

Detroit Electric

\$1975 to \$2275

—a car of real beauty

Of course you want a good looking car—one you are proud to call yours—and in grace and beauty of design the modern Detroit Electric is a perfect example of fine automobile building.

Finest aluminum forms the aluminum panels, battery hoods, fenders and window frames. The roof is in one piece—pressed from a solid sheet of aluminum—will neither leak nor crack. Even while lowering the price of 1916 Detroit Electrics we bettered them. We urge you to match them—if you can—in elegance, quality, utility or value in the entire enclosed car field—gasoline and electric. Their large batteries provide power enough to carry you as far as you ordinarily drive in a day, without recharging. And you have at your command all the speed you need. Let us give you a demonstration at your convenience.

TEMPERANCE WOMEN WORK FOR SUFFRAGE

Dauphin County W. C. T. U. Convention Stimulates Interest in This Vicinity

The Dauphin County convention of the W. C. T. U. held yesterday in Stevens Memorial Methodist church, was for the purpose of stimulating interest in the work in this locality. Routine business was transacted at all sessions and the members were requested to earnestly work for the suffrage amendment to pass on November 2, as well as for constitutional prohibition.

The corresponding secretary, Mrs. S. O. Goho, said that 822 members comprise the Dauphin County Union, with 99 honorary members, chiefly men. Seventeen delegates will represent this organization at the York convention, October 1-4, and the next annual meeting of the Union will be held at Penbrook, in 1916. The reports of all superintendents were most encouraging, and many left their subscriptions to temperance periodicals in a white umbrella, after the session.

NEWS OF THE RAILROADS

SHOW BIG INCREASE IN STOCKHOLDERS

P. R. R. Records Larger Than Any Other Railroad in the World

The Pennsylvania Railroad on September 1 had an even 94,000 stockholders, an increase of 3,381 in a year, and the largest number ever recorded for this or any other railroad company in the world. If the same rate of increase is maintained the Pennsylvania Railroad will have 100,000 stockholders in less than two years.

The growth in the number of stockholders last year has been due solely to a wider distribution of the stock, as there has been no issue of new shares during the period. Each stockholder on September 1 of this year owned an average of 105.23 shares, or 2.96 shares less than the average holding twelve months earlier. The women stockholders alone of the Pennsylvania Railroad now outnumber all others.

On the first day of this month 45,428 women—1,743 more than a year ago—held stock in this company, and between them represent nearly a one-third interest in the property. Of the entire 94,000 stockholders, 3,053 were Pennsylvanians, 16,024 lived in New York State, 15,385 in New England, 16,871 elsewhere in the United States and 11,887 in foreign countries.

The number of foreign holders of this company's stock has continued to increase throughout the European war. There were 62 more foreign stockholders on September 1, 1915, than on the same date in 1914, and 64 more than in July, 1914, prior to the opening of the conflict.
