True Secret of Keeping Youthful Looking

(The Beauty Seeker.) "The real secret of keeping young-looking and beautiful," says well-known scientists, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste materials remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes sluggish, dull-eyed, wrinkles appear on the forehead, the hair falls out, the skin becomes sallow and the complexion is unattractive. "But to get liver and bowels working as they ought, without producing evil results, there is the problem. Fortunately, there is a simple remedy. One of the most effective is a small tablet which has been called "Senntal." This is no habit-forming medicine. It is a harmless, vegetable, non-toxic substance. It is an old formula, long recognized by the medical profession, which has been put into a convenient, palatable form, and at such small cost no one need be deprived of its wonderful benefits. "Senntal tablets"—that's the name—are entirely vegetable and there's no habit-forming element in them. They get about a dime's worth, and swallow one at bedtime to realize there's nothing so good as Senntal. The action in the morning is so easy, so soothing, and instead of a weakening after-effect, you feel truly refreshed and invigorated. Senntal tablets are not only the finest remedy known for constipation and torpid liver, but also the most sensible treatment for complexion difficulties of the character mentioned.

Chief Cause of Pimples, Blisters, Sallow Skin

(Messenger of Health.) Unightly eruptions, pimples, blisters, blotches, sallow or muddy skin, usually are due to a sluggish liver, a constipated bowels—and a sallow complexion is a consequence. How foolish in such cases to resort to outward applications, which can never have any permanent results. If more people only knew it, there is a very simple remedy, to be found in any drug store, which is as effective as any other, and it is so easy to use. It is an old formula, long recognized by the medical profession, which has been put into a convenient, palatable form, and at such small cost no one need be deprived of its wonderful benefits. "Senntal tablets"—that's the name—are entirely vegetable and there's no habit-forming element in them. Great Demand for New Constipation Remedy

They say that the advent of the "senntal" vegetable substitute for calomel has resulted in an extraordinary demand for this remarkable product. It seems to have made a hit particularly with those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives. "Senntal tablets, aside from their efficacy, doubtless owe their success largely to a tendency to aid in bringing about natural functioning—instead of encouraging the "habit-forming" habit. Also, instead of injuring the membranous lining of the organs involved, they exert a healing influence. Instead of weakening, they add tone to the intestinal wall, they work so easily and gently, they are of course preferred to any other remedy which violently acting purgatives. "Senntal tablets" are another reason for the popularity of senntal tablets. One need procure only a dime's worth, and take one tablet upon retiring, to be convinced that the ideal remedy for constipation, torpid liver, and their many evil consequences, has finally been found.—Druggists Review.

By Associated Press San Francisco, Cal., Sept. 25.—Captain Franz von Papen, military attaché to the Rev. T. McCarroll, of Washington, who is here with Prince von Hatzfeldt, of the embassy, denied to-day that the expression "idiotic Yankees" contained in a letter addressed to J. F. J. Archibald and intercepted by the British authorities was intended to apply to the American people. "The much-discussed letter was to my wife," he said. "In passing it may be said that publishing a man's letter to his wife is bad form. When the British authorities at Hatzfeldt found those letters on Mr. Archibald, they pounced with avidity on the two words that have made all this trouble. "They printed only an excerpt of my letter, thus changing its meaning entirely. My wife, or anyone else, reading the letter from start to finish, would have gathered that the expression 'idiotic Yankees' referred to the publishers of a New York newspaper."
