NONPARTISAN ROYAL
The Democratic bosses to whom Mayor Royal has trucked ever since he was elected, and who are urging his election to City Council on the ground of his "nonpartisanship" make themselves ridiculous when the intelligent people of Harrisburg who know Royal for what he is, a Democratic partisan of the most pronounced type; one who disguises his true self beneath the lamb's cloak of faithful public service.

CALDWELL FOR SHERIFF
THE best recommendation of any man for office is his past record. If his past is clean and his accomplishments worthy of public commendation; if he has been able and efficient in the conduct of duties entrusted to him, then it is but reasonable to conclude that he is a man worthy of greater trust. When the private employer finds a man trustworthy in a small place, he does not allow him to remain in a minor position, but he promotes him. So ought it to be in the public service.

ROYAL'S COURSE IN THE POLICE DEPARTMENT
where he is accused of playing favorites with friends who violated the traffic ordinance, has been a subject of adverse criticism ever since his election. He no sooner assumed office than he ordered wholesale dismissals in the police force. He removed many trained and capable patrolmen to make way for a lot of broken-down Democratic politicians, some of whom were so utterly inefficient that they eventually had to give way to men more capable of performing their duties.

THE RECORDERSHIP
The office of recorder of Dauphin county is to be filled this fall. One of the needs of that office is that it be conducted by a man of business ability, honest beyond question and widely acquainted with the districts and the people of the county.

HARRISBURG AND ALLENTOWN
ALLENTOWN is falling into step with Harrisburg in the matter of city planning. Colonel H. C. Trexler is the head of the City Planning Commission of that city and with his usual energy is conducting a campaign for the making over of Allentown as one of the great cities of the State.

ROYAL'S COURSE IN THE POLICE DEPARTMENT (continued)
where he is accused of playing favorites with friends who violated the traffic ordinance, has been a subject of adverse criticism ever since his election. He no sooner assumed office than he ordered wholesale dismissals in the police force. He removed many trained and capable patrolmen to make way for a lot of broken-down Democratic politicians, some of whom were so utterly inefficient that they eventually had to give way to men more capable of performing their duties.

of city planning from the cities of ancient and medieval times to those of the present period. It comprised over 500 large-sized photographs, maps and drawings, systematically arranged and mounted upon panels of uniform size. These panels were grouped and classified according to the various phases of city planning. Each illustration was descriptively explained, thus enabling the visitor readily to comprehend the benefit derived from city planning.

TELEGRAPH'S PERISCOPE
The President and Mrs. Galt are busy these days visiting each other's relatives. Well, one has to get those things over with and the sooner the better.

EDITORIAL COMMENT
We have made a book containing clippings of the European war. Would you call it a scrap book?—Chester Times.

BOOKS AND MAGAZINES
With the progress of the great war in Europe there is an increasing demand for some authoritative work upon the causes and effects of the titanic struggle. Recently the Telegraph in this department referred to the publication of the United States (Philadelphia) of "The Great War," by Dr. George H. Allen, of the history department of the University of Pennsylvania.

MOVING PICTURE CENSORSHIP
Governor Brumbaugh, in the effort to enforce censorship of moving picture films, has sent a letter to all departments of the State government urging their cooperation in seeing that the law is observed. Every film displayed must have a certificate of approval from the Pennsylvania State Department of Censorship. All attacks of representation of an actor in a picture that were not sanctioned by the State board have been shown in Pennsylvania since the law was enforced.

STEEL BUSINESS IS BOOMING
Anything but good news regarding iron and steel would occasion surprise. Each week the position of the great basic industry, which means so much to the country at large, becomes more secure, and in some branches the volume of business is the largest in history.—Dun's Review.

Politics in Pennsylvania
By the Ex-Committeeman
With election one week away Republicans throughout the State declare that the prospects are for the Republican ticket sweeping practically every county and most of the municipal divisions. That Republicans will win in the cities appears to be conceded and in most of the counties the Republican ticket is practically a foregone conclusion.

TELEGRAPH'S PERISCOPE (continued)
Have you had your teeth in one of those "the kind mother used to make" pumpkin pies this fall?

EDITORIAL COMMENT (continued)
Some idea of the size of America's sweet tooth may be had from the fact that, with less than 6 per cent of the world's population, we consume 23 per cent of the world's sugar.—Altoona Mirror.

BOOKS AND MAGAZINES (continued)
The Philadelphia Inquirer to-day says: "Voters of the northwest and northeastern sections of Philadelphia last night welcomed the invasion of Thomas B. Smith and other nominees of the Republican ticket into their neighborhoods with enthusiasm and seldom tendered candidates for local office. Parades in which thousands of Republicans marched through the city, and four mass meetings held in the city, were held in the evening. Sentimental music, accompanying the local nominees on the campaign, was heard in the streets, calling for a sweeping Republican victory in Philadelphia, not only for the benefit of the city, but for the country at large."

MOVING PICTURE CENSORSHIP (continued)
Governor Brumbaugh, in the effort to enforce censorship of moving picture films, has sent a letter to all departments of the State government urging their cooperation in seeing that the law is observed. Every film displayed must have a certificate of approval from the Pennsylvania State Department of Censorship. THE CARTOON OF THE DAY
FILL THEM UP AGAIN
A cartoon showing a man with a large belly and a small head, looking at a large barrel labeled 'EXCUSES'.

FISHES OF THE PHILIPPINES
By Frederic J. Haskin
OSTERS four times the size of those in commercial use, fish capable of generating electric light and using it for their food, whose new families of fish and thousands of new varieties, are among the discoveries made by the party of scientists on board the Fisheries steamer Albatross, which recently completed a cruise through Philippine waters.

THE STATE FROM DAY TO DAY
"High Jinks" are being planned for Greater Pittsburgh's celebration of the centennial of the signing of the Declaration of Independence. The only and protechnic displays will be only a part of the carefully planned jubilee.

WELL KNOWN PEOPLE
R. H. Stevens, chief engineer of the Homestead Steel Works, has given up his place to accept a similar one with the new Midvale company.

DO YOU KNOW
That Harrisburg is becoming quite a distributing center for hats?

OUR DAILY LAUGH
Jack: Greatluck this morning. Fred: A ten-dollar bill in my last summer's suit. Jack: Fred! No! Why I thought you were married.

THE SHOE TAX
Father's income knows what it is and to mother it is also a very real thing. It means the high cost of keeping a growing boy or girl properly shod. When father and mother figure out all the new shoes they have to buy, and when they conclude shoes are made out of paper rather than leather.

OUR DAILY LAUGH (continued)
This doesn't start out like a Fourth of July picture, does it? But be calm, we were told to draw a Fourth of July series, and doggonit — we're gonnit — we're gonnit — we're gonnit.

OUR DAILY LAUGH (continued)
Thousands of tons of anthracite fuel will be uncovered by the Lehigh and Wilkes-Barre Coal Company, at its Green Mountain operations, where veins close to the surface will be uncovered by steam shovels.
