What We Say It Is, It Is Save a And Earn 6% Interest on Your Savings

Here is positively the easiest and most profitable saving plan ever devised. It makes buying a fine of a magnificent diamond alm st like receiving a present.

This "Diener Save a Watch or Diamond Plan" is simple. Any one can carry it out. There is no red about it—no investigation of your credit standing—no asking for references—no collectors.

You purchase by easy payments at cash prices, saving one-third to one-half the prices asked by that sell on time.

This plan is not confined to Watches or Diamonds. By it you can purchase Jewelry, Dinner Sets, Clocks, Cut Glass—any article on sale at Diener's high grade, exclusive jewelry store.

Saving when you have a definite object in view is easy, but while your money is accumulating you should be receiving interest on it. By the Diener Plan, when you have saved \$5.00 or more, interest at 6 per cent.

Here is the way the plan works. Come in to Diener's and secure a "Save a Watch or Diamond Plan" card. You can take your choice of the two plans that follow.

You Determine How Fast You Shall Save

You can make these payments one at a time, or any number at a time. You make them at your own convenience—once a week, or at other regular or irregular intervals. When the thirteenth payment is reached, under Plan No. 1, if you desire, a Certificate for the amount paid in, bearing interest at 6 per cent. from that fate, will be issued. Again when you have reached the eighteenth, and again when you have reached the twenty-second payments, 6 per cent, interest-bearing certificates will be issued.

While the great object of this plan is to make it easy for any one to own a fine Diamond or high-Watch, through a definite, easy-to-carry-out saving plan paying 6 per cent. interest on an accumulation of or more, you can redeem the Certificates and Cards at any time. The only restrictions are that you redeem your cards and certificates in merchandise and within four years from date of the first deposit.

You will find that you can very quickly save enough by this fine plan to secure whatever y

A Gruen Verl Thin Watch for Men-15-jewel movement in a handsome 25-year case, price \$25.00—can be secured for 25 payments and \$7.00 additional in cash under Plan No. 1; or for 20 payments, plus \$1.90 in cash, under Plan No. 2.

Louis XIV, the latest Gruen Veri Thin Model for Men-17 jewels, adjusted to five positions, temperature and isochronism, Ultra Gold Filled Case, new style patent dial with raised figures in solid gold and new style hands, price \$40.00-for 24 payments, plue \$7.00 in cash, under plan No. 2. The proper way, of course, instead of making large cash payments, is to begin a new card, letting your savings under the first card draw interest at 5 per cent., and keep on accumulating until you have a sum with which you can purchase the article desired, or secure a large Diamond, without at any time having to make a payment which cannot be easily met.
