Clement Picked For Commander by Gossip
 The Philadelphia Press says "there is much speculation in National Guard circles as to who will succeed Major General C. B. Dougherty upon his retirement from active service on September 30. In some quarters it is said that he will be succeeded by Brigadier General Charles M. Clement, now commanding the Third Brigade, and that Colonel Stilwell, commanding the Thirtieth Infantry, will be appointed a brigadier general to fill the vacancy caused by the prospective elevation of General Clement. But from very authentic sources it is announced that a major general commanding the division will not be appointed immediately upon the retirement of General Dougherty. Instead Brigadier General Clement will act as the division commander, still maintaining his present grade. The promotion, it is said, will not happen until the National Guard of Pennsylvania complies with the wishes of the War Department and has its divisional organization complete in conformance with the United States Army organization. This will happen very soon."

MURDERED MILLIONAIRE WIDOW AND WITNESSES

Mrs. Elizabeth Nichols, aged sixty, who was left about \$2,000,000 on the death of her husband, recently was killed in her costly home on the Fifth avenue section of New York the other night by three masked burglars. They believed she kept in her room jewelry worth \$100,000 or more; they got about \$5,000 worth.

Wetzel Retires From Cumberland Contest
 John W. Wetzel, one of the candidates for the Cumberland county judicial nomination, retired in favor of Sylvester B. Sadler on Saturday night, causing consternation in the ranks of the opponents of Sadler and bringing wails from the Rupley contingent. The action of Wetzel is believed to make very sure a vote over fifty-one per cent for Sadler, giving him the election. Eleven years ago Wetzel ran against Judge Sadler. He was apparently convinced that it was not worth while to run again.
 In his statement the retiring candidate says:
 "To My Friends:—
 "I have determined to ask my friends to abstain from voting for me at the ensuing primaries on the 21st instant. I am firmly convinced that no Democrat can be elected at the primary or Fall election, and therefore for the sake of the party, the judicial contest should be settled at the primary on Tuesday next.
 "I have consistently contended that there should be but one Democratic candidate for judge, so that a factional fight could be avoided, and there would then be a chance for the success of the Democratic nominees for the county offices. That they may have an opportunity, I am willing to make the sacrifice and withdraw so that this result may possibly be attained.
 "In my careful canvass of the county I have found the predominant sentiment expressed to be in favor of the selection of S. B. Sadler, Esq., the members of the bar irrespective of party, being almost unanimously in his favor. His fitness and fairness are generally recognized. The office being nonpartisan, the Democrats can, therefore, feel free to support him, and remove the judgeship from further contention. This will give an opportunity for a fair discussion of the merits of the candidates for other offices.
 "I am deeply grateful to my many advocates and friends, and fully appreciate their exhibition of loyalty. I trust that I can in the future merit their continued support, and that I may be permitted to reciprocate the many kindnesses that have been shown to me.
 "Very truly yours,
 "J. W. WETZEL"

Planning For the "Seeing State" Tour
 Governor Brumbaugh's automobile automobile tour of the State, which is planned to start from the State Capitol on October 4 will close on City Hall plaza, Philadelphia, on the night of October 9, according to an announcement issued to-day by the State Highway Department which is in charge of preliminary arrangements for the tour to "see Pennsylvania."
 The State Highway Department also announced that members of automobile clubs who may desire to constitute themselves escorts will be welcome to accompany the tour through their respective counties. It has been suggested that such organizations meet the party at county lines where it is planned to act as escorts.
 Inspection of the route to be covered on the tour will be made this week by George H. Biles, deputy highway commissioner, and W. R. D. Hall, statistician of the department, who will mark the route and make hotel reservations.

Terrific Struggle For Possession of Trenches
 By Associated Press
 London, Sept. 20.—The Times today publishes the following dispatch from a correspondent with Russian forces, sent on Saturday from Dvinsk: "I spent three days on this front, where a terrific battle is raging. When attacks die away at one place they begin instantly at another. The nearest front is only twelve miles from Dvinsk, whose deserted streets resound with the detonations of heavy gunfire.
 "The Russians are holding the Dvinsk front in an excellent line of trenches three deep and despite constant fierce attacks supported by concentrations of heavy artillery they have held the enemy off thus far. Many times the first line has been taken by the enemy, then retaken by our counter-attacks. The Germans are twice or thrice our strength and have enormous superiority in guns as always, but hitherto they have gained no decisive advantage, each of their attempts being paid for with heavy loss of life."

FINANCIAL MEN MEET
 By Associated Press
 Paris, Sept. 20, (Noon).—Pierre L. Bark, Russian minister of finance, arrived in Paris to-day and conferred with Alexandre Ribot, French Minister of Finance. He will subsequently meet Reginald McKenna, British chancellor of the exchequer, either here or in London. At these conferences the financial problems of the entente powers are to be taken up.

STONE VALUE IMMENSE
 By Associated Press
 Washington, Sept. 20.—Production of stone in the United States in 1914 reached the enormous value of \$77,412,292. Figures made public to-day by the geological survey show that the output was the largest of any year prior to 1912 and was only slightly less than that year. Pennsylvania produces more than ten per cent of the total output.

ADVICE TO THE CALIFORNIA JAPANESE
 The Osaka Mainichi, a leading paper of that busy town, is very much pleased that Japan's participation in the Panama-Pacific Exposition is apparently ameliorating the feeling of Americans, especially Californians, toward Japan. The Japanese in America, it says, should seize this opportunity to dissipate themselves and endeavor to remove causes that led to the exclusion movement. They are under three disadvantages, namely, they are not yet strongly established, they are in want of men who can really lead them, and they lack connections with the American labor circles. So the Mainichi advises: Work hard, become rich and organized. It suggests further that the Japanese in California bring among them some influential Japanese from home, so that the latter in a friendly way may arrange matters with the politicians and businessmen of California. Japanese farmers and laborers should also organize so that they may work together with the American unions. In any case, says the journal, American attention is now being turned toward bettering Japanese-American relations, and the opportunity once missed will not come back again.
