HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg Breast Tea, or, as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieves congestion, also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.—Adv.

3RD AMENDMENT VITAL TO STATE

Importance of the Compensation Change to Constitution Is Emphasized Now

State Treasurer Robert K. Young, chairman of the State Workmen's Insurance Fund, to-day issued a statement in which he strongly urged the ratification of the third amendment to the Constitution, which permits enactment of compulsory compensation laws. Mr. Young says it is necessary to complete the compensation system.

The proposed amendment to the Constitution of the Commonwealth which appears third upon the ballot to be submitted to the voters of the State at the November election is that which amends Section 21 of Article 3 so as to give the Legislature the power to enact a compulsory workmen's compensation act.

The General Assembly may enact laws requiring the payment by employers, or employers and employees jointly, or reasonable compensation for injuries to employees arising in the course of their employment, and for occupational diseases of employees, whether or not such injuries or diseases result in death, and regardless of fault of employer or employee, and fixing the basis of ascertainment of such compensation and the maximum and minimum limits thereof, and providing special or general remedies for the collection thereof, but in no other cases shall the General Assembly limit the amount to be recovered for injuries resulting in death, or for injury to person or property, and in case of death from such injuries the right of action shall survive, and the General Assembly shall prescribe for those benefit such actions shall be provided. No act shall prescribe any limitations of time within which suits may be brought against corporations, or for other causes, different from those fixed by general laws regulating actions against natural persons, and such acts now existing are avoided.

The dominant purpose of the workmen's compensation act of 1915 is to encourage the decrease in the number of industrial accidents by stimulating the improvement of safety conditions, to secure to the employees who are injured the speedy payment of a definite part of their wages by the means of securing to those injured employees and their families a reasonable maintenance to assist in saving the victims from poverty and pauperism, and to aid in their recovery by bringing and education of their children.

The vital importance of a workmen's compensation law caused the Legislature at its last session to enact the present law, which goes into force on the first of January next. The provisions of this act are so fair that it is not likely that many employers will reject the benefits. In order that no employees will be deprived of the protection which the act was intended to give, the proposed third amendment should receive your vote at election.

In order that the State may be in a position to safeguard the welfare of the workers, it should have the right to require that every person employed in its industries shall have the protection of its workmen's compensation act.

With A. Carson Stamm, one of the Republican nominees for school director on all 25 tickets, his election is sure. It therefore remains only for Republicans to remember that Mr. Fenders represents the western section of the city on their ticket and Dr. Keene the eastern section.

NEW GENERAL STAFF

London, Nov. 1.—The British Government has been engaged for the past two months in creating a new general staff to supervise the prosecution of the war by the armies in the field, says the Lobby correspondent of the Daily News. The paper expresses the belief that this staff, which is now complete, will command confidence.

Voting to-morrow will not be difficult if the voter will remember that in order to vote in the party ticket he must mark a cross (X) in the square in the first column to the right of the party name of his choice. If he desires to vote his ticket, he must then place a cross after each name of his choice. He must likewise, even if voting a straight party ticket, place a cross after each of his selections in the nonpartisan column.

Will Verify Statement. Mr. Philip Gelber, 545 Bushwick Ave., Brooklyn, N. Y., will verify to anyone interested his endorsement of Fruitola and Traxo. In writing to the Pinus laboratories Mr. Gelber says: "I suffered with gall-stones seven years—tried various remedies without satisfactory result—was induced to try Fruitola and Traxo. Glad to say I am now feeling better than at any time for years and heartily recommend Fruitola and Traxo." Fruitola acts on the intestinal organs as a powerful lubricant—softening the congested masses, disintegrating the hardened particles that cause so much suffering and expelling the accumulation with and stomach, and is especially recommended in connection with Fruitola to build up and restore the weakened run-down system. For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through representative druggists in Harrisburg. They can be obtained at Gorgas, the druggist, 16 North Third street, and P. R. H. Station.
