## STEELTON MIDDLETOWN & HENSHIRE ROYALTON OBERLIN ENHAUT

### NEARBY TOWNS WANT FIRE PROTECTION

### Residents Hold Meeting and Will Petition Council to Extend Mains

Extension of Steelton's water mains to furnish the villages of Enhaut and Oberlin with fire protection will be urged upon Steelton's council by residents of Swatara township. At a mass meeting of citizens in the Enhaut Fire Company's parlors last evening, various means for supplying fire protection to the Mohn street district were discussed and it was decided to appoint a committee to take up the question of obtaining water for Oberlin and Enhaut from Steelton. Fire Chief John E. Shupp, Jr., of Steelton, with Deputy State Fire Marshals Goe and William Morgan, were present and gave talks on general methods of fire fighting. For many years the growing section in Mohn street, just beyond the Steelton borough limits, has been without adequate fire protection. No water mains extend beyond the borough line and it is necessary to have Steelton fire companies pump water for long distances before a fire can be successfully fought. Many disastrous fires have occurred in this district in recent years. Steelton's pumping station has a capacity sufficient to supply these towns with filtered water and there is now no obstacle to the plan if it is properly carried out.

### Highway Committee Meets to Solve Sewerage Problems

The highway committee of Steelton's Council will meet in special session tomorrow, at 10 o'clock, at Fifty and Elm streets, to consider sewerage problems. The meeting has been called by Chairman E. C. Henderson. The highway committee, according to Chairman Henderson, intends to extend the sewers in this vicinity so that they will catch the water which flows down the hillsides here to the great annoyance of property owners. This sewer extension is in line with the policy of the highway committee since Mr. Henderson has held the chairmanship of the system, one of the best of any borough in the State, has been extended from time to time until it now covers the entire town.

### JONES SUIT STARTS STORM OF PROTEST

### Called "Political Subterfuge" by Man Who Offers to Aid Defendants

Intense indignation was expressed to-day in Steelton municipal circles over the recent filing of a trespass suit against Benjamin F. Lipp and Steve Pop, two steel company watchmen, by Clinton Jones, the discharged borough policeman. Prominent businessmen have volunteered to raise a fund with which an attorney will be employed to defend the two men who were the chief witnesses in one of the many recent investigations of ex-officer Jones' conduct. Both Lipp and Pop were served with notice of the suit yesterday. Just what they are being sued for was not stated, as Jones' attorney has not as yet filed any statement. One of the borough's most prominent businessmen to-day said: "Why, that latest move is one of the most astounding things I have ever heard of. It's so obviously a mere political subterfuge to place borough officials who had the temerity to clash with the backers of inefficiency in our police department in an unfavorable light that it deserves the unanimous censure of every good citizen. We must rally to the support of these men. I for one will contribute to a fund for the retention of an attorney to defend these witnesses, who merely did their duty as good citizens."

### CORPORATION TAX SEVEREMENTS UP

Expects Good Sized Payments to Follow Within the Next Three Months

Efforts are being made in the corporation bureau of the Auditor General's department to complete all matters in assessment of corporation taxes by September 15. Under the new law corporations have sixty days in which to make payments and this is calculated to bring all of the taxes for 1915 within the year. The settlement of tax accounts has been under way for months, some for 1914 being included and the last of the papers will be ready for the action of the fiscal officers within a short time. Prompt collections will bring in considerable money for the State Treasury and enable the payment of the school appropriation and Highway Department road bonus. The State balance is very low to-day and in a short time a demand for \$400,000 to start the State insurance fund will have to be met. This fund is for administration of the fund.

### PULLBACKS HALT PENBROOK PAVING

[Continued from First Page.]  
The acts of the Legislature relating to street improvement. Says the News: "A little spirit of enthusiasm and the backbone of courage will bridge over many seemingly impossible difficulties. Is there any spirit of enthusiasm in favor of paving Main street? Is there any courage to push together and show the surrounding community the stuff that Penbrook is made of. It's easy to find objections but try just as hard to find reasons why it should be done and how it can be done."

**On Main Line of Travel**  
Others are entitled to consideration and have their rights as well as those in the borough. If Penbrook was off on some side road away from travel, then we could say it was 'our business' if we prefer to have dusty, muddy, rutty roads, but when the State highway and one of the leading roads out of the State Capital goes through the borough, the State is entitled to consideration and the hundreds of motor vehicle owners have a right to expect better roads. They pay a big tax on each car which goes to the road funds of the State and are entitled to good roads, especially on the main highways. The State is willing that all vehicle owners should have this privilege extended through Penbrook as well as elsewhere and is willing to pay its share. Then why shouldn't Penbrook concede this right to outsiders as well as its own residents and do its share to improve the deplorable conditions?"

**A Popular Highway**  
In an earlier issue the News said: "When the paving of Main street is completed the Jonestown Road will be one of the most popular highways out of Harrisburg and materially add to real estate values in the vicinity of the borough and the suburbs along the trolley toward Lingiestown. The motorists have been held in their complaints regarding general road conditions through Penbrook."  
"Take the same pride in the community in which you live as you would in your home. Harrisburg is talked about all over the country because of its municipal improvements. Why not have Penbrook talked about in Harrisburg as its most progressive and attractive suburb?"

In a more recent issue of the Penbrook News the statement is made that over four-fifths of the property owners in Main street have signed the petition for paving and that a majority in interest present at the meeting reported some delay on the part of the Harrisburg Railway Company, which is expected to bear part of the cost.

**EXPOSITION FREE OF DEBT**  
San Francisco, Cal., Sept. 3.—With the payment to-night of \$110,159 the Panama-Pacific Exposition will be free of debt. To signalize the event a big celebration is planned in which ex-President Taft will burn the exposition mortgage.

**DENTISTS CLOSE SESSION**  
San Francisco, Cal., Sept. 3.—The National Dental Association closed its annual convention yesterday with the selection of Louisville for the next meeting place. Dr. Thomas B. Inman, of Atlanta, Ga., was elected president.

**For New Pupils**  
"All new pupils including beginners and all others who will attend the Harrisburg schools for the first time, will present themselves at the school building nearest their respective places of residence that contains the grade to which they are entitled to admission."  
"Pupils attending the Day building at the close of school will present themselves at the Wickertown building for classification and transfer. Pupils attending white schools of Wickertown last year will present themselves at the Willard building for classification and transfer."  
"All pupils belonging in school are expected to be present on the day of opening. All absences, even during the first days of school, will be strictly reported, in accordance with the laws relating to compulsory education."
