Stitches Made Easy For Embroiderers

A Variety of Them Employed to Pro-duce Harmonious Effects While the names of the various

stitches required in embroidery work may appear formidable to the beginner, she need have no misgivings as to her ability to soon learn and apply them to any of the beautiful designs contained in the World Famous Em-broidery Outfit now being distributed

contained in the World Famous Embroidery Outfit now being distributed by this paper.

In this outfit are included instructions which are illustrated and enable the learner to easily master the different kinds of stitches, among which are the Outline, Chain, Seeding, Cat. Buttonhole, Couching, Satin, Eyelet Work, Wallachin Embroidery, Cross, French Knots, Fagotting, Solid, Kensington and Roman Cut Work.

Every woman who does home work can, after a little practice, manufacture her own embroidery and at a cost that would represent but a mere fraction of what she would be obliged to pay for the work in the usual way. In addition to this advantage, which means dollars and cents saved, she can apply her skill to the ornamentation of many articles of her own clothing that hitherto she has always worn without this exquisite medium of decoration, mainly for the reason of the prohibitive prices invariably asked for high class needlework of any time.

Just at the present time there is a rush for the World Famous Outfits which are handed out for 68 cents and three coupons, and mailed for 7 cents extra, so the girl who intends to do embroidery should lose no time in getting a set.
