They Lace In Front

THE new Fall and Winter models of the Gossard corsets are now being shown. A higher bust and a slight curve at the waist line mark the distinction in this year's models which assuredly will find favor with the woman who discriminates.

The most widespread disease in the world

The most widespread disease in the world today is that dread affection of the teeth called pyorrhea. Nine out of every ten grown persons have it to some extent. You may have it and be unaware of it. Why? Because scientists have proved that the cause of this disease is a germ which inhabits every human mouth, and that thousands have this disease and do not realize it until it reaches the advanced stages of bleeding gums and loose teeth.

Accept the advice dentists everywhere are giving and take special precautions in your daily toilet against this disease. To meet the need for such a daily treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient form of Senreco Tooth Paste.

Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senreco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senreco treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senreco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Sentalen Remedies Co., 507 Union Central Bldg., Cincinnati, Ohio.

JANE TUTTLE CO. IN RECITAL HERE

First Concert Last Evening Received Approbation of Music Lovers

Although the Jane Tuttle Concert Company under the auspices of the Ladies' Auxiliary of Post 20, G. A. R. came comparatively unheralded, the first of the two recitals—the second to be given this evening in Fahnstock Hall—proved to be a surprisingly meritorious opening of the coming musical season of the city. Miss Tuttle, whose voice is a big, pure vibrant dramatic soprano, trained by Madame Von Felitz of New York, was given every opportunity in the admirably arranged program, to demonstrate her versatility conclusively in the three groups allotted to her, and which from Strauss, Wolf, Liszt's Lorelei, through the splendidly sung Aria of Salome, from Massenet's Herodiade, to Musetta's waltz song, from Puccini's La Boheme, were an increasing delight.

No less astonishing, and capable were her assisting artists, the pianist, Ruth Klauber and Genevieve Podrea, the violinist, very brilliant was the effective paraphrase on Strauss' "Fledermaus" by Miss Pauline Patterson, as well as the spinning chorus from the Flying Dutchman by Wagner-Liszt and characteristic of the gorgeousness of the singing Alla Marcia, as played by Miss Klauber, who has had the honor of being a pupil of Heintze of Kiel, and playing with the Philharmonic Orchestra of that city as well as with Stock's Thomas Orchestra of Chicago. More than words, too, must be said for her discriminating and tasteful accompanying.

Miss Podrea who has studied with Sevcik and Willy Hess is no less the genuine artist, possessing a beautiful tone, a certainty of attack in harmonica and double stopping and a rhythmic sense unusual to the average virtuoso violinist, her playing of a first group—a Mazurka by Mlynarski, the Chopin-Sarasate Nocturne and the Kozian Humoresque, and as a second number the well-known Gypsy Airs of Sarasate—was admirable in the unusual balance and self-restraint of this sterling young artist. No less promising is the already published program for this evening's concert.

Miss Mabel R. Carpenter Marries Alpha M. Krout

The marriage of Miss Mabel R. Carpenter, daughter of Mr. and Mrs. Wm. F. Carpenter, 1231 Penn street and Alpha M. Krout of Steelton, was solemnized this morning at six o'clock at the parsonage of the Otterbein United Brethren church, the Rev. E. S. Rupp officiating.

The bride, who was unattended with a suit of blue broadcloth with a hat to harmonize.

She is popular with the younger set of the West End and Mr. Krout is well known in his home town, Steelton.

After a short wedding trip, Mr. and Mrs. Krout will make their home temporarily with the groom's parents, 172 South Second street, Steelton.

A MEDICINE OF MERIT

A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Lydia E. Pinkham's Vegetable Compound is because it has been fulfilling a real human need for forty years, so that to-day thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and herbs—nature's remedy for woman's ills.

Jane Tuttle Uses Stieff Concert Grand

Miss Jane Tuttle, concert soloist, who last night sang at Fahnstock Hall in a recital arranged by the Ladies' Auxiliary of the Grand Army of the Republic, used a Stieff Concert Grand Piano. She will use it again to-night.

Why does she use the Stieff, rather than some other piano?—because the Stieff is recognized by artists everywhere as the acme of piano perfection.

"The Piano With the Sweet Tone," the Stieff is called by discriminating singers and pianists everywhere. It has that sweet, rich, mellow quality so necessary to set off the best qualities in the singer's voice. In the concert hall the Stieff piano is the peerless instrument. In the home, it is a source of unending pleasure and delight.

TO PUT ON FLESH AND INCREASE WEIGHT

Good Advice For Thin People

"I'd certainly give most anything to be able to gain a few pounds and stay that way," declare many thin men and women. Such a result is usually not impossible despite past failures. Most thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood much of the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat the flesh-making food elements must be so prepared in the digestive process that the blood will accept and distribute them throughout the body. There is a preparation called Sargol, which works on this basis and which is sold by nearly every druggist on a positive guarantee of weight increase or money back. Hundreds have testified to weight increase from its use.

Sargol does not of itself make fat, but is simply a combination of ingredients of acknowledged merit that, taken with meals, seems to better enable the digestive organs to separate the fattening elements of the food and to prepare them in a form which the blood can readily absorb. Sargol comes in tablet form, is pleasant and easy to take and its action is perfectly natural and harmless. Sargol is sold by Geo. A. Gorgas and druggists everywhere, who are authorized to refund the full purchase price if weight increase is not obtained.

NOTE—Sargol is recommended only as a flesh builder, and while it has produced excellent results in cases of nervous indigestion and general stomach disorders, care should be taken by those using it who do not want to increase weight.—Advertisement.
