Little Village of Enhaut Has Turned Out Baker's Dozen of Ministers

Having sent forth into the world thirteen ministers of the gospel, one of whom was a woman, the little village of Enhaut, with just a few hundred inhabitants, claims the record for turning out preachers. Among the baker's dozen who have had marked success in their callings are the Rev. Dr. W. S. Houck, of New York; the Rev. William Sheetz, of Altoona; and the Rev. Frank Snavely, of Canton, Ohio. Those who will be ordained within a few months include Ivan Fackler, Albert L. Kriner, Ebbert Sheetz and Luther Bartels. The following are now in college preparing for the ministry: Walter Houck, Frank Broske and Lawrence Weigle, Findlay College; Harry Hock and Miss Mary Baughman, Fort Scott Collegiate Institute, and Lawrence Raymond Keiser, Lebanon Valley College.

Best Way Known to Darken Gray Hair

Specialists have proved that the safest, most effective treatment for restoring color to gray hair is the good old Sage Tea and Sulphur mixture. Get it freshly mixed by asking for a 50c bottle of Sulpho-Sage. A few applications of this fine toilet preparation will bring back the rich, glossy, dark natural shade to gray, streaked or faded hair. Works so gradually and evenly that no one knows you are using it. Removes dandruff-beautifies hair. Druggist refunds price. I'lt fails. Clifton Chemical Co., Newark, N. J.

Mr. and Mrs. A. H. Ellenberger have a very many streament and structural department recently completed at the local plant under the direction of Mr. Reynders. The article, the leading story in this week's issue, is profusely illustrated.

The new mill, according to the Iron Age, is one of the most modern in the world. Peculiar conditions existing at the Steelton plant were overcome in an unique manner by the designers of the plant.

"Besides the fact that this mill represents considerably increased rolling-mill capacity in the East," says the writer, "it is of more than usual interpretation of the new combination rail and structural department recently completed at the local plant under the direction of Mr. Reynders. The attack of the Iron Age, is one of the most modern in the world. Peculiar conditions existing at the Steelton plant were overcome in an unique manner by the designers of the plant.

"Besides the fact that this mill represents onsiderably increased rolling-mill capacity in the East," says the writer, "it is of more than usual interpretation of the reducing

of an industrial depression which had thrown thousands of workmen out of employment elsewhere, this big improvement program furnished work to hundreds of men in the borough. While, of course, the depression was felt here to a certain extent, it was only these improvements that kept hundreds of families from becoming destitute.

Now that the improvements are completed, men who usually know

Now that the improvements are completed, men who usually know predict the borough will enter upon an era of prosperity never known here before. Already the flood of returning business is being felt. In many departments men are working longer hours and additional men have been given work. Slowly the new plant is getting under way and it shouldn't be very long before the effect of the big improvement program is felt in enabling the company to obtain big orders. When this comes the keen foresight of Vice-President Reynders will be fully realized by Steelton people.
