

FINAL PREPARATIONS FOR WORLD'S SERIES TODAY---PICK PHILLIES TO WIN

PAT MORAN WILL KEEP TEAM BUSY

No Matter What Happens Today Phillies Will Practice Tomorrow

By Associated Press Philadelphia, Oct. 6.—With but two days remaining until the opening of the contest for baseball supremacy of the world, the National League champion Phillies hoped to complete their regular playing schedule in a double-header with Brooklyn to-day and set about final preparations for the struggle with the Boston Americans.

Local fans were anxious that rain, which threatened in the early hours of the day, would not again prevent the games, and it was expected that Manager Moran would send Alexander and his other star pitchers, none of whom has been seen in action here for several weeks, to the mound.

Weather conditions, however, will have but little effect on Moran's plans for putting the finishing touches on his team, as it was announced that if rain again prevented the games they would be called off entirely. Thursday he expects to devote to secret practice.

There is a feeling of confidence in the Phillies camp as to the result of the series. Captain Luderus declared that he feels sure his team will come out victors, although he admitted it would probably be a close race.

Alexander and chalmers are almost certain to win their games, he believes, while both Mayer and Rixey stand an excellent chance to humble the Bostonians. The strength of their opponents in all departments was not lost sight of, Luderus added, and "most anything can happen in such a short series."

The Phillies stock also has gone up in the estimation of the betting fraternity. While the few bets that were placed several days ago were laid at odds of 13 to 10 with the Red Sox the favorites, several wagers were placed last night at even money.

Notwithstanding the management of the club has taken every precaution to guard against tickets falling into the hands of speculators, several agencies are taking orders. They are not making any definite promise, however, as to whether they will be able to fill them in every instance.

Printing of the tickets has been completed and distribution probably will not begin until Thursday morning.
