## OFFICIAL COUNT BEGINS FRIDAY

All Primary Returns Not Yet in; Fry and Peace Both Nominated For City Controller

DEWITT A. FRY

Whose name was omitted as nominee with Ashton D. Peace for city controller.

The official count of the primary returns in Dauphin county will be started to-morrow at noon in the office of the county commissioners, with whom the ballots and return sheets have been filed according to law. There will be no material change in the several tickets as announced yesterday, except that through some misunderstanding it was reported that Ashton D. Peace would be the only candidate for city controller. This is not correct. Dewitt A. Fry, former city councilman, was second man and his name and that of Mr. Peace will appear on the ticket together.

There was some doubt as to the nomination of the Republican side for poor director, but there seems to be no question that Fernando Lodermich, of Halifax, and F. B. Snively, of Hershey, are the winners. So many precincts were still outstanding to-day and so many inaccuracies have crept into the unofficial returns as reported from the county districts that it is impossible to-day to give the returns in anything like correct form. The Telegraph will publish the city and county totals as soon as the official count is completed.

Studying the figures. To-day the candidates and their friends are comparing notes and making a more or less intimate study of the figures. Of course, since Mayor Meals is out of the woods the whole discussion with respect to the city government drops back to the selection of four city commissioners. It is likely to be a lively scrap during the remaining period between the primaries and the general election in November. Eight of the sixteen candidates for the City Council have been eliminated and four more must be eliminated in the November balloting. Who will be the four successful aspirants? This is the question which is making every candidate of the eight remaining pause. Mayor Meals is understood to favor Mr. Steiner, an ex-president of Common Council, and as Mr. Gorgas seems to be entirely out of danger as is, perhaps, Mr. Bowman, there would seem to be prospect of an interesting scrap for the other two places. Royal is believed to be out of the running inasmuch as the Republican voters will undoubtedly endeavor to retain these members of the municipal commission.

Of course, the air was full of the usual talk to-day of double-crossing and the other unpleasant incidents that usually punctuate a primary contest. Leaders of all factions are being blamed for insincerity and the customary threats of retaliation are heard. Much of this sort of talk will pass away with the bitterness of the fray. Republicans generally are more than pleased with the showing of the party in the preliminary fracas and it is believed that wise party counsels will prevent inharmonious factors and disturbances during the main contest.
