To Quickly Remove Ugly Hairs From Face

Beauty-destroying hairs are soon banished from the skin with the aid of a delatone paste, made by mixing some water with a little plain powdered delatone. This is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed to remove the remaining delatone. This simple treatment banishes every trace of hair and leaves the skin without a blemish. Caution should be used to be certain that it is delatone you buy.

LIME MEDICATION IN TUBERCULOSIS

In the N. Y. Medical Record of December 5, 1914, Dr. John North, of Toledo, says: "I have come to the conclusion that one of the most prominent causes (of tuberculosis) is lime starvation." In all cases of incipient tuberculosis there is a deficiency of calcium. Many do not eat food containing enough lime. In such cases we must resort to lime medication.

Eckman's Alternative should be given a fair trial in such cases, because one of its chief ingredients is calcium (lime) in such combination with other remedial agents as to be easily assimilated by the average person.

Where its use is combined with proper diet, fresh air and hygienic living conditions, we believe it will prove beneficial in any case of tuberculosis. It contains no opiates, narcotics or habit-forming drugs, so is safe to try. From your druggist or direct.

MRS. DUNBAR ON WOMAN SUFFRAGE

Challenges Men to Present Real Argument Why Women Should Not Vote

Fully 1,000 persons heard Mrs. Paul Lawrence Dunbar, widow of the famous negro poet deliver stirring lectures on suffrage at meetings in A. M. E. Zion Church, this city and Monumental A. M. E. Church, Steelton, last night. Both churches were packed to the doors and the rear aisles were filled with scores who could not find seats.

Mrs. Dunbar has thrown herself heart and soul into the suffrage cause, and she spoke with a conviction that did not fail to impress her hearers. Her address was devoted principally to a refutation "of erroneous ideas that have been existing among men, without grounds, concerning the saying that the woman's place is in the home."

She challenged the men in both her audiences to present some strong argument that would prove conclusively that women should not have the vote. No one apparently cared to oppose her for none stepped forward. In talking to the women, Mrs. Dunbar said that they should get their husbands and friends by the lapels of the coat, back them up against the wall and ask them for their objections.

COLD WEATHER RHEUMATISM

Why should rheumatism, a disease of the blood, be worse in cold weather than in summer?

The rheumatic poison in the blood is a predisposing cause of the disease. If you have the taint in your blood you may have rheumatism whenever the exciting cause stirs it to action. Cold weather and dampness are exciting causes of rheumatism. They excite to action something already in the blood, something that you must get rid of if you would be free from rheumatism.

What this something is, nobody knows. Not very long ago it was thought to be uric acid. Many doctors now think it a microscopic organism or a specific bacillus, but they cannot find the bacillus.

It is a known fact that in rheumatism the blood becomes thin rapidly that building up the blood relieves the rheumatism and that there will be no return of the rheumatism as long as the condition of the blood is maintained. Dr. Williams' Pink Pills are recommended for rheumatism because they keep the blood rich and red and free from rheumatic poisons.

The free book, "Building Up the Blood," tells all about the treatment. Send for a copy to-day to the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.—Advertisement
