Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1913 I was attacked by muscular and inflammatory rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

movement of the cortege after the first services in the house had been completed.

While hundreds of persons viewed the body last night and this morning not more than a score attended the services owing to the limited capacity of the apartment. The Rev. P. H. Balsebaugh, pastor of the Sixth street United Brethren Church was in charge.

As the hearse drew up in front of the house and the cream-covered casket was brought down the narrow driveway, the crowd overflowed and it and at times jostled against the pallbearers as they stood holding the casket while the many floral tributes were piled on top.

Mrs. Shuman rose to do well during the service breaking down but once. At its conclusion she was escorted to the Process cemetery where burial was made.

Shuman Does Not Break Down

While funeral services were being conducted over the body of Miss Shuman in a darkened room in the small home at 13 Aberdeen street, her father, accused of kicking and beating his daughter to death sat idly dangling his feet over the edge of a cot in the Dauphin county workhouse.

He was remorseful and silent, according to Warden Caldwell but at no time showed signs of breaking down. Efforts to secure an interview from him were futile and the warden will not be allowed to let any person see him until after the inquest.

To Charge Murder

No efforts were made to secure the former police chauffeur's release so that he could attend the funeral as District Attorney Stroup announced last evening. The inquest will be held by Coroner Eckinger in the office of the district attorney, Thursday evening at 7:30 o'clock. County and city detectives have about completed gathering the mass of evidence which will confront Shuman. Pictures have been taken of the various scenes and of the bruises and lacerations on the girl's body.

At no time since her arrest has Shuman shown a disposition to discuss the case with prison officials. Since his admission to the police that he had handled his daughter roughly he has kept silent, saying that he had no statement to make until he gets an attorney to represent him at the preliminary hearing which will be held after the inquest.

To Get Court Trial For Resisting an Officer

Joseph S. Shaw was held for court this afternoon to answer a charge of resisting an officer. This is the first case of the kind to be returned to court from the police department in a long time. Usually a heavy fine is imposed. Shaw was arrested yesterday afternoon during the raid on an alleged crap joint at 1300 North Front street.

According to the testimony of Colonel Joseph B. Hutchinson the offense of Shaw was so flagrant that in his opinion the court should hear the case.

The raid on the place was made by Patrolmen Schelhas, Demma, Pomich and Blair. The latter captured the man with the dice and money. Shaw who was at his home next door saw the officers make the arrest. He jumped over the fence and waist, giving the prisoner a chance to escape. Richard Shaw and Charles Brown who were arrested claimed they were only visitors and did not get into the game.

More than 11,000 pupils reported to-day in the public school buildings of the city to resume their studies for the 1915-1916 school year.

Of this number 400 entered the new L. S. Shimmell building, Seventeenth and Catharine street, 1,000 the Central High school, and more than 400 in Technical High school.

Parochial schools also opened to-day with hundreds of students enrolling. At St. Patrick's Cathedral, the sessions for the present year opened at 8 o'clock with high mass.

A register of all graduates of the schools since 1884 is included in the report along with the addresses of most of the alumni. Officers of the Alumni Association, directors of the schools, teachers, commencement speakers, programs, etc., are all included in the report. In short it covers the work of the Steelton schools for a period of three years and more in a complete and comprehensive manner.

These Men Had Catarrh.

They Both Took Peruna Both Got Well and Praise Peruna.

Mr. J. Louis Ptau, Jr., 1207 The Temple, 184 La Salle St., Chicago, Ills., writes: "For the past twenty-eight years I have suffered from hay fever, caused by catarrh. The hay fever comes on every year about the middle of August and lasts six weeks or more. It is a chronic catarrh of the nasal organs, and in people like myself, who have a very sensitive membrane, it is affected by the pollen in the air and is difficult to eradicate. I have used almost every medicine that is prescribed for the ailment, but I have had more benefit from the use of Peruna than from all others, as Peruna is a stimulant and helps nature to throw off the attacks. I now have no bother from catarrh, and I have been able to shorten the annual attack of hay fever to a few days of discomfort."

Mr. Charles S. Many, 12 Water St., Ossining, N. Y., writes: "I had catarrh for ten years and tried a great many kinds of medicines, which cost me a lot of money but did me no good. Instead of getting better I seemed to get worse. My eyes were bloodshot, my nose smelled so bad that I was ashamed to go in company. I was night guard at the prison and I would get so dizzy that I would have to catch hold of something to keep from falling. I read about Peruna in the New York World and thought I would give it a trial. I used about ten bottles, and I am cured of catarrh, and the dizzy feeling has left me and I am not bothered with it any more. I keep Peruna in the house, and when I feel a cold coming on I take a little bit of it and it does me good."

The Public Service Commission to-day gave a hearing to the objections of the Pennsylvania Utilities company to approval of the application of the borough of Bath for permission to construct a distributing system for electricity. The company has been furnishing power to the borough and objects because the town intends to take power from another company. The hearing in the Newport Water Company case was postponed. Tomorrow the commission will hear applications for incorporation, permits for mergers and extensions and contracts.

The Philadelphia Electric Company case, which was scheduled to be taken up to-day, was continued for two weeks at least as the counsel for complainants were not ready to present their views on the inventory filed by the company.

The General says:

The greatest lesson the world has learned in the past year is the advantage of military preparedness. Exactness, efficiency and constant readiness should be fundamentals in the industries of a country, just as they must be in its defenses. We have always exercised those principles in the manufacture of General Roofing products, and I believe that is one big reason why they are actually profitable to the purchaser.

Looking back with satisfaction Looking ahead with confidence

Before the days of the General Roofing Mfg. Company, roofing and building papers cost the consumer much more than they do today.

It is a question if the quality that is in the goods today was in them then. The General brought about this great reduction in cost; the General improved the quality; the General, through applying military exactness and efficiency to a peaceful project, actually benefited the buyer of roofing not only in a dollar-and-cents way but in the service delivered by the goods.

That is why today the General does 30% of the total volume of the business represented by such products.

Certain-teed Roofing

What is back of the roofing you buy is just as important as what is in it. With three huge mills the General is equipped bigger and better than any roofing manufacturer on earth. Operating these mills on military principles—applying military precision to every step from the securing of raw materials to the shipping and delivery of the finished products—all this means added value in the goods and in their service.

The **Certain-teed** label goes on only the best quality we can make. It is the best quality that can be made. The price is reasonable. We guarantee the one-ply for five years, two-ply for ten years, and three-ply for fifteen years.

In addition to **Certain-teed** Roofing—the highest quality possible to make—we produce Standard Quality and Competition Quality at lower prices. No matter what kind of roofing you want to use, we will supply it—and give you a better product at that. The remarkable record of **Certain-teed** Roofing and

Certain-teed Products is the kind of a guaranty that inspires confidence. We look ahead with as much satisfaction as we look back. Every buyer and user of **Certain-teed** Products may absolutely know that there is everything in and everything back of his purchase to more than justify his entire confidence.

Ask your dealer for **Certain-teed** products. He will show you the **Certain-teed** label on them. That label is his protection as well as yours. It means just as much to him as it does to you, and that is why, from the standpoint of making a satisfied customer, he is so likely to insist upon taking **Certain-teed** products as you are likely to insist upon getting them.
