STEELTON RECORDS BROKEN

Never Has Trade Seen Demand So Overwhelming As at Present

Records for steel production that have stood for years, fell during October—and the increasing activity in the iron and steel trades still continues, according to the weekly review of the situation by the Iron Age. That journal says:

"Never has the steel trade seen demand so overwhelming as at present and at the same time output expanding on such a scale, under steadily advancing prices. The tide has risen rapidly this week with increasing signs of excitement.

"In pig iron history October goes down as the month in which the country's yield first reached 3,000,000 tons and the daily output crossed the 100,000-ton mark. When war order tonnage of six figures are banded about so commonly, it is hard to believe that the year opened with a daily pig iron production of only 51,000 tons or half what it is now.

"Railroad buying is still at high pressure. The Pennsylvania has settled on 175,000 tons of rails, 44 per cent, or 77,000 tons, going to the Steel Corporation, 22 per cent, each to the Pennsylvania and Cambria companies and the remainder, 21,000 tons, equally divided between the Bethlehem and Lackawanna companies. The Boston and Maine has placed 25,000 tons with the Lackawanna Steel Company.

"In recent weeks the railroads have bought upward of 27,500 cars and as many more will shortly be closed, the latest inquiry being for 9,000 for the Pennsylvania Railroad."

POLICE DEPT. TO BE REORGANIZED?

Rumored That Changes Are Coming; Transfers in Other Departments Reported

With the personnel of the body of Steelton's elective officers now decided, public attention has naturally turned to the appointive offices.

While none of the newly-elected councilmen have publicly expressed themselves as to their favorites for the various police departments, heads of which will be appointed following reorganization of council in January, a number of rumors have been in circulation for some time.

One of these rumors is to the effect that the police department, the efficiency of which has been a bone of contention for months, will be reorganized. Just how far this rumored re-organization will go, no one will venture to predict. At any rate the type of men who have been elected to council leaves little doubt that the kind of efficiency which has existed in the police departments in the past days will no longer be tolerated.

Another report that has been going the rounds for some time is that there is a change pending in the water department. E. Baskin the present superintendent, was a defeated candidate for justice of the peace. Men who are in close touch with local politics say that Baskin's candidacy showed that he desires a change.

Whether or not there will be any change in the Health Department is not known. The efficiency of this department has been questioned on the floor of council and considerable effort has been made to improve efficiency here in recent months. It is not likely that present plans of this department will be interfered with.

OFFICERS INVESTIGATING MYSTERIOUS FIRE

Deputy State Fire Marshal W. M. Bohn is investigating a bold attempt to burn down the home of Peter Rock, 512 Good street, to-day. An oil-soaked skirt was packed between a shutter of the Rock home yesterday and then lighted. The side of the house was burning when the flames were discovered by Mrs. Rock. Deputy Bohn investigated the fire to-day but found no clues.

How to Rub Out Wrinkles And Other Beauty Secrets

Most important to the average woman is how to get rid of those telltale signs of age—wrinkles and crow's feet. Much has been written on the subject, but the only treatment worth while is the one that does the work. Any woman who prepares a wrinkle cream in a few minutes that will certainly give Old Father Time an awful tussle. Women who have tried it pronounce it almost magical in its results. It is very simple and easy to prepare. Get from any drug store about two ounces of powdered eptol, dissolve it gradually in half a pint of hot water. Then add a table-spoonful of glycerine. This will give you a wrinkle remover that cannot be excelled. Use freely night and morning, and you will soon notice results.

Penrose to Go

Senator Boies Penrose will leave to-morrow for San Francisco with the Philadelphia committee which will escort the Liberty Bell home. The return of the bell is to be made a notable trip and the senator will make a number of speeches along the route.

Forty-eight Arrests

Orders were issued to-day for 58 arrests for violation of the pure food and milk laws of the State, the actions being started in 12 counties. In Philadelphia arrests were ordered for the sale of bad eggs, adulterated cakes, lard and sausage. Some of the other arrests were ordered in Juniata and Huntingdon counties.

Extensions Given

Commissioner of Health Dixon has granted extension of time for completion of sewage system plans to Tyrone, Butler, Milton and Selinsgrove. Progress has been reported on the work in those towns.

To Consider Buying

Highway Commissioner Cunningham plans to consult with a number of representatives of turnpike companies in regard to the acquisition of stretches in the State system and it is possible where attempts are made to hold up the State or to sell at higher figures than the market price of shares that the State will build parallel roads. The commissioner has been doing some turnpike inspection lately.

WOMEN! TRY IT! SAVE 5 DOLLARS

Says gasoline and solvite in wash boiler dry cleans everything.

Ever dry clean at home? Well, it's so easy, inexpensive and the results so pleasing you'll be surprised. Any woman can clean and renew the brightness of ribbons, silks, satins, laces, yokes, silk shirts, kid gloves and shoes, furs, neckties, children's coats, suits, caps, swiss, lawn, organdy and chiffon dresses, fancy vests, veils, woolen garments, network, draperies, rugs, in fact, any and every thing that would be ruined with soap and water.

Get two ounces of solvite at any drug store and put it in two gallons of gasoline, where it quickly dissolves. Then put in the goods to be cleaned, rub a little and out they come looking as bright and fresh as new. You will find nothing fades, shrinks or wrinkles, requiring no pressing.

Any woman can do five dollars' worth of home dry cleaning in a few moments and you can't make a mistake. You grocer or any garage will supply the gasoline and the drug store will sell you two ounces of solvite, which is simply a gasoline soap. Then a wash boiler or large dishpan completes your dry-cleaning outfit.

As gasoline is very inflammable, be sure to do your dry cleaning out of doors or in a room away from fire or flame, with the windows left open.

Full Crew Cases Now Before Commission

Three formal allegations of violation of the full crew law by railroads of Pennsylvania were heard by the Public Service Commission to-day and others of an informal character were continued so that they could be made in specific form. No decisions were rendered in the cases which involved questions of how cars and certain positions of men should be regarded.

Involved the question whether one man could act as baggagemaster and express messenger, while the third against the Pennsylvania was whether a combination car was to be regarded as two cars or one.

The informal complaints were against the Cumberland Valley, Pittsburgh and Lake Erie, and others.

TOMORROW! Even while you're finding it, it's fun to find yours! One warning: whether it's fatima or some other good one. Be sure it's SENSIBLE. You think you've guessed it, but!
