

WOMEN AND THEIR INTERESTS

"Their Married Life"

Copyright by International News Service

"I can't get a compartment," said Warren discontentedly, turning away from the ticket bureau and looking askance at Helen and Louise. They had left Bob to finish up at the hotel, pay their bill and see to it that the traffic they had neglected to try for a compartment or two earlier.

"What shall I do?" said Warren again. "Why, do the best you can. Yes, any way would be better than staying over when we want to leave," said Louise. "Well, I'll get two sections that won't be so bad. Maybe we can change on the train."

THE TRUMPET HAS BLOWN! THIS IS THE CRACK OF DOOM IN PIANO PRICES AND TERMS!

Open Tonight Until 9 O'clock

The Great Final Windup is in SIGHT!

HOW TO PREVENT ACID STOMACHS

And Food Fermentation

By a Stomach Specialist. As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost instantaneously by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent. of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, one to two teaspoonsful of saturated magnesia, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the saturated magnesia, as I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G.—Advertisement.

HOW TO BE SLIM

By Winifred Grace Forrest. If you are too fat and want to reduce your weight 15 or 20 pounds, don't starve and weaken your system, or think you can always be laughed at on account of your fat, but go to any good druggist, and get a box of Oil of Korein capsules, take one after each meal and one before retiring at night. Weigh yourself once a week and note what a pleasant and reliable method this is for removing superfluous fat from any part of the body. It costs little, is absolutely harmless and I am sure a week's trial should convince anyone that it is unnecessary to be burdened with even a single pound of unsightly fat.

FOR LITTLE BOYS

The Pattern for this Design Besides Allowing for All Seams, Gives the True Basting Line and Shows Diagrams for Cutting and Making.

By MAY MANTON

8777 Boy's Suit, 2 to 6 years.

No suit ever devised is more becoming to the small boy than this one in Russian style. It is finished with a sailor collar and with a low shield that means comfort as well as smartness. It can be made from washable materials and from wool fabrics. In the picture, white galatea is trimmed with collar of blue and that material is good one for the autumn, but the model can be copied in linen or in cotton poplin or in serge for the older boys. White cotton gabardine is good too and the collar could be either of white or of a color. Just now, there is a fancy for embroidering boys' suits and cotton gabardine or linen or galatea would be charming with the collar matching the suit and finished with scalloped edges, while the pockets and the shield also are scalloped. The suit is a very simple one to make, the coat being long and held in by means of the belt and the trousers are the regulation sort with hems at the lower edges in which elastic is inserted. The sleeves are laid in plaits at the wrists that give a pretty, cuff-like effect.

For the 4 year size will be needed 4 yds. of material 27 in. wide, 3 1/2 yds. 36, 3 1/4 yds. 44 with 1/2 yd. 27 in. wide for the collar.

The pattern No. 8777 is cut in sizes from 2 to 6 years. It will be mailed to any address by the Fashion Department of this paper, on receipt of ten cents.

OUT OF THE SHAME OF CHINA

The Day of National Shame! That is the way the Chinese have named May seventh, 1915, when great China bowed her submission to tiny Japan. You remember the details—how you Japan sent an ultimatum to China, Mother of the East. It was to be answered on or before May seventh. China looked at her resources; she had no fit army, no wealth, no strong industries, no education, none of the things with which resistance could be made. Humiliated and helpless, she accepted the ultimatum. After the day of acceptance, China was bowed to the dust. "Self-Confiscation Disgrace Societies" were organized here and there throughout China. Prominent Chinese agreed to set the custom of lowering the rainbow flag of the Republic each year on "The Day of National Shame."

All China is now striving, first, for a real army and navy so that China may be able to resist foreign aggression; second, for the development of native industries, so that China may not be dependent upon foreign goods; third, for universal education so that Chinese wits may not be outclashed by foreign wits. Out of her disgrace China is entering upon the most vigorous national and industrial career she has ever known. Shame did it. Willard Price in World Outlook for October.
