

TOMORROW

We Start Our Third Class of the

Easier Housework Club

Its Object Is to Place in the Home of Every Member A Reliance Vacuum Sweeper

It's the most efficient Sweeper we can offer you, and by joining the CLUB the terms are so easy that it's placed within the reach of all.

A member who joined one of the first classes in the EASIER HOUSEWORK CLUB told us "she would not do without her Sweeper," for it lessens her work and avoids all dust.

Here's Our Plan

Encouraged by the success of our first Vacuum Sweeper Club we are forming another EASIER HOUSEWORK CLUB. Each member, upon joining, gets a genuine RELIANCE COMBINATION VACUUM SWEEPER by paying when you enroll.

\$1.00 and Dues of \$1.00 Per Month

for six months, or until \$7.00 has been paid. This makes the cost of the SWEEPER much cheaper than any single individual could buy it, but we are able to contract for a large quantity, and by joining the Club, members get the benefit of this co-operative buying.

A Week's Free Trail

Use it all week as much as you wish. We want you to be convinced that it is the best sweeper on the market.

Section View of Reliance Vacuum Sweeper

Notice the three large bellows in the RELIANCE, which suck out the dust, and has a real bristle brush, which can be adjusted to different thicknesses of carpet. The RELIANCE sweeps and vacuum cleans in one stroke. Has a wood case that will stand service for years to come.

HOUSECLEANING reveals the inefficiency of the broom and Carpet Sweeper

When your rugs are shaken and beaten, the great clouds of dust arising tell more forcibly than words, how little a broom or ordinary carpet sweeper really does in the way of cleaning. The RELIANCE, instead of sweeping lightly over the surface of the carpet or rug, sucks down deeper—the three bellows suck in every particle of dust or dirt.

THE RELIANCE IS THE MOST UP-TO-DATE CLEANER

The RELIANCE is the last word in Vacuum Cleaner construction. Several manufacturers, anticipating the demand for this machine, on account of its superiority and operation, are endeavoring to copy it in order to unload their stock of out-of-date machines, as no one would buy their machines, as the RELIANCE is so much improved.

THE RELIANCE will lessen your house-cleaning troubles

It's a big help to use a RELIANCE VACUUM CLEANER. It cleans your floor coverings satisfactorily, and works so easy that a baby can run it. You don't have to dust every time you go over your carpets, as a RELIANCE really eats the dust. If you cannot come to the store, sign this Enrollment Blank and send it to store.

A New Remedy For Kidney, Bladder and All Uric-Acid Troubles

Successfully Used by Many Physicians and Surgeons in Their Hospital Practice

Dr. Weir Mitchell once said: "What we call diseases are only symptoms of conditions. Allow the man's vitality to be reduced to a certain point, and he is ripe for any of these weaknesses, or certain conditions which we call disease."
Through failure of kidneys to act, through congestion, inflammation, any person's condition is ripe for disease to fasten its hold upon the system.
At Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., there has been tested for the past few years a new remedy for kidney, bladder, uric acid troubles, rheumatism, gout, and such ailments as follow, and so many cases both acute and stubborn have yielded to this wonderful remedy that Doctor Pierce decided to name it "An-uric," and arrange for its distribution to the public through medicine dealers everywhere.
If backache, scalding urine or frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout, or sciatica, if you suspect that you have kidney or bladder trouble, write Doctor Pierce, at Invalids' Hotel, Buffalo, N. Y., send a sample of urine, and describe symptoms. A physician and chemist will

WOMEN AND THEIR INTERESTS

Parents and the Child

By VIRGINIA TERHUNE VAN DE WATER
(Copyright, 1915, by Star Company.)
It is said that mothers talk too much of how they should govern their children. But can they be blamed if they do ponder this subject? If the child is father to the man we cannot afford to deal lightly with punishments and rewards, obedience and disobedience, truthfulness and untruthfulness.
When it comes to a subject like that recently mentioned—whether one should ever retract a promise to punish—the men do not often look at it from a woman's standpoint. The mother may sometimes feel it her duty to slap or spank her child, but she hates to see the father do it. So she thinks—200 times—that if a father threatens a chastisement for a misdemeanor such a promise is more honored in the breach than in the observance.
Yet, even though we may deem old Polonius a prig, we must admit that there was sound wisdom in his advice to—
"Beware
Of entrance to a quarrel; but, being in,
Bear it, that the opposed may beware of thee."
Certainly, then, if "the opposed" is a child, such advice is good if one is sure that one's contention is just. If not, the parent is always at a disadvantage, and the child is much to be pitied.
Yet I like to believe that most parents are self-controlled enough and clear-sighted enough not to punish in anger.
"I could never spank my little girl unless I was angry," one mother confesses.
Then she should never strike her at all. It is a pity that one so ill-controlled should have the training of as sensitive a creature as a child.

