No New Outbreaks.—No fresh out-breaks of typhoid fever have been re-ported from Johnstown or other places which have been under State inspecThe savage lives merely for to-day!

Civilized man lives for the future as well. If he is an honorable man he is actuated by this threefold ambition:

FIRST: To provide to the best of his ability for the future comfort and welfare of wife, children, father, mother or other dependents.

**SECOND:** To make sure of an "easy" chair for himself at a time when he should lay aside some of the cares and responsibilities of an active business career, and in peace and contentment enjoy the many things which he has long desired.

**THIRD:** To get the greatest possible pleasure and satisfaction from the present.

Investigations by Prof. Spahr of Columbia University based upon records taken from the Surrogate Courts of several boroughs in and around New York City revealed the following: Of men living at age of 45, 80 per cent. are prosperous. Twenty years later, however, 50 per cent. are dead, and 97 per cent. of those then living are partially or wholly dependent.

A few dollars a month deposited with any good life insurance company will provide a Monthly Income Policy for your dependents. The same policy will guarantee the "easy chair" for you and you will get more enjoyment out of life after you have such a policy. See any member of this association and let him explain how splendidly this threefold ambition can be attained by the Monthly Income Plan.
