BANKRUPT NERVES
Each of us has a certain supply of nervous energy. Every act, even every thought, uses up some part of this energy. During rest and sleep the supply is increased by the blood which gets the needed elements from the air we breathe and the food we eat.
Your nervous energy is like a bank account. If you use it up faster than you add to it you overdraw your account. Neurasthenia is the name given to nervous bankruptcy. It means that the power to recuperate is gone. The blood can be built up so that it will increase the supply of needed elements. The only way that the nerves can be reached. Dr. Williams' Pink Pills are a tonic that especially builds up the nerves because they supply to the blood the elements that the nerves need. Many nervous disorders, sometimes chronic ones, have yielded to this tonic because they have failed to give relief. They are certainly worthy of a trial in every case of weak nerves and thin blood.
Dr. Williams' Pink Pills are sold by druggists everywhere or will be sent by mail postal on receipt of price, 50 cents per box, six boxes \$2.50 by the Dr. Williams Medicine Co., Schenectady, N. Y. Write to-day for free book on the nerves.--Advertisement.
