## KAUFMAN STORE TO HOLD 'OPEN HOUSE'

[Continued From First Page.]

for the occasion, and as a momento every man and woman attending the grand opening will be presented with a handsome souvenir.

In architectural beauty, construction, arrangement, completeness and equipment, the new Kaufman Store typifies the best in modern skill, materials and workmanship.

Iron, brick and concrete combine to give strength and substantiality. Front and rear, from sidewalk to roof, every available inch is given over to window space, lending to the store a most beautiful appearance and permitting of a flood of daylight at all times on all floors.

One of the most attractive features of the front is the handsome arcade entrance, which is constructed almost wholly of glass, with wide aisles leading from one set of windows to the other.

Hardwood floors, mahogany woodwork, handsome lighting fixtures and shelving, cases and cabinets of mahogany, combine with white walls and ceiling to form a richness of beauty inside the store that is most pleasing to the eye.

Theapor system will be employed in heating the big store. Drinking fountains on each floor connected with a running ice water plant, lavatories on each floor, the pneumatic cash system, public telephone booths, and elevators have been provided for the convenience of the public.

The four floors, including basement, involve more than 35,000 square feet of floor space. The third floor will be utilized for offices, alteration rooms and stock rooms.

The second floors will be given over to the millinery, coat, suit, skirt, fur, dress, kimono, house dress, petticoat and infants' wear departments.

The first floor will be devoted to men's and boys' clothing, and furnishings, hats and caps, sweaters, shirt waists, muslin underwear, corsets, leather goods, hosiery, ladies' neckwear, handkerchiefs, gloves, knit underwear, luggage and jewelry departments.

The basement, as has been announced heretofore, is a bargain basement conducted along different lines, and will be practically a complete store in itself, offering bargains not to be had in any other part of the big store.

The sprinkler system has been employed throughout the big building.

For weeks buyers have been visiting the big markets purchasing stocks for the new store. These have been

## You Can Easily Save a Fine DIAMOND

### And Earn 6% Interest on Your Money as it Accumulates

You can buy a Diamond—a perfectly cut, flawless stone of fine color, weighing half a carat or more, mounted in any article of jewelry you prefer—and never miss the money.

This Diamond will be an investment guaranteed never to depreciate—a gem which will increase in value at an astonishingly fast pace. The increase in values of fine quality Diamonds for the past 10 years has averaged 17 per cent. a year. Diamonds never have decreased in value.

In the same easy way you can quickly come into ownership of a fine Gruen, Howard, Hamilton, Elgin or Waltham watch—or a fine set of Dinner Ware of imported or domestic china; a handsome Mantel or Chime Clock, or any other goods usually to be found in a high-class, exclusive jewelry store.

Or you can accumulate a Christmas fund with which you can purchase the finest presents you ever gave for every one to whom you want to give—with no greater strain on your pocketbook than now and then to lay aside your loose change, allowing it to accumulate, drawing interest at 6 per cent. when \$5.00 or more has been saved.

## Cash Prices—Easy Payments

By the "Diener Save a Watch or Diamond Plan" you pay cash prices. Instead of making you pay for the expense of collecting accounts, waiting for deferred payments and losses caused by bad accounts, which raises prices one-half to double. Diener pays you interest on your savings at the rate of 6 per cent.—when you have accumulated \$5.00 or more, and sells at cash prices.

## Save as Fast as You Want to

You determine when you shall make your payments. There are no collectors, no red tape, no investigations. You come to Diener's and ask for a "Diener Save a Watch or Diamond Plan" card, making your first payment—5 or 11 cents—when you get the card. After that you can make one payment or as many as you please whenever it is convenient to do so—each week, or at other regular or irregular intervals. Choose which of the following plans you will carry out. Either one will accumulate money at a surprisingly rapid rate.

PLAN NO. 1 6 per cent. interest-bearing Certificate issued on request after 15th, 15th and 23d payments. Smallest payment 6c; largest, \$4. Each payment after first, 8c additional.	PLAN NO. 2 6 per cent. interest-bearing Certificate issued on request after 10th, 13th, 17th and 23d payments. Smallest payment 11c; largest, \$2.61. Each payment after first, 11c additional.

## This Is a Splendid Idea. Try it

This plan came into being because numbers of my customers have told me they would like to own fine Diamonds, but could not pay the entire price at one time, and did not want to pay exorbitant "installment" prices.

This plan soon saves a fine diamond. When you get it, it is yours, fully paid for. And it seems like a present, so easily have you secured it.

Come in to-day and let us explain how simple the "Diener Save a Watch or Diamond Plan" is.
