MUSCULAR BACKACHE

The muscles of the back do the heavy work of the body. When they are overworked or ill nourished they ache and people who are looking for trouble begin to worry about their kidneys. Backache may be due to lumbago, which is rheumatism of the muscles of the back, but more backaches are caused by overstrain, overwork and muscle starvation due to thin blood than by anything else.

Dr. Williams' Pink Pills build up the blood and sufferers from backache would do well to try this treatment before giving way to worry over a fancied organic disease. Rest and the tonic treatment with Dr. Williams' Pink Pills will correct most forms of backache, even rheumatic. For people who work too hard or dance too much and sleep too little, better habits and a course of treatment with Dr. Williams' Pink Pills are all that are needed to drive away the pains and aches that are warnings of a coming breakdown.

Why the Wharton School Came To Harrisburg

Many people have asked—Why did the Wharton School decide to offer evening work in Harrisburg? The answer to this question discloses the spirit of present-day "higher-education." A great educational institution, like the University of Pennsylvania, loses money every day. It costs, for instance, approximately \$100 to give instruction for which the student pays \$50 tuition. The deficit is made up by income from endowments, private gifts and appropriations by the State. The University is supported because it performs a public service of inestimable value. This service is almost limitless in scope. Experimental work in medicine brings discoveries which prevent or cure disease. The Veterinary School benefits every farmer. The Wharton School is training the future business leaders of our cities and towns.

For every man who can afford four years of residence in Philadelphia, there are five men to whom the expenditure would be prohibitive. The five should not be deprived of an opportunity for University training by the accident of circumstance. The Wharton School has therefore been brought to your door. The University has kept faith with the people of the State of Pennsylvania. Have you realized what this means to you?
