The authorities did not believe the stories of the negroes and Brown was subjected to a searching examination during which, the police say, he broke down and admitted that he was concerned in the shooting and that Mrs. Mohr had offered him \$2,000 to kill her husband.

Heals and Spellman, questioned separately, corroborated Brown's story and the arrest of Mrs. Mohr followed. Brown at first denied that he had any connection with the affair. He said he passed over the Nayatt road where the shooting occurred, on a
