With our children it's different.
Mothers who cling to the old form of

are injured by them.

If your child's stomach, liver and

action is positive, but gentle. Millions

We've been harping for some time on what a great institu-

tion is that Want Ad page of ours. Now here's a little more unimpeachable evidence.

A concern carrying on a State-wide advertising campaign for salesmen selects the HARRISBURG TELEGRAPH. The returns prove their judgment was sound.

It may sound a bit egotistical to claim having the BEST Want Ad Medium in the State, and yet Mr. Truitt actually makes that assertion-and we cannot doubt his word.

Gentlemen:—
Enclosed herewith find check covering the amount due you for our advertisement which appeared in the October 9th issue.

It is only fair to state that of the numerous ads placed in various cities covering Pennsylvania, New Jersey and Delaware, the HARRISBURG TELE-GRAPH proved the best drawing medium, notwithstanding the fact that we advertised to a greater extent in some of the others than we tell in yours.

Credit where credit is due; hence this letter to you. Thanking you for past favors, with assurance of our future business, we beg to remain,

"Some may say, why pay attention to these ignorant and superficial views of the functions of the society? The answer to that question is that many a superficial and untrutiful state." The ment made with persistency and with show of authority, in time, in the absence of persistent refutation crystallizes as a fact. You members of this society accustomed to historical research will understand this.

"The writer has felt constrained to make these utterances on this subject for what he considers to be for the future good of the organization. There is another view of the inaptness of this name of our society, hardly worthy of mention, perhaps, for it obtains only among the ignorant.

"In these sad days when nations of the old world, mad with ambition and political hatred, murdering with the weapons and methods of modern warfare their fellowmen by the hundreds of thousands, and presenting a spectacle of horror to all Christendom, the once innocent custom, never questioned or misunderstood in the days of peace, prevailing among American citizenss foreign born, of hyphenating the name of the country of their adoption as descriptive of their particular classes of American citizens claim as a right has met with adverse criticism.

Native Born American

"The name of our society is hyphenated, but by no forced construction can it be confounded with other hyphenated classes of American citizens, or made to appear as a sign of divided allegiance to government. Its members are all native born Americans, and the hyphen in its name is a descriptive badge of honor and distinction, signifying the pride we just ly have in the blood and manhood of our ancestors.

"When these ancestors abandoned their homes in their native land and came to America, they were inspired not by the doctrine of the divine right of kings, or any tenet thereof, and they subscribed to no such doctrine; nor were they moved to that action by anything in the philosophy, culture, materialism or military spirit of that native land: on the contrary in antagonism to these activities. But

they were inspired and moved by the true spirit which lived and sought to control in their day, and we believe still lives, longing for control, in this day, in the great heart of the masses of the German people. Inspired and moved by the spirit of Luther, Zwingle, Calvin and Wesley, Menno-Simon, Schwenkfield, and Spener, they came to the new land and devoted their lives, with all their native virility, to service and sacrifice in the planting and upbuilding in part of the American nation.
