

**Pennsylvania Mothers and Daughters.**

Ridgway, Pa.—"I have had a satisfactory experience with Dr. Pierce's Favorite Prescription. Sometime ago I needed medicine for kidney trouble. I procured 'Favorite Prescription' and used three bottles. It helped me wonderfully. It overcame the trouble and I grew better every day. I had so much confidence in this remedy that I recommended it to my daughters. They used it with very marked benefit. We consider 'Favorite Prescription' a reliable and valuable remedy."—Mrs. C. L. Woodward, N. Broad St.

An affection confined to women must have its cause in the womanly nature. There is no doubt that a diseased condition of the delicate womanly organs, is in general responsible for feminine nervousness and an undermined constitution.

For headache, backache, hot flashes, catarrhal condition, bearing-down sensation, mental depression, dizziness, fainting spells, lassitude and exhaustion women should never fail to take this tried and true woman's medicine. Prepared from nature's roots and herbs, it contains no alcohol nor narcotics, nor any harmful ingredient. In either tablet or liquid form. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., today. Book on women's diseases sent free. Write also for free and confidential medical advice.

The modern improvement in pills—Doctor Pierce's Pleasant Pellets. They help Nature, instead of fighting with her. Sick and nervous headache, biliousness, costiveness, and all derangements of the liver, stomach and bowels are prevented, relieved, cured.

**INDUSTRIES WILL BE GIVEN SURVEY**

Department of Labor and Industry Planning to Find Out All About Plants

An industrial survey of Pennsylvania, covering all the large manufacturing plants and other establishments where more than five children are employed, will be conducted by the State Department of Labor and Industry with the co-operation of school authorities, within the next few weeks, with a view to locating continuation schools where they are most needed. The survey will be made by a corps of 10 competent factory inspectors.

Because of the provisions of the new child labor laws, resulting in working children between the ages of 14 and 16 to attend continuation classes at least eight hours a week—these hours deducted from their regular working schedule—some employers are dispensing with the services of children. Already, it is estimated, 1,500 boys and girls have lost their positions. One of the principal objects of the industrial survey will be to determine just how many children will be retained in service when the law becomes operative on January 1.

The whole problem of education for working children is being considered by the State Committee on Juvenile Employment. On this committee are Jacob Lightner, chief of the Bureau of Employment, Department of Labor and Industry; Paul N. Furman, chief of the Bureau of Labor Statistics; Millard B. King, of the State Department of Public Instruction; H. H. Wheaton, consulting expert of the Department of Labor and Industry, and F. N. Brewer, president of the Public Education Association.

One plan suggested for the solution of the problem in this city is the organization of a division of vocational guidance in connection with the Bureau of Compulsory Education. The need for this additional agency, according to those who have studied the question, is urgent. The primary object of the proposed division of vocational guidance would be to study the needs of children seeking employment and of employers desiring to hire children.

Juvenile employment work has been undertaken by several cities in connection with vocational guidance. In Boston the placement bureau has worked for several years in close co-operation with the certificate bureau in the offices of the Board of Education. In the Boys' High School of Brooklyn excellent work has been done. Wherever the work has been undertaken it is said results have been obtained which prove not only the necessity for, but the great value of such supervision and assistance. If the suggested plan is adopted Philadelphia will be the first city to establish a comprehensive juvenile employment bureau in connection with the public school system.

**Road Accidents Hurt Half Dozen**

Hagerstown, Md., Sept. 21.—Half a dozen persons, including two from Pennsylvania, were injured in automobile and motorcycle accidents around Hagerstown over Sunday. While Leslie Garvin and his wife, of York, Pa., were coming here in an automobile to visit Mr. Garvin's parents the machine overturned when it struck a bridge. Mrs. Garvin and her husband were pinned under the car, the former with her head in a small stream. Mr. Garvin released himself and rescued his wife, who was in danger of drowning. Both were injured. Jacob M. Drury was pinned under his car when it turned turtle on the Western pike, sustaining serious injuries. Cecil Whitehead and Frank Dyer, of Washington, were hurled from a motorcycle when it crashed into a fence near Boonsboro, both being badly hurt. William Kreigh collided with a coil near Clearspring and was thrown from his motorcycle, sustaining a double fracture of the collarbone.

**Wm. Potteiger Freed on Attempted Robbery Charge**

Special to The Telegraph  
Penbrook, Pa., Sept. 21.—William Potteiger, charged with having attacked Frank Budnick, a Steelton jitney driver ten days ago for the purpose of robbery, was discharged by Squire McGarvey last evening for want of sufficient evidence. Budnick swore positively that Potteiger was one of the two men who assaulted him but his evidence could not be corroborated by other witnesses. The State Police made the arrest but when other passengers in Budnick's car could not identify Potteiger, they were willing to have the case dropped until they can make a further investigation. If future evidence which they hope to get again points toward Potteiger, he will be rearrested. The State officers are now in possession of some evidence and they hope that within the next week to secure enough reliable testimony to convict the men who had Budnick take them to Paxtonia for the purpose of robbing him.

**TYPHOID AT BUENA VISTA**
