

Women AND THEIR Interests

Epicurean Episodes

By DOROTHY DIX

Among the easily prepared desserts what women are fond of making none is more popular than the various forms of frappe. Indeed, many housekeepers keep a supply of frappe always on hand, which they serve to unexpected guests, and members of their husband's family, or his old friends, who drop in uninvited to dinner.

There is almost a limitless variety of frappes, as women vie with each other in the concoction of this cooling dainty, and each adds some little peculiar personal touch to the one that she hands out that gives it an individual punch and flavor. This gives a wide latitude in the construction of this dish, so that a frappe may be either bland and sugary, or acid and bitter, or peppery and gingery, according to the taste of the maker. The only essential point is that it retains its frigid character when it is eaten.

Men are not fond of frappes and seldom return to a house in which they are served, but women seem to have an insatiable appetite for them, and often exchange frappes with each other as an indication of feminine friendship.

The most common variety of frappe is lemon ice, which is invariably served at family reunions on Christmas and Thanksgiving Day, when we are all made happy by the remembrance that we will not have to foregather with our dear near relatives again for a twelvemonth.

Lemon ice is made by setting aside the milk of human kindness until it sours and turns to clabber. Into this stir all the lemons in the family, and then flavor it up to taste with a barrel of perfect candor and home truths.

MAJESTIC VAUDEVILLE
By inaugurating a very worthy holiday film, the Majestic yesterday launched the municipal festivities in lively fashion. King vaudeville came to town much more recently than fifteen years ago, yet the theatrical fields here must certainly be in evidence

when it comes to displaying wares in the way of city improvement.

set this mixture to cool on the pantry shelf of the woman whose turn it is to entertain the family party, and you will have a lemon ice that cannot be surpassed for tartness and chilliness.

Another form of frappe that is very fashionable, especially among the newly rich, is called Glace a la Ancienne. This dish requires a steady nerve in the one who prepares it, but it is admirable to pass around when the people you used to know when you were poor drop in to see you, and want to talk over old times before your newly acquired English butler.

THE ONLY GIRL
That dainty musical comedy, "The Only Girl" which was the musical sensation at the Lyric Theater, New York last season, will have its first presentation in this city on Tuesday and Wednesday at the Orpheum, Sept. 28 and 29 with a special matinee Wednesday.

Woman's Liberty Bell in This County Sept. 28
The Woman's Liberty Bell, which is destined to proclaim the same political independence for the women of Pennsylvania as its "mother," the original Liberty Bell did for the men, will enter Dauphin county on its triumphant tour of the State on next Tuesday, September 28.

A PRETTY FROCK FOR AUTUMN DAYS

The Pattern for this Design Besides Allowing for All Seams, Gives the True Basting Line and Shows Diagrams for Cutting and Making.

By MAY MANTON

Mothers who are preparing for the autumn school days will have to like this little dress. It is a very simple and easy one to make and since the pattern gives both the basting line and the seam allowance, cutting is much simplified.

1915 Fall Models Now Being Shown

Rengo Belt

Reducing Corsets

Strictly specialty corsets made only for stout and medium women. You will find that your weight and strength are matched in the strength of these corsets. The principal reason for this great supporting strength is in the **Rengo Belt** tailored-in feature, now made famous by seven years of test and success. If this principle were not scientifically correct for stout and medium figures, **Rengo Belt** corsets would cease to exist, for it is the foundation of every garment of every model. Please note that the **Rengo Belt** adds no material weight or bulk, but multiplies the strength many times. There are models with and without "Steelastic" webbing. When extra flexibility and added support is desired, our exclusive "Steelastic" will be found to possess superior strength and wearing quality. Boned throughout with double watch spring steels—guaranteed not to rust.
