

Armies Fight on Their Stomachs

It Takes Good Digestion to Win in War or Anything Else—Use Stuart's Dyspepsia Tablets to Aid Digestion.

Send for FREE Trial Package If your stomach can't take care of your food properly by itself, what is the logical thing to do? Not to give up and resign yourself to being a dyspeptic semi-invalid. No, the thing to do is to aid your stomach, to give it

a little vacation, so that it can gain strength, by using Stuart's Dyspepsia Tablets after meals. Stuart's Dyspepsia Tablets go into your stomach just like food. They help digest this food. Then they enrich the blood and thus when the next meal is eaten the system is better prepared to do its work without assistance.

FREE TRIAL COUPON F. A. Stuart Co., 203 Stuart Building, Marshall, Mich., send me at once a free trial package of Stuart's Dyspepsia Tablets.

OUCH! LUMBAGO! RUB PAINS FROM SORE, LAME BACK

Rub Backache away with small trial bottle of old "St. Jacob's Oil."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacob's Oil."

NEW MATERNITY HOSPITAL IN PITTSBURGH DEDICATED

Pittsburgh, Pa., Oct. 27. — Dr. Walter R. Chipman of Magill University of Montreal, was the principal speaker today at the dedicatory exercises which threw open to the public the Elizabeth Steel Magee Maternity hospital. The hospital, erected at a cost of approximately \$1,000,000 was provided for in the will of the late C. L. Magee. It has an endowment of \$2,000,000, and in addition to caring for unfortunate women of whom no questions may be asked, is complete in every detail with educational and clinical features related to obstetrics.

DRIVEN OUT OF SERBIA

Salonki, Oct. 26, 5 p. m., via Paris, Oct. 27, 10:30 a. m. — The Bulgarians have been completely driven out of Serbia on a line extending from the French sector to Kriudalo and Lukevan. They have been pushed back into the outskirts of Isip, probably rendering their Kumanovo-Vranja line untenable owing to the menace of a Serbian attack on both sides.

HAIR AND SCALP NEED DAILY CARE

Beautiful Hair is Within the Reach of All If you value the appearance of your hair you should treat your scalp as often and well as you brush your teeth. Rub into the scalp pores twice daily a little Parisian Sage. This treatment is not a mere "hair tonic." It is bottled nourishment for the hair roots and it is simply wonderful what it will make in the appearance of anyone's hair. It never injures, is delightfully cool and pleasant to the scalp and takes the dull, lifeless look in the hair, making it soft, fluffy, lustrous and beautiful. Two or three applications remove every trace of dandruff, and daily use will prevent its return. H. C. Kennedy and the leading druggists everywhere can furnish you with Parisian Sage—it costs but a trifle.—Advertisement.

GREAT DEVELOPMENT UNDER HARVEY TAYLOR

[Continued From First Page.]

Commissioner Taylor will have finished a program of constructive work in playground and park development more extensive possibly than any other city councilman. Commissioner W. H. Lynch, superintendent of streets and public improvements, shares with Mr. Taylor the honors for constructive work accomplished in the city during the last two years, although it is conceded that the park head leads in the extent and character of permanent development projects.

Reclaimed River Park Standing out with special prominence is Mr. Taylor's program in the River Front improvement. Thousands of yards of river bank was reclaimed and turned into nice broad stretches of park by Mr. Taylor's economic methods of "filling in" along the parkway. Appreciating the worth of the river front as a city asset, Mr. Taylor devoted a considerable portion of his time and labor to grading and planting of slopes in such a way as to conform to the great river front wall that extends the length of Harrisburg. Thousands of shrubs are being planted on the slopes from Maclay street to iron, along the top of the bank from Maclay to Division streets, a strip of park land has been reclaimed by fill and is now being planted with splendid elms.

Along the River Not, however, that Mr. Taylor confines his efforts to the upper and lower South Harrisburg. Ramps have been constructed at every block to make access to and from the wall easier. Electric lights have been placed from Paxton to Dock streets, thus completing the chain in the park. Incidentally Mr. Taylor added the final touch to the attractiveness of the "front steps of Harrisburg" by placing 54 of the wall standards in place this Fall. So much for the River Front. On the Cameron parkway all the necessary land to complete the chain to Commissioner Taylor and work is already under construction. The construction of the broad driveway that begins at the terminal of the present Cameron extension highway and will continue to Perry street before winter sets in. Furthermore, the parkway has been started by Mr. Taylor to obtain the remaining tracks of land north of Reservoir that will complete the park encircling chain to Wildwood.

Record Year For Playgrounds As for playgrounds Commissioner Taylor has completed two years of service for the city in this direction which has been unparalleled. Fourteen playgrounds were in active operation this summer and the largest turnout of children in the city's history flocked to the recreation places. In addition to the regular places of amusement, Mr. Taylor provided equipment and structures for the small colored children in various parts of the city, and opened a playground on a lot in the Eighth ward, borrowed for the purpose from the Capitol Park Extension Commission.

Two new playgrounds were added to the city's list by Mr. Taylor. The stretch at Sycamore and Fourteenth streets containing its eighth-mile track, tennis courts, is probably one of the most modernly equipped in this section of the State. Not unkindly of the needs of the youngsters of the upper end, commissioner Taylor provided an equally attractive playground at Fifth and Emerald streets.

