## TAFT PLEADS FOR STRONGER DEFENSES

### Urges Larger Army and Navy and Says Wilson Should Be Congratulated

By Associated Press

San Francisco, Sept. 3.—Ex-President Taft advocated preparedness for war yesterday, illustrated its necessity and detailed the means to that end in an address at the Panama-Pacific Exposition, delivered at "Taft Day" exercises. Mr. Taft, who broke ground for the exposition four years ago, again took the silver spade he used then and planted a California redwood tree in "Taft Circle," a silver loving cup was presented him.

The acquiescence of Germany to the United States' contention for the rights of noncombatant citizens on commercial liners of belligerents "should be the cause of profound rejoicing by every patriotic American and the occasion for congratulation to the President," said Mr. Taft. "The recent news from Washington shows that the firm attitude of President Wilson in maintaining the rights of noncombatant citizens has been acquiesced to by Germany. This must relieve the strain between the two countries. The lead our country should take, however, is to lead our people away from their duty of reasonable preparation. The incident, though closed, we all hope, except as to the lives of those who are already drowned, shows how near, as neutrals, we are to the war.