NEW ASSISTANT OPENS OFFICES

Prof. W. R. Zimmerman Moves Into County School Headquarters; Reception

Prof. W. R. Zimmerman, the new assistant superintendent of county schools, moved into the county school headquarters in the courthouse to-day, and for the next month or six weeks the offices will be open daily. Prof. Zimmerman will assist Superintendent F. E. Shambaugh in visiting the schools of the county during October and part of November, and after the itineraries are followed out it is likely that the offices will only be kept open three days each week, Mondays, Wednesdays and Saturdays.
Prof. Zimmerman has removed from Lykens where he had charge of the penmanship and one of the grammar schools; he has moved to 1818 North street. Teachers of Lykens last evening gave the departing instructor a big reception at the home of Miss Florence Kniley. Music and a nice supper were features of the program.
Realty Transfers.—Realty transfers in city and county recorded to-day included: E. C. Henry to Henry Brandt, Middletown, \$1; C. A. Fishinger to Charles B. Andes, Steelton, \$2300; E. M. Ensign Adds Finishing Touches to Bridge.—Finishing touches to the new bridge that is being constructed across the Wiconisco creek near Lykens by Contractor G. W. Ensign is nearly finished and within a week or so the county commissioners will likely ask the court to appoint viewers on the viaduct.

Do You Want the Eye of the Public, Mr. Storekeeper?

Next week many people will be looking in your store window—what will they see? These people will be gazing with a definite object—looking for articles familiar to them by name through newspaper advertising. They will be looking for the signs which read:

INTERNATIONAL NEWSPAPER DISPLAY WEEK

We Sell These Standard Products—All Advertised in the DAILY NEWSPAPERS

Every eye that looks into your store window will be the eye of a possible customer. Each window will be your appeal for that prospective customer's business.

The people of this city are not familiar with all kinds of advertised goods, but they are familiar with the kind that have been advertised in our newspapers.

They have a friendly interest in these articles if for no other reason than their regard for their home newspapers. They will be friendly to the stores that show these newspaper advertised brands.

If you are not already familiar with the plan for next week's demonstration, the advertising department of this newspaper will gladly furnish further information.

Midvale Company First to Tell of Expansion

Philadelphia, Oct. 6.—Of all the steel concerns now in process of formation, the Midvale combination was the first to express its far-reaching scope. This was done yesterday when the Midvale Steel and Ordnance Company was incorporated at Dover, Del., with a capital stock of \$100,000,000. This represents an expansion in capital of more than \$90,000,000, for the Midvale Steel Company's capital has stood at \$9,750,000 since 1910.
Comes from New York reports that the Cambria Steel would be included in the Bethlehem-Pennsylvania Steel merger, but this is not credited here, for it has been pretty clearly understood, at least up until the last few days, that the Cambria Steel's deal will be independent of Pennsylvania Steel.

Russian Patrols Found Wearing German Helmets

By Associated Press
Berlin, Oct. 6, by wireless to Tuckerton, N. J.—The official statement from German army headquarters under date of October 5 contains the following:
"Russian patrols are wearing German helmets in order to deceive German troops. Such Russians, when they fall into German hands, will be treated in accordance with the laws of war."
The foregoing was omitted from yesterday's official statement received from Berlin by way of London, apparently having been eliminated by the British censor.

Heavy Rains Wash Paint Off Lincoln Way "Feeder" Signs

Reports of the progress made in marking the Lincoln Highway feeders were tendered the board of governors of the Motor Club of Harrisburg at the monthly meeting last evening by H. H. Hefkin and H. W. Baker, who are in charge of the work.
Signs of red and white twenty-three inches high were painted on poles at all crossroads between this city and Mount Joy, but the heavy rains washed much of it off, so the work will have to be repeated. By to-morrow it is hoped to reach Lancaster. The Gettysburg and Chambersburg routes will be marked next week.
Members of the club were notified that the Trindle Spring road was closed for repairs. They were notified to use the pike to Silver Springs or the Gettysburg road to Graham's schoolhouse, then to Mechanicsburg.

FRENCH CRUISER SUNK

New York, Oct. 6.—Private advices received here to-day from Athens say that a French auxiliary cruiser was torpedoed and sunk September 9 while anchored off the Turkish island of Rhodes by a submarine of the central powers.
