Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusts did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, Eugene M. Pullen, Carpenter, 2514 Marcellus Avenue, Manassas, Va., I will put out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Advertisement.

Britain May Order An Embargo on Steel Goods

Special to The Telegraph
New York, Oct. 21.—Great Britain may place an embargo on the export of steel, according to a cable received here to-day by the Iron Age. The message, dated London, read: "Unconfirmed rumors that the British Government may place an embargo on exports of steel for the purpose of safe-guarding the government's steel-plant."
James A. Farrell, president, and E. H. Gary, chairman of the directors of the United States Steel Corporation, were out of town to-day, and at the offices of the corporation it was said nothing was known about the reported embargo.
A similar statement was made at Charles M. Schwab's office.
Although steel circles had not heard the rumor until to-day, it caused considerable discussion, and the general opinion was that such an action by Great Britain would turn large orders from neutral countries, now customers of Great Britain, to the United States.

FAMOUS ACTRESS SAYS COFFEE HARMS COMPLEXION

Declares Coffee Habit Grows on One, Dulls the Mind, and Weakens the Muscles
People who desire to retain youthful looks and a clear, healthy skin, may be surprised to learn that so eminent an authority on beauty as Lillian Russell declares, in a recent issue of the Chicago Herald, that "both coffee and tea have a harmful effect on the complexion. The most youthful skin can be made dry and sallow by the over-indulgence of tea or coffee."
"It always depresses me when I hear a woman say, 'I must have a cup of coffee the first thing in the morning, and generally sip it in bed.' She would be shocked if she heard someone else say that they must have a cup of coffee they could begin the day."
"I heard a most beautiful old woman say, 'Do you think I would dry up my blood and ruin my skin by drinking tea?'"
"The coffee habit grows on one, and when coffee is used as a stimulant there is a reaction, which means depression and causes over-indulgence or the use of stronger stimulants. In the continued use, stimulants dull the mind and weaken the muscles."
NOTE.—It is a satisfaction to know that in the pure food-drink, Instant Postum, increasing thousands are finding a delightful morning beverage—a beverage free from drugs or any harmful substance, and free from coffee's ill, but rich in those food elements supplied by Nature for building good blood and strong, healthy bodies.—Advertisement.
