NEW ACT GIVEN FIRST TEST HERE

Local Court Hearing Question Raised by Attorney General Brown; Decision Final

The question of whether Uriah P. Rossiter alone shall be placed on the general election ballot for Judge of Erie county or whether he shall share the place with Joseph M. Force, another nominee, was argued to-day before the Dauphin county courts.

The matter was brought to the Dauphin court's attention by a bill in equity filed by Rossiter against Cyrus E. Woods, Secretary of the Commonwealth, to restrain the State officer from having Force's name printed with Rossiter's. The complaint holds that Force did not receive more than 50 per cent of the ballots cast required for the office. By agreement of counsel the decision of the local courts will be final. Deputy Attorney General William M. Hargest, Chief Secretary Woods, and ex-Deputy Attorney J. E. B. Cunningham and John G. Johnson, Philadelphia, appeared for Rossiter. The argument which began shortly before noon, lasted practically all day. The court took the papers and a decision is expected within a few days.

In the picture, Miss Bara is quite her emotional self, and for once the girl with the Vampire eyes, who is always seen as a fascinating seducer of men, has had the crown lifted, and she plays the part of the lured instead of the lure. William E. Shay and a splendid company support her in the production.—Advertisement.

DR. J. C. PRICE, CAMP HILL, DIES

Chief Division of Hygiene of State Department of Labor and Industry

Following an illness of five months from general complications, Dr. John C. Price, chief medical inspector, division of hygiene, of the State Department of Labor and Industry, and one of the foremost experts in his line in this country, died at his home in Camp Hill this morning at 9 o'clock.

Dr. Price was widely known throughout the State. He was 44 years of age and is survived by his wife and one daughter, Miss Hannah J. Price.

Dr. Price was born in Donaton, Kan., where his mother, Dr. Hannah K. Price, was a prominent physician. After the death of his father, Mrs. Price came east and established a practice at Chester. He attended the University of Pennsylvania. He graduated from there in 1893, later took a post-graduate course at Johns Hopkins University and afterward studied extensively in Germany.

Returning to this country, Dr. Price specialized on electro-therapeutics and the x-ray and for some years was connected in this capacity with the International Correspondence Schools at Scranton. He was appointed to the State Department of Labor and Industry in 1913 and greatly advanced precautions in hygiene and sanitation in industrial plants. He does not count numerous treatises and several books on the practice of electro-therapeutics which are regarded as authorities by experts in that line.

NOT URGING PAID FIRE DEPARTMENT

[Continued From First Page.]

by "schedule" instead of using so-called "Judgment" rates. In other words giving Harrisburg the modern system of fire insurance rating.

"The Underwriters of the Middle Department sent inspectors here to examine business and residence properties and general conditions that are concerned in making up a schedule of rates for a city. When it submitted this schedule to the Chamber, it set forth what reduction would be made in the basic rate if certain suggested improvements were made. The Chamber filed this information with Council. In making those improvements the question as to whether benefit in rate is worth the cost of the improvement is considered. Among many other suggestions was that of a paid fire department.

"It must be remembered that the making of a paid department was made by the fire underwriters and not by the Chamber and that the Chamber has not pressed the matter of a change upon Council.

"The Harrisburg Chamber of Commerce heartily approves of any expenditure that tends to improve the efficiency of the fire department. It trusts the taxpayers will not be niggardly when such questions are to be voted upon.

"However, the Chamber regrets that so much attention is being paid to its policy toward a paid fire department, that that question is worrying other people far more than it is the Chamber.

"The Chamber of Commerce feels quite sure that its present efforts will be of great benefit to every purchaser of fire insurance. It does not contemplate the radical attitude toward the present fire department that some people who are not in touch with its work have surmised to suit their fancy. The policy of the Chamber in handling every public matter is to act in a reasonable, fair manner toward every subject and person.

"Any discussion that tends to make for a misunderstanding between the firemen and the Chamber is founded upon wrong information and will only tend to confuse and more important to injure."

BULGARS DECLARE WAR ON SERBIA

of war she is able to put into the field something over 200,000 men.

Since the second Balkan war, in which Bulgaria fought Greece, Serbia and Montenegro, after the victory of all four nations against Turkey, the policy has been isolated to a certain extent from the other Balkan States. The second war, which resulted from a dispute as to the division of territory won from Turkey, was not participated in by Rumania, which also kept out of the first Balkan conflict. Rumanian troops invaded Bulgaria, however, and forced the latter to make territorial concessions.

When peace was finally restored Bulgaria was compelled to relinquish a large part of the territory she had gained in the first war. The ill feeling thus engendered made it doubtful whether Bulgaria would consent to enter the present war on the side of Serbia and Montenegro. She steadfastly refused to abandon neutrality unless assured of territorial concessions which would enable her to realize her national aspirations. Chief of these was to regain those sections of territory which had been lost in the Balkans which now belong to Serbia and Greece. She also sought a section of Turkish territory.

Mueller, city forester, and more than 5,000 of the various flowering shrubs have been placed. About 20,000 more are to be planted on these slopes.

NERVOUS EXHAUSTION

Irritability, oversensitiveness, a disposition to worry over trifles, headache, dizziness—these are symptoms of nervous exhaustion, neurasthenia. Very often the patient feels best and mightiest at night. Rest seems to bring no refreshment, the nervous system fails to recuperate. This distressing condition is caused by worry more often than by any other one thing. Overwork and worry invite the disorder.

The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed towards building up the blood. Dr. Williams' Pink Pills act directly on the blood and with proper regulation of the diet have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills. Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail at 50 cents per box; six boxes \$2.50. Begin the treatment at once before your condition becomes chronic.

Two useful books, "Diseases of the Nervous System" and "What to Eat and How to Eat," will be sent free by the Dr. Williams' Medicine Co., Schenectady, N. Y., if you mention this paper.—Advertisement.
