

The Industrial Activities of Harrisburg

The Philadelphia EVENING LEDGER is now publishing a series of articles reviewing the industrial situations in the larger communities of Eastern Pennsylvania. The articles appear twice per week—Monday and Thursday.

The contribution for to-morrow will cover "The Industrial Activities of Harrisburg and Vicinity." It will describe the condition of Harrisburg's industries and cite instances of new business created by the war in Europe.

From the EVENING LEDGER daily. Its many excellent features, its back page of rapid-fire news pictures, and the attractive manner in which it records the day's deeds are rapidly making it the favorite evening newspaper of Pennsylvania.

HEALTH INSURANCE

Some people are naturally thin. There is also a natural pallor but most people who are both thin and pale are far from well and they need a tonic. Many people neglect to take a tonic until they get so sick that a tonic is not sufficient just because the demand of the debilitated body is not insistent enough. The pale face, weak nerves, unsteady digestion are neglected until the point where pain and actual breakdown requires medical treatment. A tonic taken in time is the best health insurance. It supports the overtaxed system, the worried nerves until nature can make repairs. Build up the blood and you are sending renewed health and strength to every part of the body. The appetite is improved, the digestion is toned up, there is new color in the cheeks and lips, you worry less, become good natured, when before you were irritable and you find new joys in living. Tonic treatment is useful in dyspepsia, rheumatism, anemia and nervous disorders. In many cases it is all the medical treatment that is required. Free booklets on the blood, nerves and diet will be sent on request by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills. — Advertisement.
