STEELTON WAR ORDERS MAKE STEEL MILLS HUM

Entire Year's Open Hearth Output Sold; Wages Increase; New Mills Going Up

"The main features of the steel situation," says the Iron Age in its weekly review to-day, "are the large amount of new war business offered, particularly in the case of wire, and the fact that the possible open hearth steel output of the remaining months of this year is practically all under contract. Thus the very moderate pace at which new domestic business is coming in brings no misgivings. Some parts of the industry, particularly those which furnish at which wages were reduced as pig iron prices went below cost last year, are now facing higher labor cost. A few wage advances have been announced. There is yet no actual scarcity of labor, but the bidding of new munitions plants for skilled labor drawn from other operations being felt in the iron trade. Not only are new steel works missing the thousands of men who have come from Europe at every previous turn of the tide here, but they have lost some thousands to Europe this year.

There are signs that with each month the war is taking a larger part of the country's steel production. One of these is the increasing reticence of steel makers as to war contracts. It is understood, however, that 70,000 tons of round bars was booked at Chicago in the last week, and also 100,000 tons of rounds went to Pittsburgh and 50,000 tons to a Mahoning Valley plant. It seems no end to the barb wire demand from Europe. Inquiries cover about 100,000 tons, including one for 25,000 tons of painted barb wire which has come up at Cleveland. The Pennsylvania line is to get hold of warehouse stocks. The high prices due to this export demand now promise to cut down home consumption of fence wire. The possibility that war orders for large bars may fill up certain rail mills for the early months of 1916 has started no rail buying as yet, and steel makers are not even thinking of business. At Chicago the St. Paul road has closed for its structural and other steel for 1916, repeating this year's order. The Pennsylvania line has placed 3500 to 4000 tons of bridge work, and the Santa Fe is in the market for its 1916 requirements. "Pig iron is higher in the East and the advancing tendency continues, though less strongly marked, in Central Western and Southern Irons. Buying for 1916 is small, but meanwhile the producers' ideas of next year's prices are higher."

Keim Will Be Councilman; Runs Without Opposition

Charles E. Keim, a prominent businessman, is the unopposed candidate of both the Republican and Democratic parties for council in the First ward. He will undoubtedly be elected to fill the unexpired term of Frank Sties, resigned, now being filled by M. F. Hallam, who is not a candidate for election. Mr. Keim filed his petitions late Tuesday night, the last day for filing. When the list of late petitions was compiled yesterday his name was omitted and it was inadvertently mentioned in a newspaper story that there was no candidate for council from his ward. Later in the afternoon the mistake was discovered and corrected. Mr. Keim is one of Steelton's most prominent businessmen and will make an excellent councilman.

DEPRECIATION IN VALUE OF ENGLISH MONEY HAS NOT AFFECTED PITTSBURGH

Pittsburgh, Sept. 2.—The demoralization of the foreign exchange market owing to the depreciation in value of English money is not affecting the Pittsburgh district, where immense quantities of war munitions are being manufactured, according to local bankers and manufacturers. They declare that practically all the European orders placed so far in this district have been made on the basis of so many American dollars for so much finished product. Local bankers say that there has been practically no London exchange business from Pittsburgh for more than a year and the only possible harm that could come would be through the cancellation of existing orders. This, however, they declare, would be improbable, for most of the orders have been accompanied by substantial payments and guarantees.

The oldest follower of the chase in Dauphin county is J. W. Powley, 1505 North Twelfth street; he's seventy-five.

These are official figures as developed by the hunters' license book in the county treasurer's office. More than 200 licenses have already been issued although this is considerably less than had been given out by this time last year. By September 1 as a rule, nearly double this number had been issued.

The smallest huntsman is David Brady, who lives in New Cumberland. He is just five feet tall. The tallest towers more than six feet. Half a dozen who have already taken out licenses are six feet two inches.

SOUR STOMACH

When vegetable food ferments it causes sour rising in the throat, the formation of gas in the stomach which distends it and causes pain often extending to the region of the heart and arousing a fear of heart disease. This condition is called acid dyspepsia.

It is a condition that can be corrected by the use of Dr. Williams' Pink Pills to tone up the digestive organs and by proper selection of food. Send to-day to the Dr. Williams Medicine Co., Schenectady, N. Y., for the diet book "What to Eat and How to Eat." It contains information about the diet in health and sickness and is free on request. Powder Plant May Be Used by American Dyers

New York, Sept. 2.—A long conference last night between Dr. A. D. Chambers, chief chemist of the Du Pont-de Nemours Powder Company, and Dr. Thomas H. Norton, who is conducting an investigation of the dyestuffs situation here for the Department of Commerce, gave rise to a report to-day that the powder company will place its immense chemical producing resources at the disposal of American dyers. The company is now a large user of benzol and toluol, both of which are employed in the manufacture of dyestuffs.

FOR DIRECTOR OF THE POOR

On the Republican Ticket

FERNANDO LOUDERMILCH OF HALIFAX

Your Support Solicited at the September Primaries

The Republican nomination for director of the poor. Mr. Loudermilch's reputation as a business man and as a public official stands high and his record should entitle him to further service for the people. "He was born in Jackson township, June 3, 1865, and worked on his father's farm until he was about 24 years of age, after which he embarked in the undertaking and coach business in Fishersville, which occupation he continued for about twelve years. He is now engaged in the manufacturing of men's shirts. "His fellow-citizens of Jackson township discovered his value as a public servant and elected and re-elected him school director and constable. In all his undertakings, public and private, Mr. Loudermilch has 'made good.' "Mr. Loudermilch is married, has a family and lives in Halifax. He is one of the best known men in the district and has a host of friends. Mr. Loudermilch has been a life-long Republican, always working zealously for his party. "He is essentially a man of the common people. All the success which he has attained has been by his own unaided efforts. He advocates introducing the same methods of prudence and economy in county affairs which has made his own business successful. He says that his guide in all his votes will be the wishes of the people whose servant he is."

VINEGAR GETS 41 FOLKS IN TROUBLE

Dairy and Food Commissioner's Agents Have Rounded Up Many People For Violations

Just half of the sixty-two arrests made by agents of the State Dairy and Food Commissioner during August for violation of the pure food laws were for the sale of vinegar which did not pass muster under the pure apple juice ruling of the courts. These arrests were in Allegheny, Beaver, Blair, Clinton, Erie, Fayette, Lawrence, Luzerne, McKean, Philadelphia and Washington. Twenty-three distinct violations were discovered. Ten varieties of vinegar were included in those which fell short. Eighteen arrests for violation of pure food laws were made in Allegheny, Blair, Cambria, Dauphin, Erie, Huntingdon, Lancaster, Lackawanna, Philadelphia and Warren, seven being for sale of a canning compound which was plain boric acid. Nine prosecutions were brought in Philadelphia for sale of adulterated soft drinks, while coffee not up to the mark caused half a dozen arrests. Six arrests were made for sale of ice cream not in line with State butterfat requirements, other arrests being for violation of the oleo and cold storage laws. During August the revenue of the division was \$6,450.52, which runs the total for the year up to \$258,224.47. Half of the August revenue was cold storage fees and \$2,883.82 from oleo licenses.
