

# Healthy Old Age Brings Happiness

Simple Remedy Promotes Health By Overcoming Tendency to Constipation.

Advancing years impair the action of the vital organs. Old age should be the period of greatest happiness, but good health is necessary. Constipation should not be tolerated—it is often the direct cause of ill health. Headache, belching, biliousness, bloating, drowsiness after eating and other symptoms of constipation can be readily relieved by the use of a simple laxative compound sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. Mr. J. H. Bristol, 1412 Geddes Ave., Ann Arbor, Mich., who is 83 years old, says "Dr. Caldwell's Syrup Pepsin is the best remedy I ever used for constipation and I always have a bottle of it in the house to use when I feel the need of it; it never disappoints."

MR. J. H. BRISTOL

Dr. Caldwell's Syrup Pepsin is a mild laxative preparation, positive in its effect, acting easily and naturally without griping or other pain or discomfort. For over a quarter of a century it has been the standard household remedy in thousands of homes. Druggists everywhere sell it for fifty cents a bottle. A trial bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. E. Caldwell, 454 Washington St., Monticello, Illinois.

## WAR PLANT IS IMPRACTICABLE

Plan to Have Government Owned Munitions Is Not Feasible

Under the caption, "A Government Plant For the Making of Munitions," in the current issue of the Iron Age, H. H. Campbell, formerly vice-president of the Pennsylvania Steel Company at Steelton, discusses the recent proposal of the opponents of military preparedness that the government erect a plant of its own for the manufacture of war munitions in order to prevent private concerns from engaging in such business. After pointing out the vast expenditure that would be necessary to establish such a plant and the difficulties which would be encountered in gathering an efficient working force, Mr. Campbell said: "To supply our present army or navy with what is needed in time of peace would not require one machine where a hundred or a thousand would be needed during a war. This great plant would stand idle, eating up money, while the machines might be entirely out of date by the time the war came. We have again the problem of idle employees, for we could not keep 10,000 men sitting around the shop waiting for the war. The houses for the workmen would be empty, and still they must be kept all the time ready for occupancy. When the war did come it would be necessary to get together this immense force. Men would not come unless they were offered more than they were making wherever they were employed, because they would know that they would be thrown out of work at the end of the war."

## STEELTON

### BIG MOUNTAIN OF IRON ORE STORED

Steel Co. Piling Up Huge Heap of 4,000 Tons; Enough For Winter

To forestall Jack Frost in his annual prank of choking the Great Lakes with ice, and to keep the flaming mills at Steelton at their present feverish activity, the Pennsylvania Steel Company is storing a huge mountain of iron ore at the Steelton plant.

Just across the canal from Front and Swatara streets, the cinnamon-colored hill is rising high into the air. Before long the officials here expect to have between 3,000 and 4,000 tons of ore stored here.

From the Minnesota mines the ore is floated across the Great Lakes in huge freighters and then shipped by railroads to the local plant.

Here the big steel cars are run up onto the concrete and steel trestle in the ore yards and the hoppers opened. The ore runs down into a large compartment between the concrete piers. Then a big clamshell scoop is swung over the pile, drops down, picks up its load and swings over the rapidly-rising mountain of ore and is dumped. This big scoop picks up just 7 1/2 tons of ore at each operation.

This new ore yard is one of the improvements at the local plant under the big improvement schemes inaugurated and carried to completion under the personal direction of Vice-President J. V. W. Reynolds and his efficient corps of assistants.

### 300 Heptasophs Will Be Here October 28

Fully 300 members of the Supreme Conclave of the Improved Order of Heptasophs will be in this city October 28, to attend the opening meeting of a special session that has been called by the supreme executive committee. The sessions will be held in Technical High School. Delegates will be here from all parts of the United States, the majority of them coming from Eastern States. John C. Tolson, of Baltimore, supreme archon, will have charge of the sessions. Important business matters which were not completed at the biennial meeting in June, in Richmond, necessitated the extra session. Officers and committees of the Supreme Conclave and one representative from each conclave of the order are permitted to be present at the business sessions. The entire order has a membership of more than 60,000, of which 25,229 are members of the 223 conclaves in this State, and 15,742 are members of the 120 conclaves in Maryland.

### Captain Thompson Will Continue Chief's Policy

Joseph P. Thompson, captain of police, this morning assumed the duties of chief. He will continue in charge until a successor to Colonel Joseph E. Hutchison is appointed by Council. Acting Chief Thompson said to-day: "There will be no change in the conduct of the department. I shall try my best to fill the duties of chief in a satisfactory manner. Having been associated with Colonel Hutchison for a long time, I know his views. His policy will be continued. For the present I will not be able to make my usual daily rounds, but will try to keep in touch with all districts. Motorcycle officers will cover the city at frequent intervals."

### Scores of Newsies Will Be Guests at Banquet
