Quick, Safe Way to Remove Hairs

(Toilet Talks)
Keep a little delatone powder on your dressing table and when ugly, hairy growths appear, make a paste with a little of the powder and some water, apply and let remain on the hairy surface for 2 or 3 minutes, then rub off, wash the skin and the hairs have vanished. This treatment is quite harmless and rarely more than one application is required, but to avoid disappointment care should be used to buy the real delatone.—Advertisement.

Pittsburgh's October Pay Totals \$40,000,000

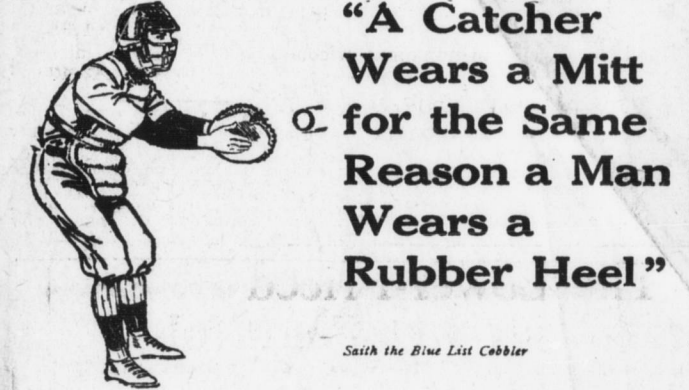

Special to The Telegraph
Pittsburgh, Oct. 1.—That Pittsburgh, industrially, has regained her old-time prestige was established here yesterday when five of the largest banks carrying payrolls of the great corporations of the Pittsburgh district said the October pay would exceed that of any month for several years by at least 15 per cent.

Three of these banks show payrolls approximating \$20,000,000, with the estimated payrolls from the other two amounting to about \$12,000,000, making a total of \$32,000,000. The largest preceding payroll month of recent years was October, 1911, when the aggregate for these banks was approximately \$25,000,000.

In addition to the five banks above mentioned, institutions carrying the rolls of smaller manufacturing concerns are preparing to pay out nearly \$8,000,000 for October. Millions of dollars worth of new business is being turned down weekly because of the inability to handle it promptly.

One breaks the shock of the swift ball and protects the bare hand.

The other protects the sensitive heel against the continuous shocks which must occur when a stiff leather heel pounds against hard pavements.

Real, live rubber is the only thing so far discovered that really protects the heel. The cost is trifling considering the benefit.

GOOD NEWS FOR THE PEOPLE OF HARRISBURG It Has Been Officially Decided That the Famous Quaker Health Teacher Will Be Permanently Located At Keller's Drug Store

The health teacher claims that he will prove to the people of Harrisburg that the Quaker Herb Extract and Oil of Balm are without a doubt the greatest herb remedies in the world. It is easy to promise but his object is to prove positively beyond the vestige of a doubt that the Quaker Remedies do all and more than he claims for them. For the past three months he was located at the Hainer Drug Co., New Castle, Pa. After one of the greatest sales and most remarkable cures in the history of that city, he has come here to prove to the people of Harrisburg that the Quaker Remedies do the work that others have left undone, and to prove what he says for a limited time he offers a bottle free to any person afflicted with tapeworm. The more that call the better he will be pleased. He claims the Quaker Herb extract, elms tape worms without starving, dieting or ill-effect. This is the reason he offers the bottle free. He also claims the Quaker Extract and the Oil of Balm to be one of the greatest cures in the world for catarrh in any form: rheumatism, kidney, bladder or blood troubles. He will be at Keller's Drug Store, 405 Market street, at 9 o'clock Monday morning and can be seen there daily afterward from 9 a. m. to 5 p. m. Watch the daily papers for further results.—Advertisement.

Wharton School Training For Financial Pursuits

It is no longer possible for the clerk in a bank, trust company, or investment institution to train himself for advancement by faithful performance of his duties alone. Institutions have grown too large. Clerical work is mechanical and highly specialized. The clerk becomes expert in running an adding machine, but he learns nothing of the real problems of the business. He is a cog in the business machine.

THE WHARTON SCHOOL OF FINANCE AND COMMERCE enables the ambitious clerk to bridge the gap by training him for executive responsibilities. He delves into the science of banking from the very beginning of the course. He learns, among other things, the principles of sound money, the laws governing the organization and operations of the various kinds of banks, the principles relating to the value of collateral, the kinds and relative desirability of the different types of commercial paper, how a bank judges of the value of its customers, how to read a borrower's statement, what securities are issued by corporations and what protection each enjoys.

The extension course of the WHARTON SCHOOL gives to the ambitious young men employed in the financial institutions of this city the opportunity to secure this training. Are YOU preparing yourself?