Permanent Improvements

In all the city-owned playgrounds permanent improvements were made. For instance at Twelfth streets electric lights were put up, permanent tennis courts were provided by installing iron standards for the wire screens and setting the posts in concrete, and a splendid formal memorial entrance was made possible through the co-operation of colored and white friends of Dr. William H. Jones. Reservoir Park has been further developed and beautified by Park Commissioner Taylor. The greatest improvement there perhaps was the construction of the new formal entrance and roadway that winds into the park from Market and Twenty-first streets. The construction of a modern golf and clubhouse and a pavilion at Cherry Hill—all from savings from maintenance appropriations—the installation of concrete "bubble" fountains, the remodeling of the tennis courts by the placing of permanent iron standards and screens.

In Wildwood Wildwood Park has shared, too, in the improvements accomplished by Commissioner Taylor. The park superintendent has been busy in the center path leading from the newly completed Division street bridge into the park. The path affords ample and convenient means of egress and ingress for West End folk who want to get into Wildwood without making the long detour via Maclay street or Ott's lane. More than 150 tons of cinder have been used on the walk.

Other improvements in the great park stretch included the construction of a commodious pavilion from the ruins of an old barn; construction of one concrete bridge over the creek; the opening up of picnic areas and the clearing of the too heavy growths of underbrush; establishing of self-sustaining boating system and means to insure proper skating facilities on Wildwood Lake.

Taylor's Work For Wildwood Some other mighty important acts that have served to make a better Harrisburg must be credited to Commissioner Taylor, too. For instance he acquired a twenty-five acre tract of land or parkway purposes by gift alone to say nothing of the 35.33 acres he obtained by purchase at a cost of \$285 an acre. The appointment of the city forester which increased the proper care and maintenance of Harrisburg's trees, the appointment of a City Planning commission—these are only a few of the big pieces of progressive legislation which Mr. Taylor is responsible for.

Among the more difficult obstacles he overcame in constructive work was one improvement by the way which contractors and engineers alike declared just "couldn't be done" the building of the handsome new concrete and rubble bridge across Spring creek in Cameron park, a short distance east of Cameron street. Final Reason For Taylor's Return For years an old plank bridge spanned the creek in the elbow of probably the most important arterial highway city parkway and a point that caused the redoubtable autoist to shiver every time he crossed it. By building the bridge, Commissioner Taylor straightened the link in the road and provided a safe and easy means of passage for all time. As for the fire service, Mr. Taylor was responsible for the beginning of the movement to provide a modern fire department for Harrisburg by purchasing motor drawn equipment—four new combinations and three new trucks. The construction of the new Royal firehouse in the Thirteenth ward will go down in history as one of Mr. Taylor's progressive steps as a city councilman. And then finally but certainly not least, so far as the tax-paying citizen is concerned, Commissioner M. Harvey Taylor was one of the three City Council members who reduced the mill rate for 1915 from nine and a half to nine mills.

ONE CENT SALE!

Thursday, Friday and Saturday October 28, 29, 30

1 CENT will buy any article mentioned in this advertisement regardless of its retail value, providing a second article of the same kind is purchased at our regular price.

Aviator Tells of His Double Exploit in Clouds; Destroys Big Balloon

Paris, Oct. 27. — Sergeant-Aviator "G. G." who recently destroyed a German captive balloon and an aeroplane on one trip, describes his double exploit in a letter received by friends at Fontenay-le-Comte, where he was a high school teacher. "It was our fourth attempt," writes the aviator, to attack a famous balloon which was so well guarded that we never were able to get near it. When we got over the Boche lines I saw our balloon emerging from a sea of clouds 15 miles away. Being wary, we made a wide detour so as to get to windward and bear down upon it from its own lines whence it was certain not to expect an attack. "On the way, however, we came upon a sentinel aeroplane which being beneath us, did not appear to see us. I signalled our pilot. He pushed

THUNDER STORM FOLLOWS HIGH TEMPERATURE

Weather conditions in Harrisburg and vicinity yesterday and early today neared the record-breaking point for the last 27 years. Early yesterday morning the temperature was 40 degrees, but shortly after noon it had passed the 70 mark and came within two degrees of breaking the record for the hottest day in October, which was made in 1903. Late in the afternoon a thunderstorm passed over the city, accompanied with heavy rainfall for almost an hour. Late last night a heavy fog settled over the city. The skies did not clear until after 8 o'clock this morning.

WILL NOT DISCUSS CONFERENCE

Berlin, Oct. 27, via London, 10.43 a. m.—Ambassador Gerard declined today to discuss for publication his conference yesterday with Emperor William. The conference which took place at Potsdam, lasted for an hour.

A Great Factor in Long Life

Health and comfort in advanced years can best be maintained by avoiding worry as far as possible, and adhering to a simple diet, but if the vitality gets low, the system becomes run-down, and weakness creeps on, our local druggists, George A. Gorgas, Druggist, Kennedy's Medicine Store, 321 Market St., C. F. Kramer, Third and Broad Sts., Kitzmiller's Pharmacy, 1325 Derry street, Harrisburg, Pa., have a wonderful combination of the three most successful tonics—iron, cod liver extract and beef peptone—all combined in Vinol which they guarantee to build up and create strength for the run-down and aged, or refund your money.—Advertisement.

THE WEATHER A YEAR AGO TODAY Snow. Temperature, High 36 degrees, Low 24 degrees—remember Laxative Bromo Quinine cures a cold in one day. There is only one "Bromo Quinine." Lock for signature E. W. GROVE, 25c.—Advertisement.
