JERSEY OPPOSES WOMAN SUFFRAGE

Seekers of Ballot Lose Out by More Than 50,000 Votes

Trenton, N. J., Oct. 20.—Latest returns to-day on the State election yesterday indicate that the proposed amendment to the State Constitution granting suffrage to women was defeated by a majority of more than 50,000. Returns from 1679 out of 1891 election districts gave a vote of 132,457 for and 187,849 against the amendment. Ocean county which returned a majority of 300 in favor of the amendment, apparently was the only county carried by the suffrage workers. The vote in Cape May county was close, but in Bergen county, one of the "nurses' counties" supposed to favor "votes for women," the returns indicated a considerable majority against the amendment.

Jersey City, N. J., Oct. 20.—The big majority which New Jersey rolled up against woman suffrage grew to-day with the steady dribble of belated returns. Figures still incomplete presented a verdict against "votes for women" of not less than 55,000 majority out of approximately 350,000 votes cast at yesterday's special election.

majority of 53,678, the exact unofficial returns being 184,355 votes against the amendment to enfranchise women and 130,707 in favor of it. All of the 21 counties in the State, apparently only the fisher folk of Ocean county the women with a majority and in that rather sparsely settled county suffrage triumphed by a scant 200 votes. Notwithstanding the tremendous majority against suffrage—greater even than that of the landslide that carried Woodrow Wilson into office as Governor in 1910—women workers for the cause said to-day that far from being dismayed they were fired with greater zeal than ever. Before the last of their heavy-eyed watchers had filled her disheartening story, plans were already under way to stir the State with a campaign which, if successful would give women the vote in selecting presidential electors next Spring.
