By Associated Press Pekins, Sept. 7.—To obviate the necessity of again obtaining the rec-ognition of foreign nations the gov-ernment has decided tentatively to maintain the form of a republic in-stead of restoring a monarchy, but to make the presidency permanent and hereditary, according to information obtained to-day in high official quar-ters. a session of the advisory council and the newspapers have been authorized to announce a reconciliation of his views with those of President Yuan Shai Kai. In a message sent to the council to-day President Yuan Shai Kai said: "It is my constant duty to protect my country and my people and my special duty to maintain the republic. Eccently many citizens from the prov-inces have petitioned the acting par-liament to change the form of gov-ernment, a proposition which is in compatible with my position as presi-dent. But as the presidency is con-ferred by the people it should depend on the will of the people. "Moreover since the acting parlia-ment is an independent body free from outside interference I should not express my views before the peo-ple or the acting parliament but as any alteration in the form of gov-ernment makes a radical change in the executive power, I cannot remain silent even at the risk of misinter-pretation.
