For Recorder of Deeds and Clerk of the Orphans' Court

FRANK J. ROTH

To the Republican Electors of Dauphin County:

I am a candidate for nomination on the Republican ticket for the office of Recorder of Deeds and Clerk of the Orphans' Court of Dauphin County. For more than twenty years I have been the Official Stenographer of the Court of Dauphin County, and for thirteen years an Attorney at the Bar. My long experience in and knowledge of court affairs especially qualify me with a thorough understanding of the business of this very important office. I come before you as a candidate with the assurance of having the esteem and the confidence of the general public; standing upon my record as a court official, as a citizen, and as a man.

I beg you to believe that I shall highly appreciate your vote, and thank you for the honor you do me. If elected, my personal attention will be given to the office; and I shall earnestly strive to merit your approval by a courteous, conscientious and efficient administration—believing this course to be the right rule of conducting public as well as private affairs.

NOTE—I have never before been a candidate for public office, and am not connected with any factional fights.

Sincerely yours,
FRANK J. ROTH.

Alexander S. Miller

To the Citizens of Harrisburg, Pa.:

As a candidate for City Council, under the commission form of government, I wish to make a statement to the people whose vote and support I am asking. I believe it is necessary for a Councilman to devote all his time to the duties of his position and, if nominated and elected, I promise to do this. I promise to give to the city that same honest, conscientious, industrious service that I would give to my own business.

I also promise to make every effort to secure for the city a Municipal Ice Plant that will furnish ice to ALL the people, as near as possible to cost as is consistent with a business conduct of the plant.

In the statement printed below I will endeavor to show the cost of building a plant and the expense of running it, and leave to you the decision as to whether the city cannot furnish ice at one-third the price it is now furnished by private parties, making a profit that will go into the city treasury and help reduce the now heavy and burdensome taxes. Our Water Department is very profitable, and with an ice plant located on the island, adjacent to the filter plant, on land now owned by the city, superintended by the same chief engineer and operated by steam taken from boilers in the pumping plant, ice could be made and sold at a very low price. The figures given here were furnished by the best manufacturers and concerns in the various lines and show the exact cost of the various items. The estimate is for a plant of the latest improved type, 100 tons capacity every 24 hours, and shows the actual cost of ice to be \$1.36 per ton delivered at the homes of the customers. Ice is now selling in Harrisburg at from six to twelve dollars per ton. This same ice can be made and sold, delivered to customers by the municipal ice plant, at a fair profit to the city at 25 pounds for 5 cents (four dollars a ton). Ample provision has been made to store the surplus ice made during the winter months and the plant can be run every day in the year.

Cost of Building and Equipment	
Building	\$32,400
Machinery	74,610
Boilers	6,800
Stable and wagon shed	8,000
20 horses	7,500
15 wagons	4,875
15 sets of harness	750
Scales, tools, incidentals	15,065
Total	\$150,000

Expenses of Operation Per Year	
Interest on plan and equipment at 4 per cent.	\$6,000
Depreciation in value of plant at 3 per cent.	4,500
1 oiler, day and night (2 men, \$900 each)	1,800
1 fireman, day and night (2 men, \$900 each)	1,800
Ice drawing gang (7 men, \$900 each)	6,300
Oil, waste and other incidentals	1,200
4,000 tons of river coal	5,000
Feed for 30 horses	3,600
2 stable men (\$600 each)	1,200
15 drivers (\$800 each)	12,000
15 helpers (\$700 each)	10,500
1 stock clerk	900
Total	\$53,900

Receipts and Profit to City Per Year	
100 tons per day, 36,500 tons per year, at \$4 per ton	\$1,460,000
(About one-third present price.)	
Cost delivered to customer	62,900
Profit to city	\$92,100

Please investigate my statement, and if you think municipal ownership of the ice plant a good business proposition for the city, and a money-saver for the people, you will help along by voting for me. Remember, water and ice go hand in hand and, as the Water Department has always been a good profit-maker, an ice plant can be made the same.

The right of a city of the third class to create and operate an ice plant, has been questioned. There never was a doubt on the subject worth consideration but to make assurance doubly sure Mr. Rodenhaver appealed to the Legislature for an enabling act and the following bill was passed with practical unanimity in both branches of the General Assembly during the session of 1913 and approved by Governor Tener on the 25th day of June of that year:

Section 1. Be it enacted, etc., That each city of the third class is hereby authorized to manufacture ice, and to sell the same to the inhabitants of such city at such rates as shall be fixed by ordinance, and to that end may erect, equip and maintain such buildings and other structures, and may purchase or hire and maintain such vehicles, as may be deemed necessary for such purpose.

Approved the 25th day of June, A. D. 1913.

JOHN K. TENER,
The foregoing is a true and correct copy of the Act of the General Assembly, No. 353.

ROBERT McAFEE,
Secretary of the Commonwealth.

Two years ago my friends responded to my appeal for support in great numbers and with genuine earnestness. For this proof of their friendship and confidence I most sincerely thank them. I have in no respect abated my desire to serve the people of the city faithfully and with the ability and energy at my command and now by this medium earnestly solicit a renewal of their pledges of friendship, assuring each voter that I will fully appreciate the favor bestowed and share my labors in the office so as to work the highest advantage to the public.

Yours for the greatest good to the greatest number,
J. EDGAR RODENHAVER
